DEPARTMENT*				
DEPARTMENTAL ADMINISTRATION PROGRAM				
<i>Transportation training</i>				
Canadian Coast Guard College—Sydney, NS	19,463	255	1,092	19,021
Transport Training Institute—Cornwall, Ont	61,048	619	1,080	59,733
Electronic equipment for marine training	6,860	1,356	344	1,744
Canadian Coast Guard College—Physical training facilities—Sydney, NS	6,100	200	713	713
Air traffic control simulation systems	1,007		189	842
MARINE TRANSPORTATION PROGRAM				
DEPARTMENTAL				
<i>Aids to navigation</i>				
V T M Study—Phase II	645		136	136
Loran “C” East Coast	11,234	6,950	4,779	7,268
Replacement of gyrocompasses for vessels	2,090	274	238	965
Replacement of navigational radars for vessels	2,281	413	312	1,576
Decca improvements—East Coast	526	146	170	423
Lightpier Replacement Program—Beauharnois to Sarnia	2,081	827	237	1,637
Dartmouth Base—Wharf electrical system	293		315	389
Fleet Capital Investment Plan (FCIP):				
Replacement of Dumit	4,700		68	3,914
Type 1000—Contract design	640	800		
Type 1050—Contract design	250			
Type 800—Construction of two ships	4,280	1,340		
Major refit—“Sir Humphrey Gilbert”	8,490	70		
Major refit—“Tupper”	1,980	940		
Marine projects (eg. barges, hovercraft, capital modifications above \$100K)	2,900	2,900		
Lightstation Automation Pilot Project, Phase II	1,639	959		
CCGS Wolfe—Repairs due to fire damage	2,859	370	970	1,997
Miramichi Aids, NB	2,019	734	855	855
Loran “C” Station, Port Hardy, BC	1,900		4	1,872
CCGV “Camsell”: capital repairs and refurbishing	5,107		543	4,885
Two navigation aids tenders to replace Remy and Parry Sound	2,009			2,007
<i>Ship movement systems and services</i>				
Relocate Tofino Radio Station	900		24	884
Communications control system	350	82	71	309
VTM System—Les Escoumins	4,854	1,201	586	4,750
Extension of VHF radio coverage—West Coast	6,847	1,251	1,069	1,495
Tapo recorders—Radio stations	1,800	500	508	860
VTM—West Coast	18,355		82	18,309
Radar spares—Vessel traffic management system	333	333	363	363
Replace CG Radio Operations Bldg. at Grindstone, Magdalen Islands	968	437	113	125
Install VTM System, Prince Rupert, BC	2,284	90		
HF/SSB transmitters—Coast stations	5,275	1,150	840	4,129
<i>Icebreaking, Arctic and other ship support</i>				
Ice Covered Waters Program:				
Pollution counter-measures equipment	2,601	738	735	735
National Spares Program	450		336	336
Parametric studies	1,150	250		
Extension of conventional aids in the Arctic	1,000	400	371	614
Replacement of CCGS “D'Iberville” Third ‘R’ class icebreaker	67,736	42,454	40,685	58,456
Fleet Capital Investment Plan:				
*Type 1100—Contract Design	1,000	1,000	260	260
Installations of HF/SSB radio telephones on CG vessels	3,086	160	161	3,045
Facsimile terminals for CCG vessels	776	150	197	197
Helicopter Homing Beacons	1,014	129		
Loran “C” receivers for CG vessels	789	300	248	248
Polar icebreaker design	1,483		761	761
Fleet Replacement Program: engineering and design	119,492		28	116,598
Construction of an air cushion icebreaking platform	2,100		34	1,483
R & D ACIB Design completion	250		236	236
<i>Direction and administration</i>				
Building 1074—Frobisher Bay	573		613	613
<i>Marine search and rescue</i>				
Seven marine search and rescue vessels (two cutters, two lifeboats, two crash boats and one steel tug)	9,499	6,185	3,848	4,864
Marine search and rescue vessels (two 21 metre cutters)	5,649	250	294	3,740
Marine search and rescue offshore supply vessel (West Coast)	6,350	2,200	1,890	6,290
Replacement of crash boat—(Kitsilano Base)	647	447	85	85
Type 305—Shipegan (improved lifeboat)	1,636	708		
Type 400—Victoria (21 metre)	2,895	1,254		
Type 400—Meaford (Spume) (21 metre)	2,895	1,254		
Type 400—St. John's (21 metre)	2,896	627		
Type 600—Offshore cutter, NS (Jackman)	5,100		496	5,086
Type 310—Design for Class 310 (lifeboats)	250	250		
Type 600—Design for Class 600 (offshore cutter)	500	250		
Reconstruct additional hovercraft	335	335	295	295
Replacement of CCGS Daring (Class 600)	5,000	5,000

Extend and strengthen runways, taxiways, apron, lighting and other related facilities—				
Newfoundland—				
Goose Bay—				
Repairs to asphalt surfaces	360		51	82(f)
Major repairs to POL lines and systems	300		45	88(f)
Quebec—				
Mont-Joli—Overlay Runway 06-24	1,107	1,107	1,067	1,067(f)
Sept-Îles—Overlay Apron No. 1	520	520	520	520(f)
Sept-Îles—Overlay Runways 10/28, 14/32, Taxiways E and O	1,117		10	1,106(f)
British Columbia—				
Quesnel—Strengthening overlay of runway 12-30, extend ramp and taxiway..	368	317	368	368
<i>Airport development—</i>				
Newfoundland—				
Deer Lake—				
Field electrical centre	786	226	25	25
Enlarge aircraft parking type "D"	432	432	216	216
Water supply CW pumphouse	483	216	85	85
Makkovik—Construct runway, purchase equipment, construct shelter	1,711	100	56	1,646
Mary's Harbour—Construct runway	1,520		37	1,329
Nain—Construct runway	1,362		35	1,316
Stephenville—				
Upgrade emergency power supply	1,080	1,080	541	745
Extend AES Garage	280	143	73	73
Upgrade aerodrome lighting to Civil Aeronautics Standards "T"	735	735	519	709
<i>Wabush—</i>				
Parking lot and access road	1,098	201	431	1,078
Construct water supply and sewage disposal system	352		2	407(f)
Construct air terminal building and operations building	3,917		137	3,922(f)
Construct firehall, maintenance garage, sand storage building	2,401		22	2,371(f)
Provide electrical system	306		6	222(f)
Develop new ramp and taxiway complete with lighting	995		20	967(f)
<i>New Brunswick—</i>				
St Leonard—Construct municipal airport	3,816	263	274	3,809(f)
Charlo—Develop and relocate operations complex, ramp, taxiway, extend runway, etc.	6,046		32	5,509(f)
<i>Quebec—</i>				
Îles-de-la-Madeleine—New air terminal building and public parking	1,882	1,774	1,844	1,844(f)
Sept-Îles—				
Resurface Apron No. 1	520	520	520	520(f)
Improvement to the water system	765	447	550	745
Chevery—Construct maintenance garage and provide equipment	289	289	289	289(f)
Natashquan—Construct maintenance garage	285		284	284(f)
Baie Comeau—Public parking	356		25	356(f)
Mont Joli—Public parking	380		117	374(f)
Mont Joli—Repair runway	1,107		1,067	1,067(f)
Bagotville—Public parking	295		81	269(f)
Blanc Sablon—Construct garage and air terminal building	495		495	495(f)
<i>Ontario—</i>				
Hamilton—Land acquisition and consultant studies	4,112	3,508	2,620	2,623
Kapuskasing—Extend Runway 17-35	2,400	750	46	2,339(f)
North Bay—Reconstruct portions of Runway 08-26, Taxiways H and L	1,725	1,656	1,378	1,378
Sarnia—Purchase of additional land	275	164		214
Toronto International Airport No. 2—Land acquisition, administration and property management	140,503	3,259	3,104	129,180
Hamilton—Land acquisition	349		285	287(f)
Warton—Resurface Runway 05-23 and Taxiway "A"	907	907	811	811
Timmins—Taxiway apron	1,763		1,489	1,489
<i>Manitoba—</i>				
Gillam—Gravel re-surfacing—Runway, apron and taxiway	585	485	629	630
Thompson—Repairs to foundation of the air terminal building	495	495	517	517

Budgetary Expenditure of Major Capital Projects—Continued

Stores Revolving Fund

MANAGEMENT REPORT

We have prepared the accompanying financial statements of the Stores Revolving Fund as authorized by Treasury Board and in accordance with the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in these financial statements rests with the management of the Fund.

These financial statements were prepared in accordance with the stated accounting policies, as set out in Note 2, on a basis consistent with that of the preceding year. Some of the information included in these financial statements is based on management's best estimates and judgements and gives due consideration to materiality. To fulfill this reporting responsibility, the Fund maintains a set of accounts which provides a centralized record of the Fund's financial transactions. Financial information contained in the departmental statements and elsewhere in the Public Accounts is consistent with that in these financial statements, unless indicated otherwise.

The operation of the Stores Revolving Fund is primarily designed to provide for the acquisition of recurring requirements of material and insurance spares in support of the operations of the Air, Marine, Surface and Departmental (Headquarters) Administrations across Canada. The cost of operating, administering and controlling the supply activities associated with the Fund is shared jointly by the operating Administrations and Headquarters corporate management under the direct guidance of the Director, Materiel and Contracting Services and the Assistant Deputy Minister, Finance.

ADM, Finance develops and disseminates financial management and accounting policies and issues specific directives which maintain standards of accounting and financial management. The Fund maintains systems of financial management and internal control at appropriate cost. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities and are properly recorded to maintain accountability of Government funds and safeguard the Fund's assets. Financial management and internal control systems are augmented by the maintenance of internal audit programs and contacts are maintained between staffs responsible for the operation of the Revolving Fund and of the Auditor General's office.

BALANCE SHEET AS AT MARCH 31, 1982

FUND ASSETS	1982	1981	FUND LIABILITIES	1982	1981
	\$	\$		\$	\$
Current assets			Current liabilities		
Accounts receivable			Accounts payable and accrued liabilities		
Federal Government	184,496	128,283	Outside parties	136,221	22,741

Materials and supplies	31,778,929	27,789,174	Accumulated net charge against the Fund's authority	31,827,204	27,894,716
	31,963,425	27,917,457		31,963,425	27,917,457

The accompanying notes are an integral part of the financial statements.

The Fund also seeks to assure the objectivity and integrity of data in its financial statements by the careful selection, training and development of qualified staff, by organizational arrangements that provide appropriate divisions of responsibility and by communications programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization.

The Fund's authority has been augmented to \$35,700,000 by Appropriation Act No. 4, 1981-82 in anticipation of increased activities in the operating administrations.

Unused authority carried forward	3,736,575	2,082,543

**NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1982****1. Purpose and authority**

The objective of the Fund is to establish an effective central control and accountability over the purchasing, stocking and issuing of expendable items, controllable items and initial sparing for depot stocks required by the department.

The Stores Revolving Fund was authorized by the Adjustment of Accounts Act (Bill C-22) passed July 3, 1980.

The Stores Revolving Fund has an authorized working capital limit of \$35,700,000. During the year, the authority was increased from \$30,000,000 to \$35,700,000 by Appropriation Act No. 4, 1981-82. An amount of \$25,489,058 representing net assets assumed by the Fund was charged to this authority when the Fund became budgetary in 1981.

2. Significant accounting policy**Sales prices**

Selling prices to consumers are on the basis of acquisition costs.

3. Restatement of prior year figures

For comparative purposes, the 1981 figures in the Statement of Net Expenditure have been restated to conform to the 1982 presentation.

Appendix 2

Self-supporting Airports and Associated Ground Services Revolving Fund

MANAGEMENT REPORT

We have prepared the accompanying financial statements of the Self-supporting Airports and Associated Ground Services Revolving Fund in accordance with the Treasury Board policy governing revolving funds and the reporting requirements and standards of the Receiver General for Canada. The responsibility for the integrity and objectivity of the data in these financial statements rests with management.

The financial statements are prepared in accordance with the stated accounting policies, as set out in Note 2, on a basis consistent with that of the prior year. Some of the information included in these financial statements is based on management's best estimates and judgement, which give due consideration to materiality. To meet the reporting requirements, separate accounts are maintained on a decentralized basis for each of the 23 airports funded by the Revolving Fund, under the functional authority of six Regional Financial Officers and the Director General, Finance, Air and are submitted to Ottawa Headquarters for review and consolidation.

Those airports in the Fund are subject to the departmental systems of financial management and internal control and such additional policies, practices and procedures as are necessary to facilitate financial reporting for the Revolving Fund, in accordance with the requirements of the Treasury Board and Receiver General for Canada. Transactions are executed in accordance with prescribed regulations, within Parliamentary authorities and are recorded to maintain accountability of Government funds and to safeguard the assets of the Revolving Fund.

Financial management and internal control systems are augmented by the maintenance of internal audit programs, where frequent contacts are maintained between the staffs responsible for Revolving Fund financial statements and the Auditor general's office. Management also seeks to assure the objectivity and integrity of data in its financial statements by selection, training and development of qualified staff, by organizational arrangements that provide appropriate divisions of responsibility, and by communications programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization.

BALANCE SHEET AS AT MARCH 31, 1982
(in thousands of dollars)

FUND ASSETS	1982	1981
Current assets		
Accounts receivable		
Federal Government	18,211	18,027
Outside parties	27,135	26,761
Inventory of materials and supplies at lower of cost and replacement value	7,155	6,958
	52,501	51,746
Fixed assets at cost and appraised values		
(Note 3)	1,250,402	
Less: accumulated depreciation	308,019	
	942,383	920,743
	994,884	972,489

The accounting and financial statements of the Fund have evolved over time in conjunction with changing conditions, the involvement of financial reporting in Canada and, more recently, in response to the reporting requirements of Treasury Board and the Receiver General for Canada.

The 23 airports in the Revolving Fund are operated and maintained in accordance with nationally promulgated policies, standards and procedures, on a cost-recoverable basis, so as to provide safe and efficient facilities and services consistent with the protection of the environment. Certain essential services to aviation provided by the Telecommunications and Air Traffic Control Branches of the Canadian Air Transportation Administration are charged to the airports in the Fund, however, the related assets are not included in the accounts of the airports.

Appendix 2—Continued

Self-supporting Airports and Associated Ground Services Revolving Fund—Continued

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1982

1. Purpose and authority

The Airports Revolving Fund was established in 1969 and authorized by vote L160, Appropriation Act No. 3, 1969, 1968-69, c. 36 for the purpose of financing the operation and development of certain airports. As at March 31, 1979, the Fund included the accounts of the international airports at Dorval, Mirabel, Toronto and Vancouver and the land which was acquired at Pickering, Ontario for the purpose of constructing an airport.

Effective April 1, 1979, Treasury Board approved an expansion of the Fund to include the operations of five additional international airports and fourteen national airports. At that same date, the Department of Transport commenced to recover from the Fund the costs of providing certain essential operating support, including air traffic control and telecommunication and electronic services.

Effective April 1, 1980, Parliament through the passage of the "Adjustment of Accounts Act" repealed all votes in respect of the accounts of the Airports Revolving Fund. Section 31 of the Act established the Self-supporting Airports and Associated Ground Services Revolving Fund as a budgetary entity with a statutory drawing authority of \$80 million.

Effective March 31, 1981, the land, which was acquired at Pickering, Ontario for the purpose of constructing an airport, was transferred to the Department of Transport.

2. Significant accounting policies

(a) Inventory

Inventory of materials and supplies, maintained for repair and maintenance purposes at the airports, is carried at the lower of cost and replacement value.

(b) Fixed assets

Fixed assets purchased by the Fund are recorded at cost. Fixed assets transferred to the Fund prior to April 1, 1979 are recorded at appraisal values as established by Transport Canada in accordance with Treasury Board Circular 1970-7 of January 8, 1970. Fixed assets transferred to the Fund as at April 1, 1979 in connection with the addition of nineteen airports (Note 1) are recorded at their depreciated value at that date. Subsequently, all transfers of fixed assets to or from Canada are recorded at net book value at the date of transfer.

Project administration costs, including interest during construction incurred during the construction of new airports, are capitalized and included in airport development costs to the extent that these costs are not readily identifiable with specific fixed assets. Additions, renewals and betterments which extend the economic lives of the assets are capitalized. Maintenance and repairs are charged to revenue.

(c) Depreciation

Depreciation is charged, on a straight-line method, based on the estimated useful lives of the assets. However, depreciation on additions, renewals and betterments to an asset is calculated using the rate initially determined for the existing asset.

The depreciation rates used within the major classes of assets are as follows:

Terminal and facilities	2.5%—5.0%
Waiting room furniture and fixtures ..	20.0%
Runways and other paved surfaces	3.3%—5.5%
Machinery	3.3%—5.0%
Equipment —Static	5.0%—9.0%
—Mobile	6.0%—18.0%
Amortization of airport development costs (excluding interest)	10.0%
Amortization of capitalized interest	4.2% (average rate)

(d) Accumulated net charge against the Fund's authority

The balance in the "accumulated net charge against the Fund's authority" account at the end of the year represents the net accumulation of all cash transactions made through the Consolidated Revenue Fund.

The Consolidated Revenue Fund is the central account through which all Government receipts and disbursements flow. All cash transactions of the Fund are therefore made through the Consolidated Revenue Fund. By virtue of the Fund's mandate, it receives credit for all revenues generated and is empowered to draw funds under statutory authority from the Consolidated Revenue Fund for any revenue shortfalls.

An accumulated excess of cash receipts over cash disbursements (debit balance) represents an addition to the drawing authority of the Fund.

(e) Contributed capital

Amounts representing working capital advances, the values assigned to assets transferred to the Fund and deletion of loans from Canada are shown as contributed capital.

The values of assets transferred from the Fund to Canada are shown as reductions to contributed capital and, conversely, transfers to the Fund from Canada are shown as increases.

(f) Air transportation tax

Air transportation tax is levied and collected under the Excise Tax Act, Part II by the Minister of National Revenue. An appropriate amount applicable is credited to the Fund.

(g) Headquarters and regional overhead

Headquarters and regional overhead reflects the expenditures incurred by the Canadian Air Transportation Administration in providing technical and administrative services to the Fund. These expenses are not readily identifiable with specific services and are applied to the Fund as a percentage of the direct operating and maintenance expenses.

(h) Grants in lieu of taxes

Grants in lieu of taxes, imposed on airports operating in the Fund, are accrued based on estimated municipal assessments adjusted in accordance with the Municipal Grants Act. Grants are paid by the Department of Public Works and recovered from the Fund.

The grants are not finalized until they have been audited by the Department of Public Works, often several years in arrears. Any normal adjustments upon finalization are reflected in the accounts in the year of settlement.

Appendix 2—Concluded

Self-supporting Airports and Associated Ground Services Revolving Fund—Concluded

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 1982—Concluded

2. Significant accounting policies—Concluded

(i) Pension plan

Employees of the Canadian Air Transportation Administration operating the airports financed through the Fund are covered by the Public Service Superannuation Act and the Supplementary Retirement Benefits Act. The Government of Canada's portion of the pension cost is included in the employee fringe benefits charge assessed against the Fund. The actual payment of the pension is made from the Public Service Superannuation Retirement Benefits Account.

3. Fixed assets

	Current year		Previous year	
	Cost	Accumulated depreciation	Cost	Accumulated depreciation
(in thousands of dollars)				
Terminal and facilities.....	523,171	145,313	509,304	120,300
Runways and other paved surfaces.....	371,320	102,987	356,785	85,680
Machinery and equipment.....	54,948	19,929	50,666	15,688

Construction in progress.....	92,795		51,546	
	1,250,402	308,019	1,176,027	255,284
Cost less accumulated depreciation.....	942,383		920,743	

4. Provision for employee termination benefits

Termination benefits accrue to employees of the Canadian Air Transportation Administration operating the airports financed through the Fund. Payment of these benefits is made to employees on separation or retirement. In prior years, the payments were expensed by the Fund when paid. The Fund has changed its method of accounting for termination benefits and has begun charging expenses and accruing a liability as these benefits are earned.

As a result of the change in the method of accounting for termination benefits, the balance of accumulated surplus as of March 31, 1981 has been restated to show a retroactive charge of \$10.8 million.

The charge to accumulated surplus includes an amount of \$2.2 million applicable to the year ended March 31, 1981 and net profit for that year has been restated. The remaining \$8.6 million relates to years prior to 1981 and has been added to the balance of accumulated deficit for the year ended March 31, 1980.

The figures reported as at March 31, 1981 for accounts payable and accrued liabilities have also been restated.

5. Payment of provincial sales taxes

The Department of Finance makes certain payments on behalf of the Fund to participating provinces in lieu of the payment of sales taxes. These payments, estimated to amount to \$1.8 million in 1982 (1981—\$1.4 million), are currently not recovered from the Fund and no provision has been made in the accounts for these payments.

6. Contractual obligations

The Fund was committed to expenditures totalling approximately \$30 million under fixed asset construction and maintenance contracts as at March 31, 1982.

7. Restatement of prior year figures

For comparative purposes, the 1981 figures have been restated to conform to the 1982 presentation.

TREASURY BOARD

Secretariat

Objectives

CENTRAL ADMINISTRATION OF THE PUBLIC SERVICE PROGRAM

- In accordance with the responsibility delegated by the Privy Council as set out in the Financial Administration Act:
- the selection of programs and projects that will achieve the objectives of the Government in the most effective manner and in accordance with its priorities and the efficient use of person-years and material resources by departments and agencies in the operation of their programs and projects.

GOVERNMENT CONTINGENCIES AND CENTRALLY FINANCED PROGRAMS

- To provide for unforeseen and urgent expenditures which arise after the Main Estimates have been tabled; to provide funds for centrally managed programs.

EMPLOYER CONTRIBUTIONS TO INSURANCE PLANS PROGRAM

- Provision of the Government's contribution, as the employer, to employee insurance plans and for payments made under certain residual pension plans.

TEMPORARY ASSIGNMENTS PROGRAM

- To provide, in response to departmental and agency demands, executives and senior officers to carry out temporary assignments in policy, planning, program evaluation, operational and administrative activities.

Comptroller General

Objectives

MANAGEMENT PRACTICES AND CONTROLS PROGRAM

- In accordance with the responsibility delegated by the Privy Council, as set out in the Financial Administration Act, to ensure the quality and integrity of financial control systems and related administrative practices and procedures designed to operate after and within the authorization of the allocation of resources by the government and by Parliament.

IMPLEMENTATION ASSISTANCE PROGRAM

- To improve financial management practices and the directly related planning and control procedures upon which the financial function depends.

VETERANS AFFAIRS

Objectives

VETERANS AFFAIRS PROGRAM

- To provide support for the economic, social, mental and physical well-being of veterans and their dependants.

WAR VETERANS ALLOWANCE BOARD PROGRAM

- To ensure that veterans and their dependants receive their entitlement under the War Veterans Allowance Act and Part XI of Civilian War Pensions and Allowances Act.

PENSIONS PROGRAM

- To provide service-related death and disability pensions to ex-members of the armed forces or their dependants.

BUREAU OF PENSIONS ADVOCATES PROGRAM

- To provide an independent professional legal aid service to persons seeking to establish claims under the Pension Act and allied statutes and orders.

Use of Appropriations

Vote	Program

SECTION 32

1981-82 PUBLIC ACCOUNTS

Accounts Receivable and Deletions

CONTENTS

	<i>Page</i>
Statement of accounts receivable by department and agency	32.2
Notes to statement of accounts receivable	32.5
Deletions from accounts receivable by department and agency.....	32.7

The Government generally reports revenue in the year in which it is received. Therefore, amounts for accounts receivable are not accrued in the Statement of Assets and Liabilities.

Accounts receivable represent financial claims not recorded in the accounts of Canada or reported on the Statement of Assets and Liabilities resulting from revenue due but not collected, expenditure overpayments, goods delivered or services rendered by the Government prior to the accounting date, and interest capitalized, deferred, and accrued.

Notes to statement of accounts receivable

NOTE A—EMPLOYMENT AND IMMIGRATION—CANADA
EMPLOYMENT AND IMMIGRATION COMMISSION

This statement excludes the Unemployment Insurance Account receivables which are reported separately in the financial statements of the Unemployment Insurance Account as at December 31, 1981.

NOTE B—NATIONAL REVENUE—CUSTOMS AND EXCISE

Not included in the statement are contingent receivables estimated at \$293,700,732 for customs duties and excise taxes relating to motor vehicles and motor vehicle parts imported by vehicle manufacturers who have not fully complied with conditions specified under automotive incentive programs.

The total receivables represent 13,363 accounts and consist of:

	Customs	Excise	Total
	\$	\$	\$
Active	7,814,751	22,297,415	30,112,166
This amount represents current debts on which collection action is presently being taken, and represents 10,717 accounts.			
Disputed—Under appeal	5,162,386	5,738,177	10,900,563
There are 888 accounts which have been disputed or are under appeal as provided for under governing acts and regulations.			
Bankruptcies	723,330	10,032,908	10,756,238
There are 868 accounts where an official assignment or receiving order has been filed under the Bankruptcy Act.			
Uncollectable	1,577,965	5,438,331	7,016,296
These are debts on which all avenues of collection have been exhausted and which are awaiting authority for deletion, or are in the process of being submitted to the Departmental Uncollectable Committee for review. There are 890 such debts.			
	15,278,432	43,506,831	58,785,263

Notes to statement of accounts receivable—Concluded

NOTE C—NATIONAL REVENUE—TAXATION

The total receivable amounted to \$2,370,795,456 and consisted of 1,008,222 accounts:

⁽¹⁾ Under Section 13 of the Income War Tax Act 1943-44, c. 14, taxes which were assessed need not be paid until death of the taxpayer.

⁽²⁾ An amount of \$31,114,087 representing 1,293 uncollectibles to be deleted from the accounts is included as Parliamentary approval to delete these debts has not been granted.

⁽³⁾ Funds are remitted by taxpayers without the provision of specific taxpayer identification. These funds, therefore, are placed in suspense accounts. Since assessed taxes form a part of these accounts, the accounts receivable are overstated by an amount which is not determinable. The total amount of these suspense accounts as at March 31, 1982 is \$32,240,858 consisting of 25,292 accounts.

Total ⁽³⁾	1,008,222	2,370,796

⁽¹⁾ Under Section 13 of the Income War Tax Act 1943-44, c. 14, taxes which were assessed need not be paid until the death of the taxpayer.

⁽²⁾ An amount of \$31,114,087 representing 1,293 uncollectibles to be deleted from the accounts is included as Parliamentary approval to delete these debts has not been granted.

⁽³⁾ Funds are remitted by taxpayers without the provision of specific taxpayer identification. These funds, therefore, are placed in suspense accounts. Since assessed taxes form a part of these accounts, the accounts receivable are overstated by an amount which is not determinable. The total amount of these suspense accounts as at March 31, 1982 is \$32,240,858 consisting of 25,292 accounts.

NOTE D—POST OFFICE

The Post Office Department was converted to the Canada Post Corporation by an act of Parliament on October 16, 1981. As it is listed as a Schedule "C" Crown corporation per the Financial Administration Act, figures for 1981-82 are not to appear on this statement.

NOTE E—PUBLIC WORKS

Under the heading of 1982 previous years collectable, are included the following deferred accounts:

	\$
Electric Reduction Company of Canada Ltd.....	2,131,939
Gulf Oil Canada Ltd.....	4,234,499
	6,366,438

Government Employees Compensation

Payments of compensation respecting Government employees (Chap. 134, R.S., as amended), merchant seamen (Chap. 45, Statutes of 1964-65) and employees of mines now operated by Cape Breton Development Corporation (CBDC) who contracted silicosis prior to acquisition by the Corporation

	\$
Net expenditures <i>re</i> employment injury claims for public service employees	18,634,791*
Federal Government's net share of administration expenses of provincial boards	3,101,486
Merchant seamen compensation	10,980
Total net expenditures	21,747,257

* Includes \$9,278 compensation to Quebec casual employees TB 1979-29 dated August 24, 1979.

Compensation and Administration Expenses

The claims of Federal employees eligible for compensation are dealt with and paid by the Provincial Workmen's Compensation Board from funds advanced by the federal government. Claims of employees resident in the Northwest Territories and the Yukon Territory are processed and paid by the Workers' Compensation Board of Alberta. Details of transactions resulting in the above-mentioned expenditures follow:

NATIONAL HEALTH AND WELFARE

Payments under the Hospital Insurance and Diagnostic Services Act (in thousands of dollars)

Provinces and territories	Hospital insurance
Newfoundland	345
Prince Edward Island	78
Nova Scotia	750
New Brunswick	(270)
Ontario	10,479
Manitoba	1,330
Saskatchewan	1,359
Alberta	3,178
British Columbia	2,147
Total provinces	19,396
Northwest Territories	96
Yukon Territory	20
Total	19,512

The Hospital Insurance and Diagnostic Services Act was established in 1957 to enable the payment of contributions by Canada towards the cost of eligible hospital and diagnostic services incurred by the provinces. Agreements were made with all the provinces and territories, but under a federal-provincial agreement, the Province of Quebec subsequently opted out of the program in the fiscal year 1962-63.

On April 1, 1977, the method of determining and paying contributions in respect of the Hospital Insurance and Diagnostic Services Act was changed with the introduction of the established programs financing arrangements included under Part VI of the Federal-Provincial Fiscal Arrangements and Established Programs Financing Act, 1977. Federal contributions now take the form of a transfer of a predetermined number of tax points (and associated equalization) and, in addition, the payment of a predetermined base amount of cash escalated on the basis of growth of the GNP and population. Consequently, the payments (recoveries) made during the fiscal year 1981-82 under the Hospital Insurance and Diagnostic Services Act reflect only adjustments of costs incurred prior to April 1, 1977.

Total	2,636,353	907,692	719,704	4,263,749

Effective April 1, 1977, the federal contributions in respect of provincial and territorial health care services are included under the established programs financing arrangements found in Part VI of the Federal-Provincial Fiscal Arrangements and Established Programs Financing Act, 1977. These contributions take the form of transfer of a predetermined number of tax points (and associated equalization) which are estimated at \$3.6 billion in 1981-82, together with the payment of a predetermined base amount of cash escalated on the basis of growth of the GNP and population, including amounts for partial compensation for funds which would have been received under the 1972 Revenue Guarantee Program.

Payments under the Health Resources Fund Act (in thousands of dollars)

Total	423,909	423,909	

The Health Resources Fund Act was passed in 1966 to provide for the establishment of a Fund of up to 500 million dollars, to be used to contribute to provinces a portion of the cost of the planning, designing, acquiring, construction or renovating of a school, hospital or other institution to be used to improve the quantity, quality, education and utilization of personnel in the health professions and allied disciplines in order to meet the overall needs for trained people.

During 1978-79, the Act was amended to limit payments to projects authorized prior to November 4, 1978.

Final payments under the Act totalling \$5,981 were made during 1981-82.

Total	2,297,621	1,941,301	356,320

The Canada Assistance Plan Act authorizes the Government to enter into agreements with provinces and territories for sharing the costs of social assistance provided to persons in need, and welfare services provided to persons in need or likely to be in need. The rate of the federal contribution is 50% of the eligible and shareable costs.

⁽¹⁾ The Province of Quebec has opted to receive special funding in lieu of cost sharing under the Canada Assistance Plan, in accordance with Part VII for special welfare programs of the Federal-Provincial Fiscal Arrangements and Established Programs Financing Act, 1977. Under these provisions, the Province of Quebec is entitled to receive a combination of cash and tax abatement units equivalent to the transfer payments which would have been made had it opted to participate in the Canada Assistance Plan.

The amounts received by Quebec were:

(in thousands of dollars)	1981-82	1980-81
Cash payments	678,675	586,739
5 tax abatement units (estimated value)	314,300	264,555

1981.....	3,645	6,826	1,851
1982.....	3,642	6,733	2,020

Federal family allowances are paid in respect of children under the age of 18. Although payment is normally made to a parent, it may be made to any person who has assumed responsibility for the maintenance of the child. Special allowances are paid for children who are maintained by agencies or institutions. The legislation provides for annual escalation of the allowance in January of each year in accordance with increases in the consumer price index. The federal monthly rate of family allowances per child was \$23.96 in 1981 and \$26.91 in 1982. Special allowances were \$33.63 a month in 1981 and \$37.65 a month in 1982.

A provincial government may request the federal government to vary the family allowances rate payable in that province on the basis of the age of the children or the number of children in the family, or both, provided that the smallest monthly payment in that province is at least 60% of the federal rate and the average monthly amount paid for all children in that province is equal to the monthly federal rate. The provinces of Alberta and Quebec have exercised this option.

In March 1982, there were 3,641,791 families and agencies receiving an average of \$50.78 on behalf of 6,732,593 eligible children.

Child Tax Credit is an income tested benefit designed to assist low and middle income families with children. The basic amount of 1981 Child Tax Credit is \$261.00 and is reduced by 5% of family income above \$23,470. The first payments under the Child Tax Credit program provided by amendments to the Income Tax Act in December 1978 were made in 1979 on the basis of net family income in the 1978 taxation year. Payments applicable to taxation years 1979, 1980 and 1981 were made from April 1, 1981 to March 31, 1982 amounted to \$14,855,594, \$667,174,832 and \$290,710,685 respectively, a total of \$972,741,110.

Summary of payments under the Old Age Security Act
(in millions of dollars)

	Year ended March 31				
	1982	1981	1980	1979	1978
Old age security pension.....	6,140	5,322	4,679	4,131	3,668
Guaranteed income supplement.....	2,242	1,918	1,495	1,234	1,078
Spouse's allowance.....	203	178	146	126	115
	8,585	7,418	6,320	5,491	4,861

A full or partial basic old age security pension is payable at age 65 or later to everyone who has met certain residence requirements.

A guaranteed income supplement is an additional amount payable to pensioners who have no other income or only a limited amount. Entitlement is normally based on income in the preceding calendar year, computed in accordance with the Income Tax Act. Where a married couple is concerned, their combined income is taken into account. In 1981, the guaranteed income supplement was increased by \$15.13 per month per household. This increase guarantees pensioner couples an income which is greater than Statistics Canada's low-income level. The income guarantee for single pensioners remains below the Statistics Canada low-income level.

Spouse's allowance is payable to the spouse of a pensioner if the spouse is between 60 and 65 years of age and meets the residence requirements. Entitlement is based on the combined income of the couple in the same way as the guaranteed income supplement.

Effective from November 1979, the spouse's allowance may continue to be paid, following the death of the pensioner spouse, until the surviving spouse reaches age 65 or remarries, provided the allowance was payable for the month in which the pensioner died. Entitlement is based on the surviving spouse's income only. This applies to all eligible surviving spouses of pensioners who have died since the program began in October 1975.

All benefits under the Old Age Security program are subject to change in January, April, July and October of each year based on increases in the consumer price index.

The benefits in effect as at April 1, 1982 were as follows:

	\$
Basic OAS pension.....	232.97
Maximum GIS—	
Single person.....	233.89
Married person—Spouse not a pensioner.....	233.89
Married couple—Both pensioners.....	180.32
Maximum monthly—	
Spouse's allowance.....	413.29

In March 1982, there were 2,368,569 old age security pensioners, of whom 1,256,813 or 53% were also receiving a supplement; the average supplement paid was \$157.36. In addition there were 87,103 spouses of pensioners in receipt of spouse's allowance. The average spouse's allowance was \$209.21.

The New Horizons Program was established in 1972 to encourage and enable retired Canadians to become more actively involved in the life of their community. This objective is accomplished by providing professional assistance and financial contributions to help groups of seniors to plan and develop projects in keeping with their interests and talents. These projects help participating seniors to remain socially active and provide them with an opportunity to become involved in community service projects which help many seniors to prolong an independent life-style.

REGIONAL ECONOMIC EXPANSION

Grants to assist various organizations associated with the promotion and development of regional economic expansion; contributions related to economic expansion and social adjustment by payments to provinces, provincial agencies and to persons for; programs and projects under the Agricultural and Rural Development Act; the inventory and use of land; research in connection with the development and adjustment of manpower resources in selected areas; programs related to industrial research and development of services to industry including industrial infrastructure; incentives to industry for the development of employment opportunities in designated regions and special areas; general development agreements; and other federal-provincial programs

	1,863,337	553,124	2,245,001	2,126,593

Year ended March 31, 1982.

Year ended March 31, 1981.

From inception (including 1981-82).

Notes:

(1) Information not available.

(2) Amends reporting in previous year's Public Accounts.

(3) This program expected to continue in 1982-83.

(4) No payment is shown to Quebec since the compensation to that province was made in the form of a special individual income tax abatement and a cash adjustment payment as provided for under the Established Programs (Interim Arrangements) Act, 1964-65. Under an agreement authorized by this Act, the total value to Quebec of the special abatement and cash adjustment was equal to what the federal contribution would otherwise have been under the operative federal statute. Refer to Department of Finance (Vol II) for details.

(5) Effective April 1, 1977 the nursing home care benefits agreement ended and federal contributions in respect of this program are now included under the Federal-Provincial Fiscal Arrangements and Established Programs Financing Act, 1977.

(6) No contribution has been made to Quebec as that province has not signed an agreement under the Vocational Rehabilitation of Disabled Persons Act.

(7) Maintenance cost of Perley Bridge. Agreement that the Federal Government pay 75% and the Ontario Government pay 25%.
 Maintenance cost of Macdonald-Cartier Bridge. Agreement that the Federal Government pay 33 ⅓%, the Quebec Government pay 33 ⅓% and the Ontario Government pay 33 ⅓%.

(8) Includes programs in respect to comprehensive rural area development, Agricultural and Rural Development Act (ARDA), development opportunity initiatives, atlantic provinces management training agreement and the atlantic provinces physical distribution advisory services, Newfoundland and Labrador Development Corporation.

Does not include an amount of \$582 for 1981 and \$32,006 since inception, not allocated by provinces.

(9) To provide funds to the Department of Regional Economic Expansion to cover Transport Canada's share of Government contribution to the Province of Saskatchewan, to assist in extending highways in the northern areas.

(1) Adjustment made in 1981-82 (Energy, Mines and Resources).

(2) Treasury Board Minute 780469 provided the Department of Fisheries and Oceans with the authority to make payments under the Fisheries Prices Support Act to a maximum of \$15,000,000 from the Department's Vote 10(e). The funds were disbursed on behalf of the Department through the Fisheries Prices Support Board in the amount of \$14,914,453 and in accordance with provisions of Treasury Board Minute 780469. The expenditure is reflected in both the Department's and the Fisheries Prices Support Board's financial statements for the year ending March 31, 1982.

COMMUNICATIONS

Canadian Radio-television and Telecommunications Commission

The Commission was established under Part I of the Canadian Radio-television and Telecommunications Commission Act, c 49, 1975, and consists of not more than nine full-time members and not more than ten part-time members to be appointed by the Governor in Council.

Section 7 of the Act provides that the full-time members be paid a salary to be fixed by the Governor in Council and that part-time members be paid such fees for attendances at meetings of the Commission or any committee thereof or at any public hearing before the Commission that they are requested by the Chairman to attend as are fixed by by-law of the Commission. By-law No 14 of the Commission provides that part-time members be paid a fee of \$250 per day.

Full-time members: Chairman J Meisel, Vice-Chairmen J E Lawrence, R Therrien, Members: J L Gagnon, P H Klinge, J W Grace, R A Gower, J R Robson, J M LaSalle (appointment terminated October 9, 1981).

Part-time members: M E Barrie St Thomas Ont, H Bower Regina Sask (appointment terminated June 1981), R DeStefano Sudbury Ont, M Gervais Montreal Que (appointed May 21, 1981), E M Goodridge St John's Nfld, S C Patrick Winnipeg Man, R M Rodgers Digby NS (resigned June 12, 1981), G Soucy Campbellton NB, M Raines Burnaby BC (appointed May 21, 1981).

National Film Board

Names of members: James de B Domville, Chairman, Paul Fortin, Vice-Chairman, A W Johnson, A E Gotlieb (resigned on appointment as Canadian Ambassador to Washington November 1981), de Montigny Marchand (appointed March 18, 1982), Mervin I Chertkow, Marcel Massé, Merle Shain, John Godfrey, Nora Harvey.

Members received travelling and other expenses incurred in connection with the business of the Board, and fees paid were: each member of the Board other than the Chairman, the Vice-Chairman, or a member of the public service was paid a fee of \$125 per diem for each meeting of the Board attended and \$125 per diem for travelling time the day prior and the day subsequent to such meeting, and the Vice-Chairman was paid a fee of \$300 for the first day, \$125 for each succeeding day, and \$125 per diem for travelling time the day prior to and the day subsequent to such meeting.

National Museums of Canada

Board of Trustees

The Board of Trustees was established under Part 3 of the National Museums Act 1967-68 c 21, composed of a Chairman, Vice-Chairman and ten other members appointed by the Governor in Council.

Section 12 of the Act provides that each member of the Board other than a member who is in receipt of a salary fixed by the Governor in Council or the Treasury Board shall be paid by the Corporation for each day he attends any meeting of the Board or any Committee of the Board, such remuneration as is fixed by by-law of the Board.

By-law No 1 of the Act provides that each Trustee be paid \$150 per diem plus expenses. This by-law was amended March 9, 1982 to provide that each Trustee be paid \$225 per diem plus expenses and the Chairman of the Board \$325 per diem plus expenses.

The following members received per diem fees plus expenses except where indicated expenses only.

Expenses of the Commission of Inquiry concerning certain activities of the Royal Canadian Mounted Police

	Estimates	Allotments	Expenditures
	\$	\$	\$
Expenses	500,000	766,000	765,225

PC 1977-1911, dated July 6, 1977.

WHEREAS, it has been established that certain persons who were members of the RCMP at the time did, on or about October 7, 1972, take part jointly with persons who were then members of La Sûreté du Québec and La Police de Montréal in the entry of premises located at 3459 St Hubert Street, Montreal, in the search of those premises for property contained therein, and in the removal of documents from those premises, without lawful authority to do so;

WHEREAS, allegations have recently been made that certain persons who were members of the RCMP at the time may have been involved on other occasions in investigative actions or other activities that were not authorized or provided for by law;

WHEREAS, after having made inquiries into these allegations at the instance of the Government, the Commissioner of the RCMP now advises that there are indications that certain persons who were members of the RCMP may indeed have been involved in investigative actions or other activities that were not authorized or provided for by law, and that as a consequence, the Commissioner believes that in the circumstances it would be in the best interests of the RCMP that a Commission of Inquiry be set up to look into the operations and policies of the Security Service on a national basis;

WHEREAS, public support of the RCMP in the discharge of its responsibility to protect the security of Canada is dependent on trust in the policies and procedures governing its activities;

AND WHEREAS, the maintenance of that trust requires that full inquiry be made into the extent and prevalence of investigative practices or other activities involving members of the Royal Canadian Mounted Police that are not authorized or provided for by law;

THEREFORE, the Committee of the Privy Council, on the recommendation of the Prime Minister, advise that, pursuant to the Inquiries Act, a Commission do issue under the Great Seal of Canada, appointing Mr Justice David McDonald of Edmonton Alta, Mr Donald S Rickerd of Toronto Ont, Mr Guy Gilbert of Montreal Que to be Commissioners under part I of the Inquiries Act:

- to conduct such investigations as in the opinion of the Commissioners are necessary to determine the extent and prevalence of investigative practices or other activities involving members of the RCMP that are not authorized or provided for by law and, in this regard, to inquire into the relevant policies and procedures that govern the activities of the RCMP in the discharge of its responsibility to protect the security of Canada;
- to report the facts relating to any investigative action or other activity involving persons who were members of the RCMP that was not authorized or provided for by law as may be established before the Commission, and to advise as to any further action that the Commissioners may deem necessary and desirable in the public interest; and
- to advise and make such report as the Commissioners deem necessary and desirable in the interest of Canada, regarding the policies and procedures governing the activities of the RCMP in the discharge of its responsibility to protect the security of Canada, the means to implement

such policies and procedures, as well as the adequacy of the laws of Canada as they apply to such policies and procedures, having regard to the needs of the security of Canada.

The Committee further advise that the Commissioners:

- Be authorized to adopt such procedures and methods as the Commissioners may from time to time deem expedient for the proper conduct of the inquiry;
- Be directed that the proceedings of the inquiry be held in camera in all matters relating to national security and in all other matters where the Commissioners deem it desirable in the public interest or in the interest of the privacy of individuals involved in specific cases which may be examined;
- Be directed, in making their report, to consider and take all steps necessary to preserve:
 - the secrecy of sources of security information within Canada; and
 - the security of information provided to Canada in confidence by other nations;
- Be authorized to sit at such times and at such places as they may decide from time to time, to have complete access to personnel and information available in the Royal Canadian Mounted Police and to be provided with adequate working accommodation and clerical assistance;
- Be authorized to engage the services of such staff and technical advisers as they deem necessary or advisable and also the services of counsel to aid them and assist in their inquiry at such rates of remuneration and reimbursement as may be approved by the Treasury Board;
- Be directed to follow established security procedures with regard to their staff and technical advisers and the handling of classified information at all stages of the inquiry;
- Be authorized to exercise all the powers conferred upon them by section 11 of the Inquiries Act; and
- Be directed to report to the Governor in Council with all reasonable dispatch and file with the Privy Council Office their papers and records as soon as reasonably may be after the conclusion of the inquiry.

The Committee further advise that, pursuant to section 37 of the Judges Act, His Honour Mr Justice McDonald be authorized to act as Commissioner for the purposes of the said Commission and that Mr Justice McDonald be the Chairman of the Commission.

PC 1977-13/3078, October 27, 1977, authorized payment to Commissioner Mr Donald S Rickerd of an honorarium of \$250 per diem while on duty as Commissioner of the Commission and PC 1980-3/1184, May 1, 1980, authorized a non-accountable living allowance of \$90 per diem.

PC 1978-2319, July 20, 1978, authorized payment to Commissioner Mr Guy Gilbert of an honorarium of \$750 per diem while on duty as Commissioner of the Commission and PC 1980-3/1184, May 1, 1980, authorized a non-accountable living allowance of \$90 per diem.

PC 1979-887, March 22, 1979, and PC 1979-1616, June 2, 1979, clarified and enlarged the terms of reference of the Commission.

PC 1980-2114, October 28, 1980, established the reporting date of 31 March 1981.

PC 1981-890, March 31, 1981, amended the reporting date to May 15, 1981.

	\$	\$	\$
Expenses		7,000	6,535

PC 1979-1586, dated May 25, 1979.

WHEREAS the Committee of the Privy Council has had before it a report the Prime Minister concerning certain allegations made by Schafer Bros Ltd and Mr Michel Choquette in respect of dealings of the Canadian Dairy Commission, its officers and employees with Schafer Bros Ltd, Montreal Que during the years 1966 to 1977 relating to the export from Canada of skim milk powder;

AND WHEREAS the Committee is of the opinion that it would be in the public interest for the said allegations to be investigated;

The Committee, THEREFORE, on the recommendation of the Prime Minister, advise that the Honourable Mr Justice Hugh F Gibson of the City of Ottawa, Province of Ontario, be appointed as Commissioner under part I of the Inquiries Act to inquire into certain allegations made by Schafer Bros Ltd and Mr Michel Choquette in respect of dealings of the Canadian Dairy Commission, its officers and employees with Schafer Bros Ltd, Montreal Que during the years 1966 to 1977 in respect of the export from Canada of skim milk powder, and

- (a) to define the issues raised by the said allegations;
- (b) premised on the said issues, to determine all relevant facts concerning the actions of the Canadian Dairy Commission, its officers and employees in their dealings with Schafer Bros Ltd during the years 1966 to 1977 relative to the export from Canada of skim milk powder;
- (c) to ascertain whether the Canadian Dairy Commission, its officers and employees have acted lawfully and fairly in their dealings with Schafer Bros Ltd; and
- (d) to report to the Governor in Council with regard to the matters investigated under paragraphs (a), (b) and (c) and to include in the report
 - (i) a recommendation as to whether any compensation should be paid to Schafer Bros Ltd and, if so, the basis on which such compensation should be determined, and
 - (ii) such other recommendations as the Commissioner may deem appropriate.

The Committee further advise:

1. That the Commissioner be authorized to adopt such procedures and methods as he may from time to time deem expedient for the proper conduct of his duties;
2. That the Commissioner be authorized to engage the services of such counsel, staff, clerks and technical advisers as he may require at rates of remuneration and reimbursement to be approved by the Treasury Board;
3. That the officers and employees of departments and agencies of the Government of Canada render such assistance to the Commissioner as may be required for his activities;
4. That the Commissioner be authorized to sit at such times and at such places as he may decide from time to time;
5. That the Commissioner be authorized to exercise all the powers conferred by section 11 of the Inquiries Act; and
6. That the Commissioner be directed to report to the Governor in Council with all reasonable dispatch and file with the Privy Council Office his papers and records as soon as reasonably may be after conclusion of the inquiry.

PC 1979-1587, May 25, 1979.

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL, on the recommendation of the Minister of Justice, pursuant to section 37 of the Judges Act, is pleased hereby

- (a) to authorize the Honourable Mr Justice Hugh F Gibson to act as a commissioner on an inquiry in respect of dealings of the Canadian Dairy Commission pursuant to Order in Council PC 1979-1586 of May 25th, 1979; and
- (b) to authorize payment of reasonable travelling and other expenses incurred by the said Honourable Mr Justice Gibson away from his capacity as a commissioner in the same amount and under the same conditions as if he were performing a function or duty as a judge pursuant to the Judges Act.

PC 1979-1653, June 13, 1979.

The Committee of the Privy Council, on the recommendation of the Prime Minister, advise that the Honourable Hugh F Gibson appointed commissioner under Order in Council PC 1979-1586 of May 25th, 1979, to inquire into certain allegations in respect of dealings of the Canadian Dairy Commission be known as the Commission of Inquiry into Certain Allegations Concerning Commercial Practices of the Canadian Dairy Commission.

PC 1980-2336, August 27, 1980.

WHEREAS the Committee of the Privy Council has had before it a report of the Prime Minister submitting:

That changes in the scope and content of international relations, in the methods by which those relations are conducted and the conditions and circumstances under which members of the foreign service and their families choose to live in Canada and under which they must live while abroad may not have been adequately recognized in the management of the foreign service;

That failure to take adequate account of these changes could be leading to a decline in the incentives for service abroad and could affect the motivation that has underlain the high professional standards of the Foreign Service and given Canada an enviable reputation for the effectiveness with which its interests are served; and

That the Government wishes to ensure that these high standards are maintained and that the people of Canada continue to benefit from this high level of service.

It is, therefore, in the national interest that an inquiry be made into how these changes should be reflected in the Government's approach to the management of foreign service personnel and related foreign service operations.

The Committee, on the recommendation of the Prime Minister, therefore, advise that, pursuant to Part I of the Inquiries Act, Your Excellency in Council may be pleased to appoint, effective September 1, 1980, Pamela A McDougall as Commissioner to examine into changes in the conditions of foreign service and to report on steps that the Government might take to accommodate them in the context of its approach to the legal, administrative and operational framework of the Foreign Service, with particular attention to:

- (a) the views of persons serving in the foreign service and their families;
- (b) the views of organizations and associations representing members of the foreign service and their families;
- (c) the views of the departments and agencies responsible for the management of the foreign service; and
- (d) the views of persons both within and outside of Government who make direct use of the foreign service.

The Committee further advise:

- (a) That the Commissioner be authorized to adopt such procedures and methods as she may from time to time deem expedient for the proper conduct of the inquiry and may sit at such times and at such places in Canada and abroad as she may decide from time to time;
- (b) That the Commissioner be authorized to exercise all the powers conferred upon her by section 11 of the Inquiries Act;
- (c) That the officers and employees of departments and agencies of the Government of Canada render such assistance to the Commissioner as she may require for her activities; and
- (d) That the Commissioner be required to submit a report no later than one year from the date of appointment and file with the Public Archives of Canada the papers and records of the Commission as soon as possible after the conclusion of the inquiry.

PC 1980-2457, September 12, 1980.

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL, on the recommendation of the Prime Minister, is pleased

hereby to amend Order in Council PC 1980-2336 of 27th August, 1980

- 1. By renumbering paragraphs (a), (b), (c) and (d) setting out the Commissioner's powers as paragraphs 1, 2, 3 and 5 respectively;
- 2. By deleting the word "and" at the end of paragraph 3 thereof and by adding thereto immediately after paragraph 3 thereof the following paragraph:
"4. That the Commissioner be authorized to engage the services of such counsel, staff and technical advisers as she may require at rates of remuneration and reimbursement to be approved by Treasury Board"; and
- 3. By deleting the words "one year from the date of appointment" in paragraph 5 thereof and by substituting therefor the words "November 1st, 1981".

Expenses of the Royal Commission on Newspapers

	Estimates	Allotments	Expenditures
	\$	\$	\$
Expenses	2,497,000	2,302,000	2,305,004

PC 1980-2343, September 3, 1980.

The Committee of the Privy Council, having had before it a report from the Right Honourable Pierre Elliott Trudeau, the Prime Minister, submitting:

that there has been a decline in the number of daily newspapers serving major cities and a decline in the number of cities in which competition between daily newspapers exists;

that there has been increased concentration of ownership and control of daily newspapers in Canada; and

that it is desirable that a study be undertaken, without delay, into the extent and causes of the aforesaid situation, and into the implication for the country of that situation.

The Committee, THEREFORE, on the recommendation of the Prime Minister, advises that Mr Thomas Worrall Kent, of Mabou, in the Province of Nova Scotia, be appointed a Commissioner under Part I of the Inquiries Act to inquire generally into the daily newspaper industry in Canada, specifically into the concentration of the ownership and control of the industry and into the recent closing of newspapers, and, without limiting the general scope of this inquiry, to examine and report on:

Names of members of commissions and rates of pay—Continued

PRIVY COUNCIL—Continued

Expenses of the Royal Commission on Newspapers—Concluded

- (a) the degree to which the present situation in the newspaper industry has affected or might affect fulfilment of the newspaper industry's responsibilities to the public;
- (b) the consequences of the elimination of daily newspapers for individual citizens and community life in those cities where a newspaper has been eliminated in recent years;
- (c) the consequence of the present situation in the newspaper industry for the political, economic, social and intellectual vitality and cohesion of the nation as a whole;
- (d) such measures as might be warranted to remedy any matter that the Commission considers should be remedied as a result of the concentration of the ownership and control of the industry and the recent closing of newspapers.

The Committee further advises that

1. The Commission be authorized to exercise all the powers conferred upon Commissioners by section 11 of the Inquiries Act;
2. The Commission be authorized to adopt such procedures and methods as it may from time to time deem expedient for the proper conduct of the inquiry and sit at such times and in such places in Canada as it may decide from time to time;
3. The Commission be authorized to engage the services of such counsel, staff, clerks and technical advisers as it considers necessary or advisable at such rates of remuneration and reimbursement as may be approved by the Treasury Board;
4. The Commission be required to report to the Governor in Council no later than July 1st, 1981;
5. The Commission be required to file with the Dominion Archivist the papers and records of the Commission as soon as reasonably may be after the conclusion of the inquiry;
6. The officers and employees of the departments and agencies of the Government of Canada be required to render such assistance to the Commission as it may require for the inquiry; and
7. The said Mr Thomas Worrall Kent be designated as the Chairman of the Commission.

PC 1980-2483, September 15, 1980.

The Committee of the Privy Council, on the recommendation of the Prime Minister, advise that Mr Laurent A Picard, Outremont, Que, be appointed a Commissioner, under Part I of the Inquiries Act, of the Commission to inquire generally into the daily newspaper industry in Canada, authorized to be established by Order in Council PC 1980-2343 of September 3, 1980.

PC 1980-2484, September 15, 1980.

The Committee of the Privy Council, on the recommendation of the Prime Minister, advise that Mr Borden Spears, of Toronto Ont, be appointed a Commissioner, under Part I of the Inquiries Act, of the Commission to inquire generally into the daily newspaper industry in Canada, authorized to be established by Order in Council PC 1980-2343 of September 3, 1980.

PC 1980-2703, October 9, 1980.

The Committee of the Privy Council, on the recommendation of the Prime Minister, advise that the Commissioners appointed under Order in Council PC 1980-2343 of September 3, 1980, Order in Council PC 1980-2483 of September 15, 1980 and Order in Council PC 1980-2484 of September 15, 1980, to inquire generally into the daily newspaper industry in Canada, be known as the Royal Commission on Newspapers.

Expenses			281

P C 1982-819, March 17, 1982.

WHEREAS the Committee of the Privy Council has had before it a report of the Prime Minister submitting that it is essential that an Inquiry be made into the matters hereinafter set forth in paragraphs 1 to 3 below.

THEREFORE the Committee of the Privy Council on the recommendation of the Prime Minister advise that the Honourable T Alexander Hickman, Chief Justice of the Trial Division of the Supreme Court of Newfoundland, the Honourable Gordon A Winter, Moses Morgan, Esq, Fintan J Aylward, Queen's Counsel, Bruce Pardy, Esq, and Jan Furst, Esq, all of the Province of Newfoundland, be hereby appointed Commissioners under Part I of the Inquiries Act to:

1. Inquire into and report upon the loss of all members of the crew of the semi-submersible self-propelled drill rig "OCEAN RANGER", and of the "OCEAN RANGER", on or about the 15th day of February, 1982 on the Continental Shelf off Newfoundland and Labrador, the reasons and causes therefor and, without restricting the generality of the foregoing, to inquire into, report upon and make recommendations in respect of the following matters:

- (a) the design, construction and stability of the "OCEAN RANGER" and its suitability to conduct marine and drilling operations on the Continental Shelf off Newfoundland and Labrador;
- (b) inspection, inspection procedures, licensing, classification and certification pertaining to the conduct of marine drilling operations by the "OCEAN RANGER" on the Continental Shelf off Newfoundland and Labrador;
- (c) all aspects of safety of life at sea, including the sufficiency of life saving equipment on board the "OCEAN RANGER" and whether such life saving equipment was used or could have been used;
- (d) all aspects of occupational health and safety which related to the officers and crew of the "OCEAN RANGER";

Names of members of commissions and rates of pay—Continued

PRIVY COUNCIL—Continued

Expenses of the Royal Commission on the "Ocean Ranger" Marine Disaster—Concluded

- (e) the certification, training and safety of the officers and the crew and their respective responsibilities including those of the Master and the Tool Pusher on board the "OCEAN RANGER";
 - (f) the search and rescue response and any other emergency response thereto, both from within Newfoundland and elsewhere;
 - (g) oil pollution prevention procedures and whether the drill hole was left in a safe condition prior to or at the time of the casualty;
 - (h) any acts or omissions of the owner, the charterer, the operator or any contractor in respect thereto; and
 - (i) any other related matter.
2. Inquire into, report upon and make recommendations with respect to
- (a) both the marine and drilling aspects of practices and procedures in respect of offshore drilling operations on the Continental Shelf off Newfoundland and Labrador and without restricting the generality of the foregoing, the matters referred to in paragraphs 1(a) to 1(e) as they relate to other drilling units conducting marine and drilling operations on the Continental Shelf off Newfoundland and Labrador; and
 - (b) to the extent necessary and relevant, such practices and procedures in other Eastern Canada offshore drilling operations.

The Committee further advise that

- (a) the establishment of this Commission and the appointment of the Commissioners hereunder is without prejudice to both the claim of the Government of Canada and the claim of the Government of Newfoundland to legislative jurisdiction and proprietary rights on or in respect of the Territorial Sea or the Continental Shelf off Newfoundland and Labrador; and
- (b) notwithstanding the terms of reference set forth in this Order in Council, the Commissioners be directed not to consider, comment upon nor make recommendations in respect of the claims to jurisdiction and rights aforesaid.

The Committee further advise that

- (a) the Honourable T Alexander Hickman be the Chairman of the Commission and that the Honourable Gordon A Winter be Vice-Chairman of the Commission;
- (b) the Chairman and the Vice-Chairman be authorized, after consultation with the other Commissioners, to
 - (i) adopt such practices and procedures for all purposes of the Inquiry as may from time to time be necessary for the proper conduct of the Inquiry and, after consultation with the other Commissioners, vary those practices and procedures from time to time;
 - (ii) engage the services of counsel to aid and assist the Commissioners in the Inquiry at such rates of remuneration and reimbursement as may be approved by the Treasury Board;
 - (iii) rent such space for offices and hearing rooms in consultation with the Department of Public Works and according to the practices of the Department;
 - (iv) engage the services of such accountants, engineers, technical advisors or other experts, clerks, reporters and assistants as they may deem necessary or advis-

able, at such rates of remuneration and reimbursement as may be approved by the Treasury Board; and

- (v) exercise all powers conferred upon them by subsection (2) to subsection (4) of section 11 of the Inquiries Act.

3. The Commissioners be authorized to sit at such times and in such places, and to view such locations, both in and outside Canada, as the Chairman may, after consultation with the other Commissioners, from time to time decide; and

4. The Commissioners be authorized to submit interim reports to the Governor in Council from time to time.

The Committee further advise that the Commissioners be directed to submit a final report to the Governor in Council with all reasonable dispatch and file with the Dominion Archivist the papers and records of the Commission as soon as reasonably may be after the conclusion of the Inquiry.

And the Committee further advise that pursuant to section 37 of the Judges Act, the Honourable T Alexander Hickman be authorized to act as a Commissioner and Chairman for the purpose of the said Inquiry.

Expenses of the Ottawa Economic Summit 1981

	Estimates	Allotments	Expenditures
	\$	\$	\$
Expenses	5,500,000	5,755,000	6,084,888

Press release dated September 5, 1980.

The Prime Minister, the Right Honourable Pierre Elliott Trudeau, announced today that the next economic Summit meeting of Heads of State or Government of the seven major Western industrialized countries will be held in Ottawa July 20 and 21, 1981. The Ottawa Summit will be the seventh in a series to discuss major economic issues. The Summit group consists of Canada, the Federal Republic of Germany, France, Italy, Japan, the United Kingdom and the United States. The European Community is also represented by the President of the European Council and by the President of the European Commission for matters within the Community's competence. Beginning with the Summit at Rambouillet, France, in November 1975, Summits have been held at Puerto Rico, London, Bonn, Tokyo and Venice.

The economic Summits form part of concerted worldwide efforts to come to grips with the growing complexities of the international economic environment. Cooperation among the seven industrialized Summit countries, which together account for over half the world's production of goods and services and 80% of the output of the industrialized world, is an important element in the search for global economic stability. The Prime Minister, as host and Chairman of the 1981 Summit, will lead discussions which will have an important influence on the directions the participating countries take in the 1980.

All Summits have emphasized the inter relationship of world problems. Economic growth, employment, inflation, energy and the maintenance of a liberal trading environment are all facets of an interdependent world economy. The Summits recognize the close connection between the prosperity of the industrialized countries and of the developing world.

Names of members of commissions and rates of pay—Continued

PRIVY COUNCIL—Continued

Expenses of the Ottawa Economic Summit 1981—Continued

The first Summit meeting at Rambouillet was convened as the world emerged from recession. Subsequent Summits have each had a somewhat different focus. The Puerto Rico, London and Bonn Summits stressed the need for greater coordination of economic policies. Tokyo emphasized the need for structural adjustment, particularly in relation to economic management and the supply of energy. Venice focussed on a comprehensive energy strategy to break the link between economic growth and oil consumption, reaffirmed the fight against inflation, and recognized the need to respond to the worsening plight of the developing countries. The Ottawa Summit can be expected to continue the discussion of inflation and energy and pay special attention to the acute problems of the developing world. Major subjects for review are likely to be the energy strategy put forward at Venice and the evolution of the North-South dialogue. The Prime Minister has already indicated the importance he personally attaches to North-South relations.

Various factors were considered in deciding on Ottawa as the site for the next Summit, including requirements for communications, security, accommodation and the presence of diplomatic representation. This major international meeting of 1981 will focus world attention on Canada's capital.

To organize and manage facilities and arrangements for the Summit, the Prime Minister has designated Canada's Ambassador to the Republic of Korea, Mr Derek H Burney, as Summit Administrator. Ambassador Burney will return from Seoul on October 15 to take up his new duties.

Declaration of the Ottawa Summit

1. We have met at a time of rapid change and great challenge to world economic progress and peace. Our meeting has served to reinforce the strength of our common bonds. We are conscious that economic issues reflect and affect the broader political purposes we share. In a world of interdependence, we reaffirm our common objectives and our recognition of the need to take into account the effects on others of policies we pursue. We are confident in our joint determination and ability to tackle our problems in a spirit of shared responsibility, both among ourselves and with our partners throughout the world.

The Economy

2. The primary challenge we addressed at this meeting was the need to revitalize the economies of the industrial democracies, to meet the needs of our own people and strengthen world prosperity.
3. Since the Venice Summit the average rate of inflation in our countries has fallen, although in four of them inflation remains in double figures. In many countries unemployment has risen sharply and is still rising. There is a prospect of moderate economic growth in the coming year but at present it promises little early relief from unemployment. The large payments deficits originating in the 1979-80 oil price increase have so far been financed without imposing intolerable adjustment burdens but are likely to persist for some time. Interest rates have reached record levels in many countries and, if long sustained at these levels, would threaten productive investment.
4. The fight to bring down inflation and reduce unemployment must be our highest priority and these linked problems must be

tackled at the same time. We must continue to reduce inflation if we are to secure the higher investment and sustainable growth on which the durable recovery of employment depends. The balanced use of a range of policy instruments is required. We must involve our peoples in a greater appreciation of the need for change: change in expectations about growth and earnings, change in management and labour relations and practices, change in the pattern of industry, change in the direction and scale of investment, and change in energy use and supply.

5. We need in most countries urgently to reduce public borrowing; where our circumstances permit or we are able to make changes within the limits of our budgets, we will increase support for productive investment and innovation. We must also accept the role of the market in our economies. We must not let transitional measures that may be needed to ease change become permanent forms of protection or subsidy.
6. We see low and stable monetary growth as essential to reducing inflation. Interest rates have to play their part in achieving this and are likely to remain high where fears of inflation remain strong. But we are fully aware that levels and movements of interest rates in one country can make stabilization policies more difficult in other countries by influencing their exchange rates and their economies. For these reasons, most of us need also to rely on containment of budgetary deficits, by means of restraint in government expenditures as necessary. It is also highly desirable to minimize volatility of interest rates and exchange rates; greater stability in foreign exchange and financial markets is important for the sound development of the world economy.
7. In a world of strong capital flows and large deficits it is in the interests of all that the financial soundness of the international banking system and the international financial institutions be fully maintained. We welcome the recently expanded role of the IMF in financing payments deficits on terms which encourage needed adjustment.
8. In shaping our long term economic policies, care should be taken to preserve the environment and the resource base of our planet.

Relations with Developing Countries

9. We support the stability, independence and genuine non-alignment of developing countries and reaffirm our commitment to cooperate with them in a spirit of mutual interest, respect and benefit, recognizing the reality of our interdependence.
10. It is in our interest as well as in theirs that the developing countries should grow and flourish and play a full part in the international economic system commensurate with their capabilities and responsibilities and become more closely integrated in it.
11. We look forward to constructive and substantive discussions with them, and believe the Cancun Summit offers an early opportunity to address our common problems anew.
12. We reaffirm our willingness to explore all avenues of consultation and cooperation with developing countries in whatever forums may be appropriate. We are ready to participate in preparations for a mutually acceptable process of global negotiations in circumstances offering the prospect of meaningful progress.

Names of members of commissions and rates of pay—*Continued*PRIVY COUNCIL—*Continued*Expenses of the Ottawa Summit 1981—*Continued*Relations with Developing Countries—*Concluded*

13. While growth has been strong in most middle income developing countries, we are deeply conscious of the serious economic problems in many developing countries, and the grim poverty faced especially by the poorer among them. We remain ready to support the developing countries in the efforts they make to promote their economic and social development within the framework of their own social values and traditions. These efforts are vital to their success.
14. We are committed to maintaining substantial and, in many cases, growing levels of Official Development Assistance and will seek to increase public understanding of its importance. We will direct the major portion of our aid to poorer countries, and will participate actively in the United Nations Conference on the Least Developed Countries.
15. We point out that the strengthening of our own economies, increasing access to our markets, and removing impediments to capital flows contribute larger amounts of needed resources and technology and thereby complement official aid. The flow of private capital will be further encouraged in so far as the developing countries themselves provide assurances for the protection and security of investments.
16. The Soviet Union and its partners, whose contributions are meagre, should make more development assistance available, and take a greater share of exports of developing countries, while respecting their independence and non-alignment.
17. We will maintain a strong commitment to the international financial institutions and work to ensure that they have, and use effectively, the financial resources for their important responsibilities.
18. We attach high priority to the resolution of the problems created for the non-oil developing countries by the damaging effects on them of high cost of energy imports following the two oil price shocks. We call on the surplus oil-exporting countries to broaden their valuable efforts to finance development in non-oil developing countries, especially in the field of energy. We stand ready to cooperate with them for this purpose and to explore with them, in a spirit of partnership, possible mechanisms, such as those being examined in the World Bank, which would take due account of the importance of their financial contributions.
19. We recognize the importance of accelerated food production in the developing world and of greater world food security, and the need for developing countries to pursue sound agricultural and food policies; we will examine ways to make increased resources available for these purposes. We note that the Italian Government has in mind to discuss within the European Community proposals to be put forward in close cooperation with the specialized UN institutions located in Rome for special action in this field primarily directed to the poorest countries.
20. We are deeply concerned about the implications of world population growth. Many developing countries are taking action to deal with that problem, in ways sensitive to human values and dignity; and to develop human resources, including technical and managerial capabilities. We recognize the importance of these issues and will place greater emphasis on international efforts in these areas.

Trade

21. We reaffirm our strong commitment to maintaining liberal trade policies and to the effective operation of an open multilateral trading system as embodied in the GATT.
22. We will work together to strengthen this system in the interest of all trading countries, recognizing that this will involve structural adaptation to changes in the world economy.
23. We will implement the agreements reached in the Multilateral Trade Negotiations and invite other countries, particularly developing countries, to join in these mutually beneficial trading arrangements.
24. We will continue to resist protectionist pressures, since we recognize that any protectionist measure, whether in the form of overt or hidden trade restrictions or in the form of subsidies to prop up declining industries, not only undermines the dynamism of our economies but also, over time, aggravates inflation and unemployment.
25. We welcome the new initiative represented by the proposal of the Consultative Group of Eighteen that the GATT Contracting Parties convene a meeting at Ministerial level during 1982, as well as that of the OECD countries in their programme of study to examine trade issues.
26. We will keep under close review the role played by our countries in the smooth functioning of the multilateral trading system with a view to ensuring maximum openness of our markets in a spirit of reciprocity, while allowing for the safeguard measures provided for in the GATT.
27. We endorse efforts to reach agreement by the end of this year on reducing subsidy elements in official export credit schemes.

Energy

28. We are confident that, with perseverance, the energy goals we set at Venice for the decade can be achieved, enabling us to break the link between economic growth and oil consumption through structural change in our energy economies.
29. Recognizing that our countries are still vulnerable and energy supply remains a potential constraint to a revival of economic growth, we will accelerate the development and use of all our energy sources, both conventional and new, and continue to promote energy savings and the replacement of oil by other fuels.
30. To these ends we will continue to rely heavily on market mechanisms, supplemented as necessary by government action.
31. Our capacity to deal with short-term oil market problems should be improved, particularly through the holding of adequate levels of stocks.
32. In most of our countries progress in constructing new nuclear facilities is slow. We intend in each of our countries to encourage greater public acceptance of nuclear energy, and respond to public concerns about safety, health, nuclear waste management and non-proliferation. We will further our efforts in the development of advanced technologies, particularly in spent fuel management.
33. We will take steps to realize the potential for the economic production, trade and use of coal and will do everything in our power to ensure that its increased use does not damage the environment.

Names of members of commissions and rates of pay—*Concluded*

PRIVY COUNCIL—*Concluded*

Expenses of the Ottawa Summit 1981—*Concluded*

Energy—*Concluded*

34. We also intend to see to it that we develop to the fullest possible extent sources of renewable energy such as solar, geothermal and biomass energy. We will work for practical achievements at the forthcoming United Nations Conference on New and Renewable Sources of Energy.
35. We look forward to improved understanding and cooperation with the oil exporting countries in the interests of the world economy.

East-West Economic Relations

36. We also reviewed the significance of East-West economic relations for our political and security interests. We recognized that there is a complex balance of political and economic interests and risks in these relations. We concluded that consultations and, where appropriate, coordination are necessary to ensure that, in the field of East-West relations, our economic policies continue to be compatible with our political and security objectives.
37. We will undertake to consult to improve the present system of controls on trade in strategic goods and related technology with the USSR.

Conclusion

38. We are convinced that our democratic, free societies are equal to the challenges we face. We will move forward together and with all countries ready to work with us in a spirit of cooperation and harmony. We have agreed to meet again next year and have accepted the invitation of the President of the French Republic to hold this meeting in France. We intend to maintain close and continuing consultation and cooperation with each other.

INTRODUCTION TO THE PUBLIC ACCOUNTS

Nature of the Public Accounts

The Public Accounts is the report of the Government of Canada prepared each fiscal year by the Receiver General as required by Section 55 of the Financial Administration Act.

The report covers the fiscal year of the Government, which ends on March 31, and is prepared from data contained in the accounts of Canada and from more detailed records maintained in departments and agencies. The accounts of Canada is the centralized record of the Government's financial transactions maintained by the Receiver General in which the transactions of all departments and agencies are summarized. Each department is responsible for agreeing its accounts to the control accounts of the Receiver General, and maintains detailed records of the transactions in those accounts.

The report covers the financial transactions of the Government during the year. In certain cases, parliamentary authority to undertake transactions was provided by legislation approved in earlier years.

Format of the Public Accounts

The Public Accounts is produced in three volumes.

Volume I presents a summary and analysis of the financial transactions of the Government while **Volume II** presents the financial operations of the Government, segregated by department and associated agencies, as well as additional information and analysis of selected types of payments.

Volume III contains the financial statements of those Crown corporations which are permitted by legislation to keep their own accounts. These are Schedules C and D (agency and proprietary) corporations, as well as the Bank of Canada and The Canadian Wheat Board which, although not designated as Crown corporations, act as agents of Her Majesty.

Summary Tables

Table 1 summarizes the assets, liabilities and equity of Crown corporations at their respective year-ends. Table 2 summarizes the major balance sheet items for both agent and other Crown corporations as at March 31, 1982. Table 3 contains a summary of the financial assistance paid from budgetary appropriations during the current year for both agent and other Crown corporations.

Government of Canada Summary of the Financial Position of Agent and Other Crown Corporations at their Latest Year-Ends

Table 1 summarizes the assets, liabilities and equity sections of Crown corporations at their respective year-ends. Their financial statements are included in this volume. As Crown corporations have various year-ends, these are also disclosed.

⁽¹⁾ April, July and December year-ends relate to 1981 whereas March year-ends relate to 1982.

⁽²⁾ The Post Office Department was converted to the Canada Post Corporation by an act of Parliament on October 16, 1981. There are certain valuations to be determined for major assets turned over to the Corporation. In addition, the transfer of titles to the land and buildings turned over to the Corporation by the Government has not been completed; therefore, no figures are being reported in this table.

Canada Lands Company (Mirabel) Limited, Canada Lands Company (Le Vieux-Port de Montréal) Limited and Canada Lands Company (Vieux-Port de Québec) Inc. became Schedule "C" Crown corporations on March 26, 1982. Their financial statements as well as those of the parent company, Canada Lands Company Limited, were not available at date of printing and are not included in this table.

⁽³⁾ The audited financial statements of Loto Canada Inc. for the year ended March 31, 1982 were not available at date of printing.

⁽⁴⁾ Less than \$500.

Government of Canada Financial Interest in Agent and Other Crown Corporations

Table 2 summarizes the major balance sheet items for both agent and other Crown corporations as at March 31, 1982.

The assets and liabilities of agent Crown corporations are the assets and liabilities of the Government, due to the agency relationship. However, in accordance with the accounting policies of the Government, the accounts of agent Crown corporations are not consolidated with those of the Government, and only certain financial transactions between the Government and its Crown corporations, are recorded in the accounts of Canada.

The table displays "Assets" less "Borrowings and other liabilities" to arrive at "Net assets".

Balances which represent transactions with the Government, and which are recorded in the accounts of Canada include: long term obligations to the Government, share capital and contributed surplus as well as claims against the Government of Canada. Such balances are described in this table as "Financial interest recorded by the Government".

"Unrecorded financial interest" represents retained earnings of agent and other Crown corporations adjusted for items which had previously been included in their asset and liability accounts. These adjustments arise from timing differences in the recording of transactions

between the Crown corporations and the Government. Crown corporations record amounts payable to or receivable from Government on an accrual basis for such items as income taxes. The accounts of Canada do not include such amounts until payment is either received or made. Amounts which represent transactions with the Government and which are not recorded in the accounts of Canada are adjusted and are reported under "Unrecorded financial interest". They include: grants receivable, current or deferred income taxes receivable or payable, capitalized or accrued interest payable, sundry accounts payable, long term capitalized leases payable and prepaid expenses related to Canada. "Unrecorded financial interest" adjustments represent amounts which will be eventually received or disbursed by Canada.

Other information presented in this table includes "Change in financial interest from previous year" which identifies the increase or decrease since April 1, 1981. "Financial assistance under budgetary appropriations" summarizes the assistance received by these entities during 1981-82. Details of such assistance are included in Table 3.

Amounts listed in this table reflect information regarding Crown corporations as at March 31, 1982. For corporations with financial year-ends other than March 31, unaudited financial information is included.

TABLE 2

⁽¹⁾ The Post Office Department was converted to the Canada Post Corporation by an act of Parliament on October 16, 1981. There are certain valuations to be determined for major assets turned over to the Corporation. In addition, the transfer of titles to the land and buildings turned over to the Corporation by the Government has not been completed; therefore, no figures are being reported in this table.

Canada Lands Company (Mirabel) Limited, Canada Lands Company (Le Vieux-Port de Montréal) Limited and Canada Lands Company (Vieux-Port de Québec) Inc. became Schedule "C" Crown corporations on March 26, 1982. Their financial statements as well as those of the parent company, Canada Lands Company Limited, were not available at date of printing and are not included in this table.

⁽²⁾ Canada Deposit Insurance Corporation—Unrecorded financial interest consists of premiums credited to the Deposit Insurance Fund plus adjusted accumulated net earnings. The deposits with member institutions insured by the Corporation totalled \$109 billion as at April 30, 1981.

⁽³⁾ Canada Mortgage and Housing Corporation—Unrecorded financial interest includes \$216,102,000 for balances in insurance and guarantee funds. The estimated amount of insurance in force as at March 31, 1982 was \$27.2 billion.

⁽⁴⁾ Canadian National (West Indies) Steamships Limited—The assets of the Corporation include a receivable of \$470,400 due since 1963 from Cuban interests.

⁽⁵⁾ Eldorado Nuclear Limited—Recorded share capital includes a premium of \$1,660,797 representing the capital deficit (after adjustments) shown in the balance sheet of Eldorado Mining and Refining Limited as at December 31, 1944 but not reflected in subsequent balance sheets of Eldorado Mining and Refining (1944) Limited. Consequently, unrecorded financial interest has been reduced by \$1,660,797.

⁽⁶⁾ Export Development Corporation—Obligations recorded by the Government include loans administered by the Export Development Corporation but receivable through the Corporation from foreign governments and foreign companies.

⁽⁷⁾ The St. Lawrence Seaway Authority—Total financial interest takes into account the capital stock of, and investment in, Great Lakes Pilotage Authority, Ltd., The Jacques Cartier and Champlain Bridges Incorporated and The Seaway International Bridge, Ltd. at a cost of \$1,500, \$100 and \$8,000 respectively. Great Lakes Pilotage Authority, Ltd., The Jacques Cartier and Champlain Bridges Incorporated and the Seaway International Bridge, Ltd. are wholly-owned subsidiaries.

⁽⁸⁾ Bank of Canada—Recorded share capital includes \$920,000 representing a premium paid in respect of the acquisition in 1938 of shares held by the public. Consequently, unrecorded financial interest has been reduced by \$920,000.

⁽⁹⁾ Canadian National Railway System—Recorded share capital includes a premium of \$19,452,732 representing the excess of previous year's depreciation not charged to CNR's retained earnings over the Government's investments in Canadian Government Railways and Canadian National Railways Company. These investments were charged to budgetary expenditure by the Government of Canada and credited to shareholder's equity by CNR. Consequently, after the capital revision of Canadian National Railways, the recorded capital stock of the Corporation is \$19,452,732 less than the recorded investment of the Government. Accordingly, unrecorded financial interest is being reduced by this deficiency.

⁽¹⁰⁾ Less than \$500.

Financial Assistance under Budgetary Appropriations

Table 3 summarizes financial assistance under budgetary appropriations for both agent and other Crown corporations. It should be read in conjunction with Table 2. The purpose for which payments have been made under budgetary appropriations is segregated be-

tween: (a) amounts to cover operating deficits and (b) amounts for capital expenditures.

All amounts reported represent charges to appropriations authorized by Parliament during 1981-82.

AIR CANADA

AUDITORS' REPORT

TO THE HONOURABLE
THE MINISTER OF TRANSPORT
AND
TO THE BOARD OF DIRECTORS OF AIR CANADA

We have examined the consolidated balance sheet of Air Canada as at December 31, 1981 and the consolidated statements of income and retained earnings and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these consolidated financial statements present fairly the financial position of the Corporation as at December 31, 1981 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

We further report that, in our opinion, proper books of account have been kept by the Corporation and the accompanying financial statements are in agreement with the books of account.

NOTES TO CONSOLIDATED
FINANCIAL STATEMENTS

1. Summary of significant accounting policies

(a) Consolidation

The consolidated financial statements include the accounts of Air Canada and its wholly-owned subsidiaries, Touram Inc., and Airline Maintenance Buildings Limited. All inter-company transactions have been eliminated.

(b) Depreciation and amortization

Property and equipment, including assets under capital lease are depreciated or amortized based on the straight-line method over their estimated service lives. Gains or losses on dispositions of property and equipment are reflected in income.

(c) Maintenance

Maintenance and repairs are charged to operating expenses except for significant modification costs which are capitalized.

(d) Spare parts

Provision is made for obsolescence of aircraft spare parts based on the estimated service lives of the related aircraft.

(e) Airline revenue

Airline passenger and cargo sales are recognized as operating revenues when the transportation is used. The value of unused transportation is included in current liabilities.

(f) Interest capitalized

Interest on funds used to finance the acquisition of new aircraft and construction of major ground facilities is capitalized as part of the cost of the asset.

(g) Translation of foreign currencies

Assets and liabilities denominated in foreign currencies are translated at year-end exchange rates and resulting gains and losses are included in income.

(h) Investment in other companies

The excess of the acquisition costs of investments over the Corporation's proportionate share of the underlying net book value of the assets acquired is amortized over its estimated useful life.

2. Change in aircraft service lives

Major modifications are being made to DC-8 and DC-9 aircraft. As a result, the service lives of these aircraft have been extended, which, in 1981, resulted in a reduction in depreciation and obsolescence expense of \$14 million.

3. Property and equipment

	1981	1980
	\$	\$
Flight equipment	1,596,386	1,186,778
Ground equipment and facilities	467,432	413,981
Total cost	2,063,818	1,600,759
Less: accumulated depreciation and amortization	909,041	838,452
Progress payments	1,154,777	762,307
Net book value	1,254,068	896,075

AIR CANADA—Continued

FINANCIAL STATEMENTS—Continued

4. Flight equipment under capital leases

	1981	1980
	\$	\$
Flight equipment under capital leases	283,839	302,453
Less: accumulated depreciation	127,047	118,395
Net book value	156,792	184,058

5. Investment in other companies

The Corporation purchased 30% of Innotech Aviation Limited, effective July 1, 1981, for \$4.5 million. This company is in the business of selling, chartering and servicing aircraft.

Investments in companies accounted for on the equity basis include Nordair Ltd. (86.5% owned), Guinness Peat Aviation Ltd. (29.3% owned), Innotech Aviation Limited (30.0% owned), and MATAC Cargo Ltd. (50.0% owned).

The Corporation's share of the 1981 earnings of these companies is included in other non-operating income and amounted to \$2.3 million (1980—\$2.9 million).

The Corporation has continued to exclude Nordair Ltd. from consolidation because its investment in this company was still under Government review.

	518,390	410,881
Current portion	48,290	36,690
	470,100	374,191

None of the long-term debt is secured.

Repayment requirements over the next five years amount to \$278.8 million; \$48.3 million in 1982, \$51.7 million in 1983, \$61.4 million in 1984, \$57.3 million in 1985, and \$60.1 million in 1986.

Long-term debt includes \$234.2 million payable in U.S. funds (1980—\$107.3 million) and \$5.4 million payable in Pounds Sterling (1980—\$10.4 million).

At December 31, 1981 the Corporation had financing arrangements in place totalling U.S. \$1,262.7 million, primarily with the Export-Import Bank of the United States, in respect of its aircraft and facilities commitments and options. Funds drawn down under these arrangements are repayable over periods of up to twelve years at an average rate of 9%.

The Corporation also has revolving and term credit agreements totalling \$200 million with two Canadian chartered banks. The revolving and term periods are three and five years respectively. As at December 31, 1981 drawings against these agreements totalled \$2 million.

7. Lease obligations

The future minimum lease payments under capital and operating leases are as follows:

	Capital leases— Aircraft	Operating leases— Aircraft & facilities
	\$	\$
1982	33,362	22,040
1983	32,801	19,017
1984	32,241	15,958
1985	31,678	13,131
1986	31,116	11,696
Remaining years	110,974	39,676
Total future minimum lease payments	272,172	121,518
Less: amount representing interest	80,540	
Present value of obligations under capital leases ..	191,632	
Less: current portion of obligations under capital leases	18,655	
Long-term obligations under capital leases	172,977	

Capital leases are recorded at an amount equal to the present value of the lease payments using the interest rate implicit in the lease. The average implicit interest rate of these obligations is 7.6% and their expiry dates are from 1986 to 1991.

8. Investment tax credits

As at December 31, 1981, the Corporation had available \$53.8 million of investment tax credits that can be applied as a reduction to future federal income taxes payable. Of these, \$13.2 million is available until 1984, \$11.3 million is available until 1985, and \$29.3 million is available until 1986.

9. Commitments

As at December 31, 1981, contracts for the acquisition of aircraft and spare engines, after deducting progress payments, amounted to approximately U.S. \$593.7 million. Aircraft deliveries are scheduled as follows:

	1982	1983	1984	Total
B-727	3			3
B-767	2	4	6	12

Other commitments include Canadian \$42.3 million for ground equipment, spare parts and facilities, and U.S. \$113.8 million for aircraft modifications.

10. Pension plans

The Corporation maintains pension funds for virtually all its employees. The cost of funding current service pension benefits is charged to operations as incurred. Unfunded liabilities, as determined by actuarial valuation, are funded by annual payments which are charged to operations over periods recommended by the actuaries and in accordance with regulatory requirements. The total charge for these plans for the year was \$65.3 million (1980—\$63.5 million).

As at December 31, 1981 the unfunded liability of the Corporation's pension plans amounted to \$273.0 million (1980—\$217.9 million) and is being retired by annual payments over various periods ending 2003.

AIR CANADA—ConcludedNOTES TO CONSOLIDATED
FINANCIAL STATEMENTS—*Concluded*

11. Subsequent event

On February 5, 1982, the Board of Directors declared a dividend of \$13.2 million payable to the Government of Canada on or before March 31, 1982.

12. Contingencies

Various lawsuits and claims are pending by and against the Corporation. It is the opinion of management that final determination of these claims will not materially affect the financial position or the results of the Corporation.

13. Related party transactions

In the ordinary course of business, the Corporation enters into transactions with related parties, including the Government of Canada, its agencies and other Crown Corporations. The Corporation derives revenues from related parties for passenger, cargo and contract services. Expenses with related parties include landing fees, terminal assessments, taxes and interest on long-term debt.

Account balances resulting from these transactions are included in the balance sheet and are settled on normal trade terms.

14. Comparative figures

The 1980 comparative figures have been restated to conform with the presentation adopted in 1981. The changes include:

- the consolidation of wholly-owned subsidiaries;
 - the restructuring of operating revenue and operating expense categories;
 - the restructuring of the statement of changes in financial position to reflect changes in cash and short-term investments, rather than changes in working capital.
-

ATLANTIC PILOTAGE AUTHORITY

(Established by the Pilotage Act)

AUDITOR'S REPORT

THE HONOURABLE JEAN-LUC PEPIN, P.C., M.P.
MINISTER OF TRANSPORT

I have examined the balance sheet of Atlantic Pilotage Authority as at December 31, 1981 and the statements of operations, deficit, contributed capital and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Authority as at December 31, 1981 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Authority, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

KENNETH M. DYE
Auditor General of Canada

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1981

1. Nature of activities

The Atlantic Pilotage Authority was established on February 1, 1972 pursuant to the Pilotage Act. The objects of the Authority are to establish, operate, maintain and administer a safe and efficient pilotage service within designated Canadian waters. The Act further provides that the tariffs of pilotage charges shall be fair and reasonable and consistent with providing a revenue, together with any revenue from other sources, sufficient to permit the Authority to operate on a self-sustaining financial basis.

2. Significant accounting policies

(a) Depreciation

Depreciation of fixed assets is calculated on a straight-line basis and is based on the estimated useful life of the assets as follows:

Buildings	20 years
Pilot boats	20 years
Pilot boats under capital lease	25 years
Furniture and equipment	10 years

(b) Contributed capital

Amounts representing the values assigned to assets transferred to the Authority from Canada in 1972, the cost of capital assets and the principal portion of payments made under capital lease agreements and financed from parliamentary appropriations to March 31, 1980 are shown as contributed capital.

ATLANTIC PILOTAGE AUTHORITY—*Concluded*

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 1981—*Concluded*

(c) Capital leases

The Authority leases three pilot boats from Canada under long-term financing leases. Under the terms of the lease agreements, the Authority assumes the rights and obligations of ownership. As a result, the leases are treated as purchases and the principal portion of lease payments is capitalized and depreciated over the estimated useful lives of the boats. The corresponding liability is reduced by the principal portion of lease payments and the interest portion is expensed in the year to which it relates.

(d) Pension plan

All employees of the Authority are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required from both the employee and the Authority. Contributions with respect to current service are expensed in the current period. Contributions with respect to past service benefits are expensed when paid generally over the remaining service lives of the pilots.

(e) Employee termination benefits

Employees of the Authority are entitled to specified benefits on termination as provided for under labour contracts and conditions of employment. The liability for these benefits is recorded in the accounts as the benefits accrue to the employees.

(f) Income tax

Under the provisions of the Income Tax Act, the Authority is not subject to income tax.

3. Due to Canada in respect of parliamentary appropriations

In Supplementary Estimates (C), 1980-81 the Government ratified application of the balance due to Canada as at December 31, 1980 in respect of parliamentary appropriations to the Authority's deficit. As a result the deficit as at December 31, 1981 has been reduced by \$368,084.

4. Capital lease agreements

The Authority leases three pilot boats under long-term financing leases. The payments required under the leases are as follows:

	1981	1980
	\$	\$
9 3/4% lease agreement, due April 1991, payable in blended annual payments of \$54,785	547,855	602,640
8% lease agreement, due October 1989, payable in blended annual payments of \$31,077	248,613	279,690
8% lease agreement, due November 1989, payable in blended annual payments of \$31,077	248,613	279,690
Total lease payments	1,045,081	1,162,020
Less: amount representing interest	342,044	407,447
Principal amount of capital lease	703,037	754,573
Less: current portion	55,940	51,536
Principal amount of capital lease agreements net of current portion	647,097	703,037

The aggregate payments required on these leases, in each of the next five years is \$116,939 per annum.

Upon maturity of the leases, the Authority has the option to purchase each of the boats for \$1.

Included in the figure for accumulated depreciation of fixed assets at December 31, 1981 is \$273,920 (\$235,360 at December 31, 1980) representing accumulated amortization on pilot boats under capital lease.

5. Pension plan

Under provisions of the Pilotage Act, pilots may choose to become employees of the Authority and become entitled to count service prior to becoming an employee as pensionable under the Public Service Superannuation Act. For pilots who have elected to purchase pension benefits with respect to past service, the Authority is required to match the employee contribution. The estimated unfunded past service pension contribution with respect to these employees was approximately \$267,000 at December 31, 1981 (\$305,000 at December 31, 1980) and will be funded over the remaining service lives of the pilots, or the terms of purchase whichever is the lesser.

6. Services provided without charge

The Canadian Coast Guard, through its Vessel Traffic Management Centres in Nova Scotia, New Brunswick and Newfoundland, provides a pilot dispatching service to the Authority without charge.

7. Comparative figures

Certain figures for 1980 presented for comparative purposes have been reclassified to conform to the 1981 presentation.

ATOMIC ENERGY OF CANADA LIMITED

(Established under the Atomic Energy Control Act)

AUDITOR'S REPORT

THE HONOURABLE MARC LALONDE, P.C., Q.C., M.P.
MINISTER OF ENERGY, MINES AND RESOURCES

I have examined the balance sheet of Atomic Energy of Canada Limited as at March 31, 1982 and the statements of income, contributed capital, retained earnings and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Company as at March 31, 1982 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Company, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

The accompanying notes are an integral part of these financial statements.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 1982

1. Operations

The Company was established in 1952 under the Atomic Energy Control Act, RSC 1970, Chapter A-19 and the Canada Corporations Act, Part I (continued under the Canada Business Corporations Act) to develop the utilization of atomic energy for peaceful purposes.

The operations of the Company are reported in the Statement of Income under three categories: commercial operations; nuclear research and development; and prototype reactor operations.

The commercial operations consist of:

International Division which constructs nuclear power plants and provides project management, marketing, and engineering services outside Canada;

Engineering Division which provides marketing, engineering, testing and project management services rendered principally to domestic power utilities and the International Division;

Chemical Division which produces and sells heavy water;

Radiochemical Division which manufactures and markets medical and industrial radiation equipment and radioisotopes; and

Corporate operations and investments.

Nuclear research and development consists of:

Basic applied nuclear research and development is conducted at the Chalk River and Whiteshell laboratories. The cost of the research and development program is funded primarily by appropriations from Parliament by way of capital and operating votes.

ATOMIC ENERGY OF CANADA LIMITED—Continued

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED MARCH 31, 1982—Continued

Prototype reactor operations consist of:

Gentilly-1 prototype nuclear station. The cost of maintaining this prototype is funded by appropriations from Parliament; and

Douglas Point nuclear station which is operated by Ontario Hydro for the Company.

2. Significant accounting policies

Nuclear power projects

Nuclear power project revenue and related costs are recognized in the Statement of Income on the percentage of completion method. This method is applied on a conservative basis in order to recognize the absence of certainty on these long-term projects. When estimates indicate a possibility of loss on uncompleted contracts, provision for the estimated loss is made in the accounts of the Company.

Foreign currencies

Monetary assets and liabilities in foreign currencies are translated to Canadian dollars at rates in effect at year end. Deferred revenue and costs on uncompleted contracts in foreign currencies are recorded at historical rates on a monthly basis. Gains and losses, resulting from foreign currency transactions and balances, are recorded in operations or project costs.

Valuation of inventories

Heavy water, radiation equipment and materials are valued at the lower of average cost and net realizable value. Maintenance and general supplies are valued at cost. Inventory is classified as non-current when it is not expected to be sold within the next fiscal year.

Fixed assets

Fixed assets are recorded at cost net of related parliamentary appropriations and are depreciated on a straight-line basis over the estimated useful lives of the assets as follows:

Machinery and equipment	— 5 to 20 years
Buildings	— 20 to 30 years
Prototype reactors	— 30 years

3. Transactions with the Government of Canada

The Government of Canada funds specific nuclear research, development and utilization activities of the Company and provides loan financing for other purposes. During the year the following amounts were provided:

(in thousands of dollars)
1982 1981

Budgetary appropriations		
Nuclear research and development	145,781	123,119
Prototype reactor operations	11,366	10,181
Heavy water—Production	112,949	65,000
—Loan payments	9,300	9,300
—La Prade maintenance	4,539	8,623
	<u>283,935</u>	<u>216,223</u>

Loans and advances

Fixed assets	3,200	3,600
	<u>287,135</u>	<u>219,823</u>

During the year the Company paid \$13.4 million (1981—\$11.1 million) to the Government of Canada as the Company's contributions to the Public Service Superannuation Account.

During the year interest terms on certain loans by Canada for utility financing were amended by the Government. This change resulted in a reduction of \$17.0 million to both utility accounts receivable and related debt.

4. Inventories

(in thousands of dollars)
1982 1981

Current		
Radiation equipment and materials	34,840	27,749
Maintenance and general supplies	21,024	21,656
Heavy water	7,252	5,161
	<u>63,116</u>	<u>54,566</u>
Non-current		
Heavy water net of parliamentary appropriations totalling \$177.9 million (1981—\$65 million)	39,283	54,470

The funding of heavy water production by parliamentary appropriations requires annual approval and is repayable from future sales. At the year end, the Government funded inventory had not been committed to any sales contract.

5. Long-term receivables

(in thousands of dollars)
1982 1981

Notes receivable from provincial utilities to finance nuclear facilities some of which are under construction, at interest rates varying from 7.795% to 10.0%. On certain notes totalling \$350.0 million, interest is not receivable until the earlier of the in-service date of the facility or April 1, 1983. The notes included herein that have established terms totalling \$184.4 million mature through 1992. The remaining notes have a 25 year amortization from the in-service date of the plants	685,369	696,013
--	---------	---------

Refer to Note 8 for related debt.

Lease/sale options due from foreign governments and companies at fixed or floating interest rates. On fixed rate agreements, the interest rates range from 7.0% to 10.5% with terms of up to 12 years. On floating rate agreements, interest is based on bank offered rates

Current portion	37,165	13,946
	<u>770,149</u>	<u>806,340</u>

6. Investment

Ontario Hydro, the Province of Ontario and the Company are parties to a joint undertaking for the construction and operation of Units 1 and 2 of the Pickering 'A' nuclear generating station, with ownership of these units being vested in Ontario Hydro. Ontario Hydro is committed to make payments over a period terminating in 2001 to each of the parties in proportion to their capital contributions. These payments, termed "payback", represent in a broad sense the net operational advantage of having the power generated by Pickering Units 1 and 2 as compared with the coal-fired Lambton Units 1 and 2. The cost of the investment is amortized on a straight-line basis and amounted to \$4.8 million for the year as a charge to operations.

Current portion	33,785	30,354
	835,454	848,960

Long-term debt is due as follows (\$ millions): 1984—\$25.7; 1985—\$31.3; 1986—\$34.7; 1987—\$26.5; subsequent to 1987—\$717.3.

9. Major contracts in progress

International nuclear power projects

The Company has contracts in progress in Argentina, Korea, and Romania with respect to the construction of, and/or supply of engineering services and materials for 600 megawatt (electric) CANDU nuclear power stations.

Domestic projects

The Company has contracts with provincial utilities in Ontario, Quebec and New Brunswick for the provision of engineering and procurement services for the construction of CANDU nuclear power stations.

Provisions for uncompleted contracts

The Company has made adequate provision in its accounts at March 31, 1982 for possible future losses and warranty costs.

10. Major commitments

Cobalt—60

In July 1969, the Company entered into a contract with Ontario Hydro whereby the Company is committed to purchase all of the Cobalt-60 produced at the Pickering generating station for a period of 30 years from the in-service date (1971) of the installation. The contract is independent of market demand and may be terminated by agreement between the parties.

Heavy water

The Company has a contract with Hydro Quebec to supply 1,440 megagrams of heavy water by 1990 at a price that is intended to recover all relevant costs. The Company is required to repurchase up to 960 megagrams of the heavy water in 1995 if declared surplus by Hydro Quebec. To date Hydro Quebec has not committed to take delivery of any heavy water under the terms of this contract.

ATOMIC ENERGY OF CANADA LIMITED—Concluded**NOTES TO THE FINANCIAL STATEMENTS****FOR THE YEAR ENDED MARCH 31, 1982—Concluded****11. Comparative financial data**

Where appropriate, financial data for 1981 has been reclassified to conform with the 1982 format. Some contractual revenue and costs relating to international nuclear power projects, previously offset in the Company's accounts, have now been restated to more properly reflect the nature of these transactions.

13. Supplementary information**Elimination of deficit**

A financial reorganization provided for the elimination of the deficit in the amount of \$147.1 million against contributed capital at April 1, 1980.

Directors' and officers' remuneration

During the year the Company's Board of Directors received aggregate remuneration as directors of \$52,800 (1981—\$11,100). The aggregate remuneration received by the executive officers of the Company amounted to \$955,167 (1981—\$746,700).

Sales agents' remuneration

During the year, remuneration and expenses paid to the following sales agents and representatives, primarily with respect to the operations of the Radiochemical Division, aggregated \$0.8 million (1981—\$0.6 million).

BANK OF CANADA

AUDITORS' REPORT

We have examined the statement of assets and liabilities of the Bank of Canada as at December 31, 1981 and the statement of income and expense for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the Bank as at December 31, 1981 and the results of its operations for the year then ended in accordance with the accompanying summary of significant accounting policies, applied on a basis consistent with that of the preceding year.

See accompanying notes to the financial statements

⁽¹⁾ Salaries, including overtime, and related contributions to pension and insurance funds for bank staff other than those engaged in building maintenance. The number of employee years worked by such staff (including temporary, part-time and overtime work) was 1,955 in 1981 compared with 1,956 in 1980 but there was a significant increase in the average level of skills of those employed.

⁽²⁾ Includes cafeteria expenses, retirement allowances, educational training costs and medical expenses.

⁽³⁾ Includes all building maintenance costs (including staff costs) but net of rental income.

Certain of the expenses for 1980 have been reclassified in order to conform with the presentation adopted for 1981.

FINANCIAL STATEMENTS DECEMBER 31, 1981
SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements have been prepared within the framework of the accounting policies summarized below.

(a) Form of Presentation

The form of the statement of assets and liabilities meets the requirements of the Bank of Canada Act.

(b) Revenues and Expenses

Revenues and expenses have been accounted for on the accrual basis.

(c) Investments

In accordance with the requirements of the Bank of Canada Act, these assets have been recorded at their cost adjusted for amortization of purchase discounts and premiums. The amortization as well as gains and losses on disposition have been included in income.

(d) Translation of Foreign Currencies

Assets and liabilities in foreign currencies have been translated to Canadian dollars at the rates of exchange prevailing at the year-end.

(e) Depreciation

Depreciation has been recorded at the following annual rates applied on the declining balance method:

Buildings	5%
Equipment	20%

CANADA DEPOSIT INSURANCE CORPORATION
(Established by the Canada Deposit Insurance Corporation Act)

AUDITOR'S REPORT

THE HONOURABLE ALLAN J. MACEACHEN, P.C., M.P.
 MINISTER OF FINANCE

I have examined the balance sheet of the Canada Deposit Insurance Corporation as at December 31, 1981 and the statements of income and accumulated net earnings and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Corporation as at December 31, 1981 and the results of its operations and the changes in its financial position for the year then ended in accordance with the accounting policies set out in Note 2 to the financial statements applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

KENNETH M. DYE
Auditor General of Canada

CANADA DEPOSIT INSURANCE CORPORATION—Continued

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1981

1. Authority and objective

The Canada Deposit Insurance Corporation was established in 1967 by the Canada Deposit Insurance Corporation Act ("the Act") (C3, R.S. 1970 as amended). The Corporation is, for all purposes of this Act, an agent of Her Majesty and all property acquired by the Corporation is the property of Her Majesty.

The Corporation's principal objective is to provide insurance on deposits with federal institutions (banks, trust and loan companies) and approved provincial institutions (trust and loan companies) up to \$20,000 per depositor per institution.

2. Significant accounting policies

(a) Premiums

Premiums are assessed against member institutions based on insurable deposits held by those institutions on April 30 of each year. Premiums are credited directly to the Deposit Insurance Fund in accordance with section 18 of the Act. Premium rebates, representing a refund of premiums previously paid, are charged directly to the Deposit Insurance Fund.

(b) Accumulated net earnings

In accordance with section 20(2) of the Act, the Corporation's accumulated net earnings are reported as a separate item on the balance sheet, and shown as an addition to the Deposit Insurance Fund.

(c) Recognition of losses

Provisions for losses arising from actions taken to secure the subrogation of depositors' rights and interests are recorded in the year these actions are taken or as soon as possible thereafter when the eventual losses can be reasonably estimated. Such provisions are recorded as a direct charge against accumulated net earnings.

(d) Income taxes

Income taxes are accounted for on the tax allocation basis, which relates the provision for income taxes to the reported accounting income for the period. Timing differences between the income reported for accounting and for tax purposes are recorded as deferred income taxes and arise from the exclusion of qualifiable accrued interest from income for tax purposes and from claiming an investment reserve for tax purposes.

(e) Fixed assets

Fixed assets are recorded at cost. Depreciation on furniture and equipment is calculated at 20%, per annum, on the declining balance method and leasehold improvements are amortized on a straight line basis over the remaining terms of the leases up to a maximum of five years.

(f) Investments

Investments in treasury bills, bonds, debentures and mortgages are recorded at cost. The cost of bonds and debentures is adjusted for the amortization of premiums and discounts.

3. Cash and cash equivalents

	1981	1980
	\$	\$
Cash.....	691,571	48,309
Short-term deposits.....	400,000	800,000
Treasury bills.....	81,623,477	66,059,655
	<u>82,715,048</u>	<u>66,907,964</u>

4. Secured loans—Astra Trust Company

These represented fully secured loans made to the company prior to its liquidation. The loans were fully recovered during 1981.

5. Guaranteed loans—Quebec Deposit Insurance Board

During the year 1981, under section 33 of the Act, the Corporation entered into an agreement with the Quebec Deposit Insurance Board whereby the Board requested loans from the Corporation to meet short-term requirements for liquid funds. The Corporation approved a line of credit of \$100,000,000 to the Board. As at December 31, 1981, the Corporation had advanced to the Board \$55,000,000 of which \$25,000,000 had been repaid, leaving an outstanding loan balance of \$30,000,000. The Corporation advanced a further \$25,000,000 on January 8, 1982. All funds advanced to the Quebec Deposit Insurance Board are guaranteed by the Province of Quebec and are repayable in full with interest on or before June 11, 1982.

6. Investments—Canada bonds

December 31, 1980	<u>92,350,000</u>	<u>91,935,973</u>	<u>87,394,850</u>

7. Assets acquired from a member institutions in liquidation

	1981	1980
	\$	\$
Canada bonds and other bonds and debentures.....	1,164,865	1,267,972
(Market value December 31, 1981: \$635,955 December 31, 1980: \$821,088)		
Mortgages.....	<u>6,263,001</u>	<u>769,571</u>
	<u>7,427,866</u>	<u>2,037,543</u>

The Corporation acquired these assets either as a result of subrogation, to the Corporation, of the rights and interests of the depositors in respect of whom the Corporation paid claims for insured deposits, or in settlement of secured loans owed by a member institution to the Corporation.

The mortgages include mortgages valued at \$5,725,385 acquired from Astra Trust Company, in partial settlement of secured loans.

8. Claims re insured deposits

(a) Commonwealth Trust Company

In 1970, under the provisions of section 13 of the Act, the Corporation, by paying \$5,432,971, acquired all the rights and interests of the depositors against the member institution which was in receivership. Recoveries to December 31, 1981 totalled \$4,992,971, leaving a balance of \$440,000 outstanding. The Corporation has recorded this claim at \$1 since 1976; subsequent recoveries are credited directly to the accumulated net earnings. No recoveries were received during the current year.

CANADA DEPOSIT INSURANCE CORPORATION—*Concluded*

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 1981—*Concluded*

(b) Astra Trust Company

In 1980, Astra Trust Company, a member institution, was placed in liquidation. The Corporation met its obligations by making payments for claims in respect of the insured deposits. The Corporation's claims against the Astra Trust Company, comprise the total payments made by the Corporation for insured deposits of \$21,532,457 less the provision for loss of \$3,200,000.

Certain claims were filed in 1980 against the Corporation with respect to a non-member institution which are alleged to be related to the operations of the Astra Trust Company. The Corporation is still of the opinion that it is not liable in this connection.

9. Reduced premiums

As provided in section 19(8) of the Act and as approved by the Board of Directors, member institutions were assessed reduced premiums for the year. Reduced premiums have been assessed in every year since 1972.

10. Guarantee agreement

Under section 11(a) of the Act, the Corporation is empowered to guarantee deposits with a member institution for the purpose of reducing or averting a threatened loss to the Corporation. During the current year, the Corporation entered into a \$10,000,000 guarantee agreement with one of its member institutions for the purpose of guaranteeing a deposit with another member. As at December 31, 1981, an amount of \$1,500,000 was on deposit under the terms of this guarantee agreement.

11. Income

	1981	1980
	\$	\$
Interest		
Treasury bills	13,615,311	8,583,510
Canada bonds	8,410,333	8,515,127
Loans	2,771,500	830,883
Mortgages	854,482	62,253
Cash, short-term deposit and other bonds and debentures	378,793	230,193
	26,030,419	18,221,966
Net amortization of premiums and discounts on bonds and debentures and sundry	289,752	176,772
	26,320,171	18,398,738

12. Prior year's adjustment

As a result of a change in the Income Tax Act in 1981, the Corporation was assessed an additional \$518,828 for income tax for the year 1980. The net income for the year 1980 and the accumulated net earnings at January 1, 1981 have been reduced accordingly. The comparative figures for 1980 have been restated to give effect to this adjustment.

13. Insured deposits

Deposits insured by the Corporation, on the basis of returns received from member institutions, totalled \$109 billion as at April 30, 1981 (1980: \$96 billion), comprising deposits of \$99 billion in federal institutions and \$10 billion in provincial institutions.

CANADA MORTGAGE AND HOUSING CORPORATION

AUDITORS' REPORT

TO THE HONOURABLE PAUL COSGROVE, P.C., M.P.
MINISTER RESPONSIBLE FOR
CANADA MORTGAGE AND HOUSING CORPORATION

We have examined the balance sheet of Canada Mortgage and Housing Corporation as at December 31, 1981, the related statements of operations and reserve fund and financial activities, and the accompanying statements of the mortgage insurance fund and other insurance and guarantee funds for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements are in agreement with the books of account of the Corporation and present a true and fair view of the state of affairs of the Corporation and funds as at December 31, 1981, and the results of their operations and financial activities for the year then ended in accordance with the accounting policies described in note 1 to the financial statements applied on a basis consistent with that of the preceding year.

In our opinion, proper books of account have been kept and the transactions of the Corporation that have come under our notice have been within the powers of the Corporation.

CANADA MORTGAGE AND HOUSING CORPORATION—Continued

NOTES TO THE FINANCIAL STATEMENTS
31 DECEMBER, 1981

Canada Mortgage and Housing Corporation was constituted as a Crown Corporation by an Act of Parliament on January 1, 1946. Its activities are regulated by the National Housing Act, the Canada Mortgage and Housing Corporation Act and, in certain respects, the Financial Administration Act, and include:

- (i) Financing housing through the making of mortgage loans under specified conditions at interest rates normally at market rates which are generally higher than the rates it pays on funds borrowed from the Government of Canada;
- (ii) Making certain payments or incurring expenses in the process of delivering housing programs on behalf of the federal government. These payments and expenses include grants, contributions, subsidies, loan forgiveness, losses on real estate, losses under federal-provincial agreements, interest rate losses, research and development, and specified administrative costs. The funding for these activities is provided for in Main or Supplementary Estimates which are tabled in Parliament. Parliamentary approval is by way of Appropriation Acts which authorize the responsible Minister to reimburse the Corporation for the specified payments and expenses for the fiscal year concerned. The Corporation seeks recovery throughout the year as payments and expenses are incurred; and,
- (iii) Establishing a framework of confidence for mortgage lending by private institutions, the chief instrument being the provision of mortgage insurance. This facilitates an adequate supply of mortgage funds by reducing the risk to lenders and encouraging the secondary market trading of mortgages. To this end the Corporation administers on behalf of the Government of Canada certain Insurance and Guarantee Funds. The Mortgage Insurance Fund, the largest of the Funds, was established to provide for claims made under the National Housing Act and is the depository for the mortgage insurance premiums paid by borrowers. The Mortgage Insurance Fund, while administered by the Corporation, is a separate legal accounting entity. To the extent that the assets of the Fund are not sufficient to meet claims against it the Minister at the request of the Corporation may, out of the Consolidated Revenue Fund, advance to the Corporation upon terms and conditions approved by the Governor-in-Council the amounts necessary to enable the Corporation to discharge its obligations on behalf of the Fund.

1. Significant Accounting Policies

The Corporation follows generally accepted accounting principles or, in certain cases, accounting practices appropriate to the Corporation's activities and governing legislation. The principal accounting policies followed by the Corporation are:

(a) Interest Income and Expenses

Interest income and expenses are accounted for on the accrual basis.

(b) Grants, Contributions and Subsidies

Grants, contributions and subsidies made on behalf of the Minister responsible for the Corporation and other Ministers of the Crown are recorded as recoverable when expenses are recognized.

(c) Loans

Loans are capitalized as funds are advanced. Where loans contain forgiveness clauses, such forgiveness is recorded when the loans are initiated and recovered from the Minister. Loans under certain programs give rise to interest rate losses

which are recoverable from the Minister. No provisions are made for possible losses on loans. Losses on insured loans are recoverable from the Mortgage Insurance Fund while property acquired upon default on uninsured loans is subject to loss recovery as described under Real Estate.

(d) Real Estate

Real estate funded by the Corporation is recorded at cost. Real estate acquired upon default of loans is recorded at the unpaid loan balance plus interest accrued to the date of acquisition by default, together with acquisition expenditures and any modernization and improvement costs. Both the net operating costs prior to disposal and net losses resulting from the disposal of properties acquired upon default of loans are recoverable from the Minister. Profits on the sale of Corporation-funded real estate or real estate acquired without cost are recognized as income as payments are received.

(e) Depreciation

Depreciation of real estate acquired by foreclosure is recorded on a straight line basis over the balance of the term originally established for repayment of the loan.

Depreciation of real estate funded by the Corporation is recorded on a straight line basis over the term established for repayment of borrowings to finance construction or acquisition of the real estate.

Depreciation on business premises, office furniture and equipment is recorded on a diminishing balance basis at capital cost allowance rates in accordance with the provisions of the Federal Income Tax Act.

(f) Federal-Provincial Agreements

Investments made under agreements with the provinces to encourage development of rental housing, land assembly, co-operative housing and rural and native housing are considered joint ventures. The underlying assets includes agreement for sale, mortgages and real estate.

The Corporation has a seventy-five percent share in the joint ventures which is accounted for on the equity method. Under this method the investment is carried in the Balance Sheet at original cost to the Corporation plus the Corporation's seventy-five percent share of recognized earnings. Where the Province is responsible for the administration of projects, the Corporation relies on financial information provided by the Province.

Gains on the sales of land assembly projects are retained by the Corporation and are recognized as income as payments are received. The timing of these sales is dependent on many factors and as a result the earnings derived therefrom fluctuate from year to year. Losses incurred on federal-provincial investments are recoverable from the Minister.

(g) Income Tax

The Corporation is subject to federal income tax and provides for income tax on the tax allocation basis. Under this basis the provision for income tax is determined from the earnings reported in the statement of operations rather than from the Corporation's income for tax purposes.

(h) Reserve Balance

Income or loss after income taxes is transferred to the Reserve Fund which is limited by statute to \$5,000,000. Any excess over this amount is transferred to the credit of the Receiver General for Canada.

CANADA MORTGAGE AND HOUSING CORPORATION—Continued

NOTES TO THE FINANCIAL STATEMENTS

31 DECEMBER, 1981—Concluded

(i) Employees' Pension Plan

Current service costs of the employees' pension plan are charged to earnings and funded on the basis of an actuarial study made at least every three years in accordance with the provisions of the Pension Benefits Standards Act which is administered by the Department of Insurance.

Experience deficiencies or surpluses determined by actuarial study are recognized in the year in which such deficiencies or surpluses are identified. The existing actuarial obligation is being funded over a fifteen year period in accordance with the Pension Benefits Standards Act.

(j) Insurance and Guarantee Funds

For purposes of reporting on the Funds administered by the Corporation, transactions are recorded on a modified cash basis with premiums and interest taken into income in the year received and claims charged against the Fund when paid by the Corporation; no provision is made for claims anticipated or in process. Real estate acquired on claims against the Mortgage Insurance Fund is carried in the accounts at the amount of the claim or the appraised market value whichever is lower; no depreciation is recorded on this real estate.

The appraised market value of real estate acquired on claims against the Mortgage Insurance Fund is estimated by the Corporation using generally accepted appraisal methodologies. These are applied by its accredited appraisers taking into account factors which include, but are not limited to, market conditions, prevailing interest rates, occupancy rates and project income potential.

Deferred receivables on sales of real estate and mortgages receivable are presented net of provisions for anticipated losses.

2. Borrowings from the Government of Canada

The Corporation borrows from the Government of Canada under the provisions of Section 22 of the CMHC Act and Section 40 and 55 of the National Housing Act to finance investment in loans, federal-provincial agreements, real estate and agreements for sale and mortgages arising from sale of real estate. The borrowings are evidenced by debentures, which bear interest at varying rates and are repayable over periods not in excess of 50 years.

The Corporation also borrows from the Government of Canada under the provisions of Section 9(6) of the National Housing Act, in order to meet its obligations related to the Mortgage Insurance Fund. The borrowings are evidenced by Notes Payable. These notes bear interest at varying rates equal to the rates which the Minister of Finance approves for loans to Crown Corporations and are repayable not later than March 31, 1985.

3. Mortgage Insurance Fund

(a) Actuarial Valuation

An actuarial study of the Mortgage Insurance Fund undertaken by the Corporation during the year disclosed that the Fund is inadequate to pay all future claims in respect of business in force and accepted to June 30, 1981. The actuarial deficiency is estimated at approximately \$210 million. The study shows that, unless corrected by an immediate infusion of funds, the deficiency will continue to increase due to the effect of interest charges.

This situation has resulted from the charging of inadequate premiums particularly on the Assisted Home Ownership and Assisted Rental Programs. These premiums are set out in the National Housing Act.

If the assumptions made in the actuarial study as to future trends are borne out by events the resulting deficit could lead to a claim on the Government of Canada as provided for in the National Housing Act.

(b) Claims in Process

Claims in process represent the estimated value of claims received and unpaid at the end of the year.

(c) Insurance in Force

The estimated amount of insurance in force at the end of the year was \$26.8 billion (1980—\$26.9 billion, restated).

4. Adjustment of Prior Years' Net Income

The adjustment to prior years' net income relates to the Corporation's investment in federal-provincial land holdings in the Province of Ontario and the sale proceeds resulting therefrom.

The bulk of the land holdings were transferred to the Province for development, marketing and administration early in 1970. Since that date there were inconsistencies between the Province's and the Corporation's accounting for the 75% equity in the land holdings and sale proceeds. As a result, the Corporation's share of sale proceeds and interest earnings on agreements for sale and mortgage accounts in prior years was undervalued by \$8,525,000 in its books of account; applicable income tax is \$4,117,000.

The after tax adjustment of \$4,408,000 has been applied to 1980 in the amount of \$1,028,000 and to 1979 and prior years in the amount of \$3,380,000. This adjustment has been reflected by a restatement of the Statement of Operations and Reserve Fund for the year ended December 31, 1980.

5. Contingent Liabilities

In the normal course of operations, the Corporation is subject to legal claims the effect of which cannot be determined until they are settled. At December 31, 1981, the claims outstanding are not expected to have a result which would be significant in relation to the financial position of the Corporation.

6. Commitments

Commitments outstanding for loans and investments under Federal-Provincial agreements amounted to \$0.8 billion at December 31, 1981 (1980 — \$1.0 billion).

7. Comparative Figures

The 1980 comparative figures have been reclassified to conform to the statement presentation adopted in 1981.

THE AUDITED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 1982
WERE NOT AVAILABLE AT DATE OF PRINTING

CANADIAN BROADCASTING CORPORATION (Established by the Broadcasting Acts)

AUDITOR'S REPORT

THE CANADIAN BROADCASTING CORPORATION AND
THE HONOURABLE FRANCIS FOX, P.C., M.P.
MINISTER OF COMMUNICATIONS

I have examined the balance sheet of Canadian Broadcasting Corporation as at March 31, 1982 and the statements of income and expense, proprietor's equity account and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Corporation as at March 31, 1982 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied, except for the change in the method of accounting

for its participation in a joint venture as explained in Note 3 to the financial statements, on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

KENNETH M. DYE
Auditor General of Canada

Ottawa, Ontario
June 18, 1982

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1982

1. Authority and objective

The Canadian Broadcasting Corporation was established by the 1936, 1958 and 1968 Broadcasting Acts and is classified as a proprietary Crown corporation under Schedule D of the Financial Administration Act. The Corporation is an agent of Her Majesty and all property acquired by the Corporation is the property of Her Majesty.

The objective of the Corporation is to develop and provide a national broadcasting service for all Canadians in both official languages, in television and radio, and to provide an international service, both of which should be primarily Canadian in content and character.

2. Significant accounting policies

The financial statements of the Corporation have been prepared by management in accordance with generally accepted accounting principles consistently applied. Because a precise determination of many assets and liabilities is dependent upon future events, the preparation of periodic financial statements necessarily involves the use of estimates and approximations. The financial statements have, in management's opinion, been properly prepared within reasonable limits of materiality and within the framework of the accounting policies summarized below:

(a) Engineering and production supplies

The inventory of engineering and production supplies is stated at the lower of average cost and replacement cost.

(b) Programs completed and in process of production

The inventory of programs completed and in process of production is stated at cost. Cost includes the cost of goods

and services, direct labour and the share of overhead expenses applicable to each program. The total program cost is charged to operations upon broadcast or when programs are determined unusable.

(c) Prepaid film rights

The Corporation enters into contracts for film broadcasting rights. As payments are made under the terms of each contract they are reflected in the accounts as prepaid film rights. The prepaid film rights are then charged to operations as the films are broadcast or determined unusable.

(d) Fixed assets

Fixed assets are stated at cost. Cost includes material, engineering services, direct labour and related overhead. Depreciation is calculated on the straight-line method based on the estimated useful lives of the assets, as follows:

Buildings	33 years
Technical equipment:	
Transmitters and towers	20 years
Other	10 years
Furnishings and equipment	10 years
Automotive	5 years

Leasehold improvements over \$200,000 are capitalized and amortized over the term of the lease to a maximum period of five years.

Amounts included in uncompleted capital projects are transferred to the appropriate fixed asset classification upon completion, and are then depreciated according to the Corporation's policy.

(e) Leases

Leases are classified as capital or operating leases. Assets recorded under capital leases are amortized on a straight-line method using rates based on the estimated useful life of the assets or based on the lease term as appropriate. Obligations recorded under capital leases are reduced by rental payments net of imputed interest.

(f) Employees' termination benefits

Employees' termination benefits are provided in the accounts as benefits accrue to employees under their respective terms of employment.

(g) Pension plan

The cost of funding current service pension benefits is charged to operations as incurred. Unfunded liabilities as determined by actuarial valuation are funded by payments which are charged to operations over periods recommended by the actuaries and in accordance with regulatory requirements. Additional payments are charged to operations as made.

3. Investment in a joint venture

The Corporation has changed its method of accounting for its participation in the joint venture, Hockey Night in Canada. Effective 1981/82 this investment is accounted for on the equity method. This change has not been applied retroactively. The investment account is adjusted for the Corporation's share of profit or loss on the venture, which is taken into income or expense.

4. Mortgage receivable and due to Canada

On February 15, 1982, the Corporation finalized a sale of land in the City of North York, Ontario, as approved by Order in Council P.C. 1980-2690, for an amount of \$10.5 million, and in conformity with an agreement reached between the Corporation

CANADIAN BROADCASTING CORPORATION—Concluded

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 1982—Concluded

and Treasury Board, all proceeds from the sale, including interest on the mortgage principal, are to be remitted to the Receiver General for Canada.

The terms of sale included an agreement that the Corporation receive cash of \$5 million and grant to the purchaser a mortgage in the amount of \$5.5 million, becoming due in total on February 15, 1985. Interest of 10% on the principal sum is to accrue, and become payable, each quarter year, the first payment being due on May 15, 1982.

5. Other investments

	(in thousands of dollars)	
	1982	1981
Télévision St. François Inc.—		
Preferred shares	350	350
Master FM Limited—Common shares	2	2
	<u>352</u>	<u>352</u>

6. Proceeds from parliamentary appropriations

	(in thousands of dollars)			
	Operating	Capital	Working Capital	Total
Payment to the Corporation in providing a broadcasting service	598,457	60,000	6,000	664,457
Refundable to Canada		15		15
Proceeds retained				
March 31/82	598,457	59,985	6,000	664,442
March 31/81	536,762	48,489		585,251

The following have been expensed in the accounts of the Corporation on an accrual basis which differs from the basis on which they are funded by parliamentary appropriations, and accordingly, as they are not funded by current annual appropriations, they have been transferred to the Proprietor's Equity Account:

	(in thousands of dollars)	
	1982	1981
Depreciation and amortization	35,673	34,717
Provision for employees' termination benefits and vacation pay	10,213	12,816
	<u>45,886</u>	<u>47,533</u>

As at March 31, 1982, the operating parliamentary appropriations carried over, amounting to \$7,977,000 (\$12,494,000 in 1981), were retained by the Corporation and included in the Proprietor's Equity Account.

7. Advances from Canada

Advances are made for working capital purposes and are free of interest. These advances become repayable to the Receiver General for Canada when cash and treasury bills exceed the Corporation's requirements for working capital.

8. Lease obligations

The assets and related obligations for capital leases are recorded at an amount equal to the present value of future lease payments.

The future significant minimum lease payments under capital and operating leases that have initial non-cancellable lease terms in excess of one year as of March 31, 1982, are as follows:

	(in thousands of dollars)	
	Capital Leases	Operating Leases
1983	86	38,762
1984	72	31,422
1985	15	24,737
1986	2	23,001
1987		21,927
1988-2061		<u>55,618</u>
Total future minimum lease payments	175	<u>195,467</u>
Deduct: amount representing interest	23	
Long-term obligations under capital leases	<u>152</u>	

9. Commitments

The Corporation has entered into commitments for film rights amounting to approximately \$42.6 million (\$40.5 million in 1981).

10. Pension plan

The Corporation's pension plan covers substantially all continuing employees. The total charge against operations for the plan for the year ended March 31, 1982 was \$26.5 million (\$24.0 million for the year ended March 31, 1981). As at March 31, 1982 the present value of the estimated unfunded liabilities was \$97.6 million based on the actuarial valuation at December 31, 1980. Of this amount:

- \$90.8 million related to unfunded liabilities existing at December 31, 1976 to be liquidated over 30 years;
- \$6.8 million arose during 1977 to be liquidated over periods not exceeding 15 years.

11. Contingencies

In the ordinary course of business, various claims and lawsuits have been brought against the Corporation. In the opinion of management, the losses, if any, which may result from the settlement of these matters are not likely to be material and accordingly no provision has been made in the accounts of the Corporation.

CANADIAN COMMERCIAL CORPORATION

(Established by the Canadian Commercial Corporation Act)

AUDITOR'S REPORT

THE HONOURABLE MARK MACGUIGAN, P.C., M.P.
SECRETARY OF STATE FOR EXTERNAL AFFAIRS

I have examined the balance sheet of the Canadian Commercial Corporation as at March 31, 1982 and the statements of operations, retained earnings and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Corporation as at March 31, 1982 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

E. R. ROWE

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 1982

1. Operations

The Corporation acts primarily as the contracting agency when other countries and international agencies wish to purchase products and services from Canada on a government-to-government basis.

Contracts are made with customer governments and corresponding contracts are entered into with Canadian firms by the Corporation.

Supply and Services Canada provides contracting services to the Corporation at Treasury Board approved, pre-determined rates, applied to the amounts of contracts procured, and provides certain administrative functions at cost.

If the Minister so directs, the Corporation transfers to the Receiver General for Canada any surpluses considered to be in excess of requirements. Reimbursement for realized deficits is contingent on parliamentary appropriations.

The Corporation is not liable for the payment of income taxes.

The Corporation has no capital stock. Contributed capital of \$20,000,000 comprises amounts received from Canada under subsection 8(1) of the Canadian Commercial Corporation Act.

2. Significant accounting policies

(a) Contract billings

Sales are recorded at time of delivery except in the case of contracts involving progress payments; in these cases, sales are recorded at the time progress payments become due. Since title to work-in-process related to progress claims has not passed to customers, the Corporation continues to recognize assets and liabilities resulting from progress payments and receipts until delivery is made.

(b) Furniture and equipment

Furniture and equipment are charged to expense in the year of acquisition. As at March 31, 1982 the aggregate original cost of furniture and equipment on hand amounted to \$118,000 (\$114,000 in 1981).

(c) Foreign currency

All assets and liabilities have been translated at the exchange rate on March 31, 1982. Income and costs have been converted at the average exchange rate for the month of the transaction. Gains and losses resulting from foreign currency transactions including translation, are shown in the Statement of Operations.

CANADIAN COMMERCIAL CORPORATION—*Concluded*

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED MARCH 31, 1982— *Concluded*

3. Accounts receivable

(a) Foreign governments

Since the Corporation's sales are on a government-to-government basis the settlement of some accounts may be protracted. Provision for bad debts is based on a review of all outstanding accounts with foreign governments. In respect of this review, the Corporation recognizes that future economic and political conditions in some of the debtor countries are subject to forces which are unpredictable. Accordingly, delays in payment which may occur from time to time are not necessarily indicative of a need to make provision for future losses.

The Corporation has provided \$933,000 as at March 31, 1982 (\$777,000 in 1981) against the possible non-collection of certain receivables.

(b) Government of Canada

Expenses and working capital payments are funded by Parliamentary appropriation. As at March 31, expenses of \$1,839,749, applicable to the 1981-82 appropriation, had not yet been paid by the Government of Canada.

4. Contractual commitments

At March 31, 1982 the Corporation was committed to fulfill contracts with customers amounting to \$854 million (\$559 million in 1981).

The Corporation is committed to its customers for the performance of its suppliers and thus may incur additional costs on default of a supplier. A provision of \$164,000 is recorded for additional contract costs which it is estimated may be realized if certain suppliers are unable to meet contractual obligations.

5. Advances received from customers

Certain advances received from customers amounting to \$564,334 (\$478,220 in 1981) bear interest for customers' accounts at prevailing short-term bank deposit rates.

6. Loan to supplier

During 1971 the Corporation entered into a loan agreement with a supplier. The original agreement has been subsequently amended to provide that the Corporation controls the supplier's ability to obtain financing and to change ownership. The loan is non-interest bearing, unsecured and repayable in annual instalments of increasing amounts terminating in 1990.

7. Contingent liabilities and extraordinary items

(a) The Corporation is named as defendant in a legal action instituted in 1975 claiming damages for alleged losses resulting from the termination of a portion of a contract. Total damages claimed are \$6.8 million plus accrued interest and costs. The action is being contested and the ultimate outcome is uncertain. In light of the advice of counsel, management is of the opinion that no provision for settlement is required.

(b) In accordance with Treasury Board decisions, the Corporation was directed to reimburse the Department of Justice for legal fees and expenses they incurred as a result of action taken against the Corporation related to the contract referred to above. These costs are funded by parliamentary appropriation and the Treasury Board decisions recognize that the Corporation is not in a position to validate the expenditures made under the authority of the Minister of Justice.

(c) The Corporation is named as defendant in a legal action recently instituted claiming damages in the amount of \$0.5 million for alleged losses resulting from the Corporation action in 1980 to take possession of certain goods of a company, to whom the plaintiff was a supplier, in order to complete a contract. Based on the advice of counsel, management is of the opinion that no provision for settlement is required.

8. Representative agreements

The Corporation has entered into a representative agreement with Dismatica Industrial C.A. of Venezuela to whom fees of \$10,953 were paid during the year (\$9,079 in 1981).

Representative agreements are also in effect with Sunda Karya Corporation, Indonesia P.T. and Luis Fafie & CIA SA, Honduras, but no payments under these agreements have been made or are due.

CANADIAN DAIRY COMMISSION*(Established by the Canadian Dairy Commission Act)***AUDITOR'S REPORT**

THE HONOURABLE EUGENE FRANCIS WHELAN, P.C., M.P.
MINISTER OF AGRICULTURE

I have examined the balance sheet of the Canadian Dairy Commission as at July 31, 1981 and the statements of retained earnings, operations, marketing operations supported by producers and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Commission as at July 31, 1981 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Commission, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers except that producer levies have been instituted without benefit of regulation and are, therefore, ultra vires the Canadian Dairy Commission.

NOTES TO FINANCIAL STATEMENTS
JULY 31, 1981

1. Objectives

The objectives of the Canadian Dairy Commission as established by the Canadian Dairy Commission Act 1966-67 are "to provide efficient producers of milk and cream with the opportunity of obtaining a fair return for their labour and investment and to provide consumers of dairy products with a continuous and adequate supply of dairy products of high quality".

2. Significant accounting policies

- Acquisition of furniture and equipment is charged to administrative expense in the year of purchase.
- Inventories are valued at the lower of cost and net realizable value.
- The estimated loss from commitments to purchase products at Canadian support prices is charged to marketing operations supported by producers.
- Trade accounts receivable in foreign currencies have been translated into Canadian dollars at rates prevailing at year end. Income is charged or credited with all exchange differences.

3. Inventories

The inventories are valued at the lower of cost and net realizable value and consist of:

	1981	1980
	\$	\$
Skim milk powder	41,090,000	19,530,000
Butter	49,213,000	56,560,000
Other related dairy products	13,137,000	15,323,000
	103,440,000	91,413,000

CANADIAN DAIRY COMMISSION—Continued

NOTES TO FINANCIAL STATEMENTS

JULY 31, 1981—Concluded

These inventories have been adjusted as follows:

Skim milk powder

Prices for surplus skim milk powder on the world market are lower than on the domestic market, resulting in the estimated net realizable value of the inventory as at July 31, 1981 being \$22,405,000 (\$20,957,000 in 1980) less than the Canadian support price.

Other related dairy products

The inventory includes evaporated milk and whole milk powder and the estimated net realizable value of the inventory as at July 31, 1981 is \$5,678,000 (\$4,689,000 in 1980) less than acquisition cost.

4. Capital assistance

To meet the export market requirements of 10% of Canadian requirements or a maximum of 4.4 million hectolitres of milk in consumer size as agreed by the Canadian Milk Supply Management Committee and agreed by Cabinet, the Canadian Dairy Commission has encouraged the construction of two processing plants for evaporated milk and one processing plant for instantized whole milk powder.

The Canadian Dairy Commission is purchasing these products from these plants at a price higher than the basic price in order to reimburse them over a three year period for capital investment costs.

These investments will amount to \$20.5 million and will be reduced to \$15.0 million with the payment of grants from provincial and federal governments and the repayment of residual value of buildings and equipment.

5. Loans from Government of Canada

Loans from Canada obtained to finance the purchase of dairy products bear interest rates varying from 10.875% to 15.625% per annum. There are no specific terms of repayment. Interest, calculated on a simple basis, is paid at the time of any principal repayment. Interest expense on loans from Canada was \$8,183,000 for the year and the accrued interest was \$1,367,000 at July 31, 1981.

6. Surplus/deficit policy

Producers are responsible for the cost of disposal of surplus products, subject to a commitment by the federal government to continue to accept responsibility for major year-end deficits in the export account resulting from unanticipated changes in the export market or Canada's currency exchange rate. Producers are fully responsible however to cover all losses on special export production under the export quota program.

Surplus in the export account up to \$10 million is not to be refunded to producers nor by any adjustment of levy rates in the following year. The treatment of any excess over \$10 million is to be determined by the Canadian Milk Supply Management Committee.

7. Financing

Agriculture Votes 40 and 40b which cover program expenditures for the Commission lapsed \$580,000 in 1981 (\$255,000 in 1980).

Funding to cover subsidies and marketing expenses is provided by a contribution from the Agricultural Stabilization Board through Agriculture Vote 20. The funds provided through this Vote amounted to \$292,885,000 (\$283,141,000 in 1980), of which \$278,291,000 related to subsidies (\$269,544,000 in 1980) and \$14,594,000 related to marketing expenses (\$13,597,000 in 1980).

8. Outstanding commitments

As at July 31, 1981, the Commission is committed to purchase skim milk powder and other related products produced prior to July 31, 1981 at the Canadian support prices in an amount of approximately \$20,264,000. The loss which may result from these purchases at higher than export prices has been estimated to be approximately \$7,565,000. The amount of this estimated loss has been charged to the marketing operations supported by producers and is included in accounts payable and accrued liabilities.

9. Contingent liability

At July 31, 1981, the Commission was a defendant in a lawsuit amounting to \$1,800,000. The lawsuit resulted from a dispute over the sale of butteroil in 1976.

10. Agents' commissions

The Commission has used the services of agents for sales in connection with marketing of dairy products on the world market. Commissions are charged to cost of sales on the Statement of Marketing Operations Supported by Producers.

Commissions paid or payable are as follows:

Date of Appointment	Name of Agent	Market Area	1981	1980
			\$	\$
November 1976	Coop Fédérée de Québec	Algeria	1,677,000	929,000

CANADIAN FILM DEVELOPMENT CORPORATION *(Established by the Canadian Film Development Corporation Act)*

AUDITOR'S REPORT

THE HONOURABLE FRANCIS FOX, P.C., M.P.
 MINISTER OF COMMUNICATIONS

I have examined the balance sheet of the Canadian Film Development Corporation as at March 31, 1982 and the statements of operations, equity of Canada and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Corporation as at March 31, 1982 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied, after giving retroactive effect to the change in the method of accounting for investments in feature films as explained in Note 3 to the financial statements, on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

KENNETH M. DYE
Auditor General of Canada

Ottawa, Ontario

Working capital at end of the year	4,516,685	1,151,898

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1982

1. Authority and activities

The Corporation was established in 1967 under the Canadian Film Development Corporation Act with the objective of fostering and promoting the development of a feature film industry in Canada. To achieve its objective, the Corporation can invest in Canadian feature film productions in return for a share in the proceeds from such productions, make interest bearing loans, grant awards for outstanding accomplishments in such productions, make grants to film makers and technicians resident in Canada, and advise and assist producers in the distribution and administrative functions of such productions.

The Corporation is a Crown corporation named in Schedule C of the Financial Administration Act.

2. Significant accounting policies

(a) Loans to producers

The Corporation can advance funds to producers in the form of reimbursable loans. These loans are shown on the balance sheet at their face value, less an allowance for losses.

(b) Investments in feature films

The Corporation can advance funds to producers in return for a share in the proceeds from such productions. These advances are expensed as assistance in productions.

All proceeds subsequently received, up to the amount of the related investment, are credited to operations as a reduction of investments made during the year. Any amount in excess would be accounted for as revenues.

(c) Fixed assets

Fixed assets are recorded at cost.

Depreciation on furniture and equipment is provided for at 20% per annum, using the diminishing balance method. Leasehold improvements are amortized under the straight-line method, based on the duration of the leases.

(d) Parliamentary appropriation

The parliamentary appropriation with respect to operations is credited to the Equity of Canada in the year to which it applies. The unused cumulative balance is presented on the balance sheet as a parliamentary appropriation receivable; the cumulative amount received in excess of disbursements is reflected as due to Canada.

(e) Revenues

Interest from loans to producers and management fees are recorded on the accrual basis.

(f) Employee termination benefits

On termination of employment, employees of the Corporation are entitled to certain benefits provided for under their conditions of employment. The cost of these benefits is expensed in the year in which they are earned.

(g) Pension plan

The employees of the Corporation participate in the superannuation plan administered by the Government of Canada. The employees and the Corporation contribute equally to the cost of the plan. This contribution represents the total liability of the Corporation. Contributions in respect of current service are expensed during the year in which services are rendered. With respect to admissible past service, contributions are expensed when paid; the terms of payment are set by the applicable purchase conditions, generally over the number of years of service remaining prior to retirement.

CANADIAN FILM DEVELOPMENT CORPORATION—*Concluded*

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 1982—*Concluded*

3. Change in accounting policy

During the year the Corporation modified retroactively its accounting policy pertaining to investments in feature films which are now expensed during the year the investment is made (Note 9).

Previously, investments in feature films were shown on the balance sheet at the lower of cost and the estimated net realizable value. Any write-down was taken into account in the statement of operations.

This change has had the retroactive effect of increasing the cost of operations for the year ended March 31, 1981 by \$24,293 and that of prior years by \$865,966.

4. Interim financing to film producers and distributors

A supplementary parliamentary appropriation of \$4,000,000 has been voted for the year 1982 for interim financing advanced by the Corporation to film producers and distributors. The Corporation intends to reimburse this amount in accordance with terms to be determined with the Treasury Board of Canada. Consequently, it has recorded this amount as a non-current debt to Canada.

As at March 31, 1982 the Corporation had drawn \$1,468,300 of this supplementary parliamentary appropriation. The balance available of \$2,531,700 is included in current assets as a parliamentary appropriation receivable.

5. Assistance programs

Program expenses include the following elements:

	1982	1981
	\$	\$
Write-off of loans to producers	1,766,751	1,515,990
Investments in feature films	2,374,889	3,347,893
	4,141,640	4,863,883
Proceeds from feature films	270,967	416,393
	<u>3,870,673</u>	<u>4,447,490</u>

6. Depreciation

Depreciation of fixed assets amounting to \$14,900 (\$13,555 in 1981) has been charged to the year's operations.

7. Commitments

As at March 31, 1982, the Corporation was committed under contractual agreements to advance funds totalling \$200 (\$129,135 as at March 31, 1981) as reimbursable loans and \$259,744 (\$344,732 as at March 31, 1981) as investments.

The Corporation has entered into long-term leases for the rental of office space and equipment used in its operations. The aggregate minimum annual rentals which will be paid during subsequent years are as follows:

	\$
1982-83	139,519
1983-84	128,750
1984-85	72,432
	<u>340,701</u>

8. Contingency

As at March 31, 1982, legal proceedings have been instituted against the Corporation for an amount of \$115,000 for not having signed a loan agreement. The case has not yet been tried. Management is of the opinion that the outcome of this lawsuit will have no significant negative impact on the Corporation's financial position; therefore no amount has been provided in the accounts.

9. Comparative figures

Some of the 1981 comparative figures have been restated to conform with the presentation adopted for 1982, including the adjustment with regard to the change in accounting policy described in Note 3.

CANADIAN LIVESTOCK FEED BOARD

(Established under the Livestock Feed Assistance Act)

AUDITOR'S REPORT

THE HONOURABLE EUGENE F. WHELAN, P.C., M.P.
MINISTER OF AGRICULTURE

AND

THE CANADIAN LIVESTOCK FEED BOARD

I have examined the balance sheet of the Canadian Livestock Feed Board as at March 31, 1982 and the statements of operations, equity of Canada and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Board as at March 31, 1982 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Board, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1982

1. Authority and objectives

The Canadian Livestock Feed Board was established in 1967 under the Livestock Feed Assistance Act and its objectives are to ensure:

- the availability of feed grain to meet the needs of livestock feeders;
- the availability of adequate storage space for feed grain in Eastern Canada; and
- reasonable stability in, and fair equalization of, feed grain prices in Eastern Canada, British Columbia, the Yukon Territory and the Northwest Territories.

The Board is a Crown corporation listed in Schedule C of the Financial Administration Act.

2. Significant accounting policies

(a) Program expenses

Feed freight assistance expenses are charged to operations in the year in which shipments are made. Costs incurred to assure local adequate supplies of feed grain are charged to operations in the year in which admissible costs are incurred by recipients.

Contributions for the expansion of existing elevators as well as for the construction of new elevators, net of recoverable amounts, are charged to operations in the year in which admissible costs are incurred by recipients. Write-offs of amounts previously recorded as recoverable are charged to operations in the year in which the account receivable is considered doubtful of collection.

(b) Capital expenditures

Purchases of equipment, office furniture and vehicles are expensed in the year of acquisition.

CANADIAN LIVESTOCK FEED BOARD—*Concluded*

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 1982—*Concluded*

(c) Parliamentary appropriations

Parliamentary appropriations are recorded in the statement of equity of Canada for the year to which they apply. Any unspent balance lapses if not used in the 30 days following the end of the fiscal year.

(d) Services provided without charge

An estimated amount for accounting and cheque issue services provided without charge by a government department is included in expenses with an offset to the equity of Canada.

(e) Employee termination benefits

On termination of employment, employees of the Board are entitled to certain benefits provided for under their collective agreements and their conditions of employment. The cost of these benefits is expensed in the year in which they are earned.

(f) Pension plan

Employees of the Board participate in the superannuation plan administered by the Government of Canada. The employees and the Board contribute equally to the cost of the plan. This contribution represents the total liability of the Board. Contributions in respect of current service are expensed during the year in which services are rendered. With respect to admissible past service, contributions are expensed when paid; the terms of payment are set by the applicable purchase conditions, generally over the number of years of service remaining prior to retirement.

3. Inland elevator construction assistance program

Under the inland elevator construction assistance program, the Board contributes toward the cost of new elevators that are started after April 1, 1977 and in respect of which proposals were to have been submitted by March 31, 1982. Under this program, the operators of the elevators are called upon to reimburse part of the contributions received, without interest, by instalments commencing in the fourth year of operation of the new facility and continuing until the tenth year, or when 40% of the total contribution has been repaid, whichever comes first. The amounts of the instalments are based on stored quantities.

As at March 31, 1982, the Board estimates that the amounts that will be so recovered will total \$1,046,796 (\$1,001,969 as at March 31, 1981). The first instalments will become due during the year ending March 31, 1985. It is not possible to determine the amounts that will be recovered during each applicable year because of the basis for the calculation of instalments.

4. Parliamentary appropriations

Funds allotted to the Board as at March 31 were as follows:

	1982	1981
	\$	\$
Agriculture		
Vote 45—Operating expenditures	1,112,000	1,025,000
Vote 50—Contributions	18,400,000	15,300,000
Vote 50c—Contributions		2,450,000
	19,512,000	18,775,000
Less:		
Parliamentary appropriations lapsed	2,013,332	759,185
Recoveries of prior year's contributions received during the year and paid to Canada	74,872	36,818
	17,423,796	17,978,997

CANADIAN NATIONAL RAILWAY SYSTEM

AUDITORS' REPORT

TO THE HONOURABLE THE MINISTER OF TRANSPORT

We have examined the consolidated balance sheet of the Canadian National Railway System as at December 31, 1981 and 1980 and the consolidated statements of income, retained earnings and changes in financial position for the two years then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these consolidated financial statements present fairly the financial position of the System as at December 31, 1981 and 1980 and the results of its operations and the changes in its financial position for the two years then ended in accordance with generally accepted accounting principles consistently applied.

Also, in our opinion, proper books of account have been kept and the transactions that have come to our notice have been within the powers of the System.

The consolidated financial statements of the System for the year ended December 31, 1979 were reported upon by another firm of chartered accountants.

CANADIAN NATIONAL RAILWAY SYSTEM—Continued

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1: Summary of Significant Accounting Policies

Introduction

All references in these Notes to the “Company” refer to Canadian National Railway Company which is wholly-owned by the Government of Canada and, unless the context otherwise requires, its consolidated subsidiaries, and all references to the “System” mean Canadian National Railway Company and its consolidated subsidiaries together with the lines of railway, marine, telecommunications and other property entrusted by the Government of Canada to the Company for management and operation.

(a) Principles of Consolidation

The consolidated financial statements include the accounts of all subsidiaries and the Company's share of the assets, liabilities, revenues and expenses of CNCP Telecommunications which is accounted for by the proportionate consolidation method; CN's share in the activities of CNCP Telecommunications represents slightly less than two-thirds of the activities of CN Communications. Also, consistent with the legislation governing the System, the accounts of the Canadian Government Railways entrusted to the Company by the Government of Canada are included in the consolidated financial statements.

Investments in jointly-operated companies in which the Company has less than a majority interest are accounted for by the equity method where appropriate.

(b) Reporting by Division

In presenting the results by division, charges for services performed by one division for another, which are made generally at market value, have not been eliminated. Consolidated net income is not affected by this practice.

(c) Material and Supplies

The inventory is valued at laid down cost based on weighted average cost for ties and rails, latest invoice price for fuel and new materials in stores, and at estimated utility or sales value for usable second hand, obsolete and scrap materials.

(d) Insurance Fund

The System is self-insured for various risks, maintaining a separately invested fund. The provision for insurance represents the estimated amount of self-insured losses to be adjusted.

(e) Properties

Properties are carried at cost, which, in the case of properties brought into the System on January 1, 1923, is the aggregate of the values then appearing in the books of the railways now comprised in the System, less a write-down of \$262.8 million at the time of capital revision in 1937.

Accounting for railway and telecommunications properties is carried out in accordance with rules issued by the Canadian Transport Commission and the Canadian Radio-television and Telecommunications Commission respectively (Canadian properties), and the Interstate Commerce Commission (United States properties), except, in the case of United States properties, for the application of depreciation accounting to ties, rails, other track material and ballast. Major additions and replacements generally are capitalized with the exception of labour costs relating to track material replacement and interest costs which are charged to expense.

The cost of depreciable assets retired or disposed of, less salvage, is charged to accumulated depreciation, in accordance with the group plan of depreciation except for CN Trucking and CN Hotels and Tower divisions which follow the unit plan whereby gains or losses are taken into income as they occur.

(f) Depreciation

Depreciation is calculated at rates sufficient to write off properties over their estimated useful lives, generally on a straight-line basis. For railway and telecommunications properties, certain rates are authorized by the Canadian Transport Commission, the Canadian Radio-television and Telecommunications Commission and the Interstate Commerce Commission. The rates for significant classes of assets are as follows:

	Annual Rate
Ties	3.25%
Rails	1.15%
Other track material	1.90%
Ballast	4.00%
Road locomotives	4.60%
Freight cars	2.97%
Commercial communications systems	5.03%
Hotel properties are depreciated at annual rates of 2% to 10% and vessels at 5%.	

(g) Transportation Revenues

Transportation revenues are generally recognized on completion of movements, with interline movements being treated as complete when the shipment is turned over to the connecting carrier. Costs associated with uncompleted movements are generally deferred.

(h) Pensions

Current service costs are charged to operations, and funded, as they accrue.

Prior service costs are charged to operations and funded by annual payments covering principal and interest over varying periods to 2006 (2015 in the case of U.S. Plans).

(i) Foreign Exchange

Assets and liabilities in foreign currencies have been translated into Canadian dollars at current rates except for investments, properties and long-term debt for which historical rates have been used. Income is charged or credited with all exchange differences. Income and expenses of foreign subsidiaries have been translated at average rates during the year except for depreciation provisions which are on the same basis as the related properties.

Long-Term Debt			1,701,531	1,441,171

(a) Guaranteed by the Government of Canada.

(b) These bonds are subject to repurchase arrangements.

(c) Weighted average interest rate on Government of Canada loan and advances outstanding at December 31, 1981 and 1980, was approximately 8.2% per annum.

(d) The Government of Canada consolidated loan bears interest at 8-¾% per annum and is payable in equal semi-annual payments of \$13.63 million covering principal and interest to June 30, 1998.

(e) Secured by rolling stock and payable by semi-annual or quarterly instalments over various periods to 1995 at interest rates ranging from 8% to 17-¾%. As at December 31, 1981, the principal amounts are payable as U.S. \$217.7 million (December 31, 1980—U.S. \$224.4 million).

(f) Principal of Swiss Francs 100.0 million repayable on April 9, 1985, or earlier at the Company's option.

(g) Repayable by semi-annual instalments of \$218,503, including principal and interest, to August 1, 1988.

(h) Principal repayments, including sinking fund repayments and repurchase arrangements, on debt outstanding at December 31, 1981, are as follows:

	(in thousands of dollars)
Year ending December 31:	
1982	40,898
1983	40,592
1984	49,996
1985	180,122
1986	124,438
1987—1991	544,070
1992—1996	347,596
1997—2001	251,225
2002—2006	145,403

(i) If the year-end exchange rate had been used in translating long-term debt payable in foreign currencies, the long-term debt would have been increased by \$75.2 million (1980—\$80.8 million).

CANADIAN NATIONAL RAILWAY SYSTEM—Continued

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—Continued

Note 5: Shareholder's Equity

(a) Capital Stock

During the year, 13,228 shares (1980—53,352) of the no par value common stock of the Company were issued to the Government of Canada at a value of \$6,614,000 (1980—\$26,676,000) as part of an arrangement whereby the Government shall purchase shares in the capital stock of the Company having a value in aggregate of up to \$143,100,000 as a contribution to the cost of CN Marine's capital projects. The aggregate value of shares issued to date under this arrangement is \$33,290,000.

(b) Retained Earnings

Under its governing legislation, the Company is required to pay to the Receiver General for Canada a dividend equal to 20% of net income for the year or such greater percentage as the Governor in Council may direct. Accordingly, a dividend representing 20% of the net income for the year, has been accrued and is included in Other current liabilities.

Note 6: Major Commitments

(a) Leases

(i) The Company's lease commitments as at December 31, 1981, of which the significant portion is in respect of railway rolling stock, are as follows:

	Non-Cancellable Leases	
	Capital Leases	Operat- ing Leases
	(in thousands of dollars)	
Year ending December 31:		
1982	43,065	46,936
1983	42,461	45,074
1984	42,418	37,423
1985	43,301	36,082
1986	38,834	35,278
1987—1991	116,510	119,532
1992—1996	9,382	44,151
1997—2001	3,213	11,823
thereafter	853	
Total minimum lease payments	340,037	376,299
Less amount representing imputed interest	109,160	
Present value of net minimum lease pay- ments under capital leases	230,877	

Many of the leases provide renewal options and an option to purchase the property at fair market value at the end of the lease term.

(ii) Rental expenses under all lease arrangements were:

	Year ended December 31		
	1981	1980	1979
	(in thousands of dollars)		
Total expenses	178,914	146,685	149,472
Expenses under capital leases	43,276	46,852	43,510

Leases entered into in 1981 which are of a capital nature are insignificant.

(iii) Net reduction in income and increases in assets and liabilities in the consolidated financial statements, which would have arisen if leases satisfying the criteria of capital leases had been capitalized, are as follows:

	Year ended December 31		
	1981	1980	1979
	(in thousands of dollars)		
Net reduction in income	540	761	5,219
Increase in Assets			
Properties			
Leased properties under capital leases	301,397	303,937	301,219
Less accumulated amortization	131,487	109,535	86,632
	169,910	194,402	214,587
Increases in Liabilities			
Current Liabilities			
Present value of obligations under capital leases	22,188	23,105	20,047
Non-Current Liabilities			
Present value of obligations under capital leases	230,877	268,534	271,044
Less current portion	22,188	23,105	20,047
	208,689	245,429	250,997

(b) Other

The Company has a commitment at December 31, 1981, to purchase rail from a major Canadian steel producer over the period of the next thirty-one months at an aggregate cost of \$115.5 million. In addition, there are commitments for capital expenditures of \$102.1 million for railway ties and \$36.7 million for rolling stock.

Note 7: Subsidies

Revenues include the following subsidies:

	Year ended December 31		
	1981	1980	1979
	(in thousands of dollars)		
Government of Canada			
(a) Payments under the Railway Act paid under authority of that Act and the related Appropriation Act in respect of certain uneconomic operations, services and prescribed rates which railways are required by the Railway Act to main- tain	162,018	97,592	135,216
(b) Maritime Freight Rates Act and Atlan- tic Region Freight Assistance Act sub- sidies	17,341	17,328	18,574
(c) Other	5,718	5,532	3,100
Other	2,623		
	187,700	120,452	156,890

Note 8: Pensions

The Company has retirement benefit plans covering substantially all its employees under which they are entitled to benefits at retirement age, based on compensation and length of service. Annual pension costs are as follows:

	Year ended December 31		
	1981	1980	1979
	(in thousands of dollars)		
	182,570	196,712	200,749

CANADIAN NATIONAL RAILWAY SYSTEM—Continued

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—Continued

The total amount of past service costs remaining to be charged to operations at December 31, 1981, based on the latest actuarial valuation as at December 31, 1980 (previous years based on December 31, 1977 actuarial valuation), adjusted for subsequent changes, aggregate:

	At December 31		
	1981	1980	1979
	(in thousands of dollars)		
Canadian plans	1,445,213	1,117,110	1,160,994
U.S. plans	28,669	23,566	18,411
	1,473,882	1,140,676	1,179,405

This amount is being charged to operations in annual amounts, including principal and interest, as follows:

	Annual Cost (in thousands of dollars)
1982	111,814
1983	117,961
1984	121,831
1985	131,434
1986	138,693
1987	123,620
1988	130,477
1989	137,722
1990	145,298
1991	150,701
1992	137,039
1993	117,099
1994	117,836
1995	124,469
1996	135,352
1997	95,487
1998	100,678
1999	100,164
2000	111,969
2001	178,070
2002	59,203
2003	62,405
2004	65,781
2005	69,353
2006	72,995
2007-2008	802
2009	1,097
2010-2015	1,185

In 1981, funding exceeded the charge to operations by \$4.3 million. In 1980 and 1979, charges to operations exceeded funding by \$9.3 million and \$13.1 million respectively. The cumulative excess of charges to operations over funding requirements, amounting to \$60.1 million (1980—\$64.4 million), is included in Other Liabilities and Deferred Credits.

The actuarially-computed value of vested benefits at December 31, 1980, the date of the latest actuarial valuation, exceeded the total of the pension funds at that date by \$165.1 million.

Note 9: Miscellaneous Loss

Miscellaneous loss consists of the following:

	Year ended December 31		
	1981	1980	1979
	(in thousands of dollars)		
Miscellaneous revenues	16,811	14,399	45,088
Interest			
Total interest on long-term debt	158,192	125,284	111,034
Interest on short-term borrowings	14,946	1,017	118
Interest on investments	(2,307)	(15,376)	(14,793)
Total interest (net)	170,831	110,925	96,359
Interest assigned to divisions	(168,398)	(109,325)	(92,111)
	2,433	1,600	4,248
Other expense (net) ⁽¹⁾	76,159	66,105	66,539
Total expenses	78,592	67,705	70,787
Total miscellaneous loss	61,781	53,306	25,699

⁽¹⁾Other expense (net) consists of general corporate income and expenses.

Note 10: Income Taxes

At December 31, 1981, there is a loss carry-forward for tax purposes of \$110 million which have not been recognized in the financial statements. The tax benefits pertaining to this loss carry-forward are available until December 31, 1982.

In addition, the Company has timing differences of approximately \$730 million which are available to reduce taxable income of future years. Of that amount, \$555 million is due to the excess of the undepreciated capital cost for income tax purposes over the net book value of depreciable assets. Investment tax credits of about \$19 million, \$28 million and \$33 million are also available to reduce future income taxes otherwise payable until December 31, 1984, 1985 and 1986 respectively.

The Company's effective tax rate in 1981 was 3.1% lower than the normal 50.8% due principally to the exclusion from taxable income of the non-taxable portion of capital gains.

Note 11: Segmented Information

(a) Geographic Areas

Virtually all of the System's operations and assets are within Canada with the exception of Grand Trunk Corporation which operates in the United States.

(b) International Traffic

In addition to the revenue generated by Grand Trunk Corporation, the System derives revenue from traffic originating or terminating on railroads in the United States. In 1981, such revenues approximated \$607 million (1980—\$579 million, 1979—\$524 million).

Note 12: Other Matters

- (a) The Company carries on ordinary business transactions with various entities controlled by the Government of Canada on the same terms and conditions as current transactions with unrelated parties.

In addition, the Company provides, under contractual arrangements, rail transportation and maintenance and marine services to the Government of Canada and to entities controlled by the latter. The revenue derived from such services rendered in 1981 aggregated \$483.7 million (1980—\$409.7 million, 1979—\$315.1 million) and the amounts receivable therefrom at December 31, 1981, amount to \$11.5 million (\$0.2 million at December 31, 1980).

- (b) Commencing in 1977, the Government of Canada has agreed to pay to the Company, by way of capital grants not exceeding \$292.8 million, certain amounts with respect to expenditures incurred in carrying out rehabilitation programs for branch lines in Western Canada. Total payments received up to December 31, 1981, amounted to \$187.3 million of which \$51.1 million was received in 1981 (1980—\$42.6 million).

- (c) Commencing in 1981, the Government of Canada has agreed to pay during its 1981-82 fiscal period an amount not exceeding \$14 million to the Company to conduct a program of testing and evaluation of railway operations in Newfoundland and to reimburse CN for certain wage and wage-related costs incurred by CN at the request of the Government during the testing and evaluation period. Total billings in 1981 amounted to \$8.6 million and the amounts receivable therefrom at December 31, 1981 amount to \$0.9 million.

Note 13: Reclassification of Comparative Figures

During 1981, changes were made to improve the classification of certain items and for comparative purposes the 1980 and 1979 figures have been reclassified.

Note 14: Subsequent Events

- (a) Certain recent developments raise the possibility of a decline in the value of a portfolio investment which is stated at a cost of \$61.6 million. The amount of this contingent loss, if any, cannot be estimated at this time and no provision therefor has been made in the accounts. If such a loss were to materialize, it would be accounted for as an extraordinary charge against earnings.

CANADIAN NATIONAL RAILWAY SYSTEM—Concluded**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—Concluded**

- (b) On February 17, 1982, the Company entered into a commitment with a Swiss bank to borrow SFr. 100 million for a term of 5 years at an interest rate of 7¾%. It is anticipated that the proceeds from this loan will be available on March 9, 1982, such proceeds will be used for general corporate purposes.
 - (c) On February 25, 1982, the Company entered into an Underwriting Agreement relating to the issue and sale of U.S. \$150 million principal amount of 16¼% Sinking Fund Debentures Due 2007 to be sold in the U.S. public market, with closing scheduled for March 10, 1982. The proceeds from the debentures will be used for general corporate purposes.

CANADIAN PATENTS AND DEVELOPMENT LIMITED *(Incorporated under the Canada Business Corporation Act)*

AUDITOR'S REPORT

THE HONOURABLE HERBERT ESER GRAY, P.C., M.P.
 MINISTER OF INDUSTRY, TRADE AND COMMERCE

I have examined the balance sheet of Canadian Patents and Development Limited as at March 31, 1982 and the statements of operations and surplus, and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Corporation as at March 31, 1982 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

KENNETH M. DYE

CANADIAN PATENTS AND DEVELOPMENT LIMITED—*Concluded*NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1982

1. Objectives and operations

Canadian Patents and Development Limited was established to make available to the public through licensing arrangements with industry, the industrial and intellectual property which results from publicly-funded research and development.

The Corporation receives and processes industrial and intellectual property under arrangements with federal government departments, Crown corporations and agencies, universities, and other publicly-financed institutions. Suitable protection is sought in Canada and other countries for such property in instances where there is a promise of commercial use. In respect of money received from the exploitation of such property, the Corporation pays awards to public servants under the Public Servants Inventions Act and makes payments to other originators of such property in accordance with the agreements entered into with them.

2. Significant accounting policies

Investment in bonds

Bonds are carried at cost since it is management's intention to hold them to maturity. Interest income is recorded on an accrual basis.

Industrial and intellectual property rights

Industrial and intellectual property rights are recorded in the balance sheet at a nominal value of \$1. Expenditures relating to the acquisition, protection, licensing and maintenance of industrial and intellectual property rights are charged to operations as incurred.

Experimental equipment

Experimental equipment on loan to licensees is recorded at a nominal value of \$1. The cost of this equipment is charged to operations in the year of acquisition.

Royalties

Royalties, payments to third parties and awards to individuals are recorded on an accrual basis.

Office furnishings and equipment

The costs of office furnishings and equipment are charged to operations in the year of acquisition.

Parliamentary appropriations

Parliamentary appropriations are recorded when received.

3. Industrial and intellectual property rights

From 1948 to date, approximately \$1,750,000 (1981—\$1,731,000) has been expended on the current inventory of unexpired patent and other rights in respect of industrial and intellectual property.

4. Experimental equipment on loan to licensees

The cost of experimental equipment purchased under active development contracts and held by a licensee amounts to \$123,500 (1981—\$123,500).

5. Industrial and intellectual property agents' fees and related expenses, for obtaining and maintaining proprietary protection.

	1982	1981
	\$	\$
Expenses of obtaining and maintaining proprietary protection	279,785	210,927

CANADIAN SALTFISH CORPORATION

(Established by the Saltfish Act)

AUDITOR'S REPORT

THE HONOURABLE ROMÉO LEBLANC, P.C., M.P.
MINISTER OF FISHERIES AND OCEANS

I have examined the balance sheet of Canadian Saltfish Corporation as at March 31, 1982 and the statements of operations, retained earnings and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Corporation as at March 31, 1982 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1982

1. Objectives and operations of the Corporation

The Canadian Saltfish Corporation was established by the Saltfish Act in March 1970, to improve the earnings of the primary producer of cured saltfish. The Corporation is an agency Crown Corporation of Canada and is required to conduct its operations on a self-sustaining basis. Total loans outstanding from Canada and from banks may not exceed \$30 million.

The Corporation has the exclusive right to trade in and market cured fish and its by-products in the Province of Newfoundland and the North Shore of Quebec and is required to buy all cured fish of an acceptable standard of quality offered for sale therein. Fish is purchased from fishermen, processed through agents of the Corporation and is subsequently marketed by the Corporation.

The Corporation markets fresh frozen products under a contractual arrangement for a group of companies on a brokerage basis. The Corporation does not earn any revenue for this service but in addition to the direct cost of providing the service, which has been reimbursed from the group, a further \$96,000 of general overhead expenses of the Corporation has been recovered from the operation. The total market value from the brokerage is \$11,496,671 and is in addition to the sales of \$45,886,339 as shown on the statement of operations.

The Corporation also sold various fishery products for other fish companies and the Government of Newfoundland on a commission basis and has earned gross commission revenue of \$294,140 on these sales, which has been included in the reported sales for the year.

CANADIAN SALTFISH COPORATION—Continued

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 1982—Continued

2. Significant accounting policies

Depreciation

Depreciation is calculated on a straight-line basis and is based on the estimated useful life of the assets as follows:

Buildings	20 years
Equipment	10 years
Furniture and fixtures	5 years
Vehicles	3 years
Sundry production equipment	3, 5 and 10 years

Foreign currency translation

Transactions in foreign currency during the year are translated into Canadian dollars at the rate in effect at the time of the transaction. At year-end, accounts receivable or payable in foreign currency are translated at the year-end exchange rate where such translation results in a loss; should a gain result, no year-end translation is made.

Provision for additional contributions to fishermen and producers

The Corporation purchases saltfish at initial prices established by the Board of Directors and obtains processing services at negotiated rates. Additional contributions, if any, to fishermen and producers are determined by the Board based on the results of operations. These contributions are made in respect of products purchased and processed during the year and therefore are charged to the operations of the year in which they are approved for distribution.

During 1981-82 the Corporation's Board of Directors approved the provision of an interim additional payment to fishermen and producers of \$2,000,000. Since this was considered by the Board to be part of the cost of operations, it has been included in product costs for the year ended March 31, 1982. In the previous year an additional payment was provided for in the amount of \$2,918,150 based on the result of operations and is therefore shown as a separate item.

Income taxes

Under the provisions of the Income Tax Act, the Corporation is exempt from federal income tax.

3. Inventories

Inventories are made up of the following categories:

	1982	1981
	\$	\$
Fish, at lower of cost and net realizable value	2,797,025	4,198,641
Packages and supplies, at cost	189,371	213,599
Salt, at cost	473,621	301,732
	<u>3,460,017</u>	<u>4,713,972</u>

4. Fixed assets

1982				
	Cost or appraised value	Accumulated depreciation	Net book value	Depreciation expense
	\$	\$	\$	\$
Land	77,574		77,574	
Buildings	898,055	139,097	758,958	44,903
Equipment	1,624,489	1,023,184	601,305	175,000
Furniture and fixtures	82,171	64,874	17,297	5,812
Fish Plant-Land	40,000		40,000	
	<u>2,722,289</u>	<u>1,227,155</u>	<u>1,495,134</u>	<u>225,715</u>

1981				
	Cost or appraised value	Accumulated depreciation	Net book value	Depreciation expense
	\$	\$	\$	\$
Land	77,574		77,574	
Building	896,840	94,096	802,744	44,842
Equipment	1,563,929	871,808	692,121	169,367
Furniture and fixtures	73,126	59,062	14,064	3,621
Fish plant	500,000		500,000	86,562
	<u>3,111,469</u>	<u>1,024,966</u>	<u>2,086,503</u>	<u>304,392</u>

The plant and land which was purchased in 1979-80 has been used primarily for the storing, packaging and shipping of saltbulk. Despite the fact that the Corporation has been seeking alternate uses for the plant, including the sale or lease of the property, it has not been successful in obtaining any offers.

Since most of the property has been unoccupied for several years, rapid deterioration has taken place. The Corporation did not consider it economical to maintain the premises in view of the failure of the fishing industry to reach a level of saltfish production sufficient to require this additional drying capacity.

Consequently the Corporation's Board of Directors decided to write down the value of this property to the appraised value of the land. An independent appraisal was made on April 22, 1981, which valued the land at \$40,000 and the property was written down to that amount. This results in an extraordinary item of \$460,000 (1981—\$279,059) being charged in the Statement of Operations for the year ended March 31, 1982.

5. Loans from Canada

The Corporation is dependent on the Government of Canada for working capital and long-term loans. Loans used to finance current assets are interest bearing and are repayable within one year.

Loans obtained to finance capital expenditures also bear interest and are subject to repayment in ten equal instalments. Outstanding long-term loans are as follows:

CANADIAN SALTFISH CORPORATION—Concluded

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 1982—Concluded

Due date	Interest rate %	Net balance March 31, 1982	Annual principal payments
		\$	\$
March 25, 1984	7%	54,000	54,000
June 19, 1984	7%	147,000	73,500
September 22, 1985	7%	67,500	22,500
March 31, 1986	8%	37,500	12,500
March 27, 1989	10%	60,000	10,000
September 28, 1989	10	560,000	80,000
September 30, 1990	12%	480,000	60,000
		<u>1,406,000</u>	<u>312,500</u>

Annual long-term loan repayment requirements over the next five fiscal years are \$312,500 in 1983 and 1984, \$258,500 in 1985 \$185,000 in 1986 and \$150,000 in 1987.

6. Appropriations of retained earnings

The Board of Directors established that the following amounts be appropriated from retained earnings:

	March 31, 1982	March 31, 1981
	\$	\$
General contingencies	1,000,000	1,000,000
Processing and quality improvements	200,000	200,000
Research and development	100,000	100,000
Reinvestment in fixed assets	1,004,000	1,004,000
	<u>2,304,000</u>	<u>2,304,000</u>

7. Other expenses

Other expenses include the following:

	1982	1981
	\$	\$
Interest expense —Long-term	173,020	169,728
—Current	200,312	551,792
Gain on foreign exchange	(117,145)	(166,858)
	<u>256,187</u>	<u>554,662</u>

THE CANADIAN WHEAT BOARD

AUDITORS' REPORT

TO THE CANADIAN WHEAT BOARD

We have examined the financial statements and explanatory comments thereon of The Canadian Wheat Board, which comprise Part VI of The Annual Report of The Board for the crop year ended July 31, 1981. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements together with the explanatory comments thereon present fairly the financial position of The

Board as at July 31, 1981 and the results of its operations for the periods shown, in accordance with generally accepted accounting principles consistently applied.

DELOITTE, HASKINS & SELLS

CAPE BRETON DEVELOPMENT CORPORATION*(Established by the Cape Breton Development Corporation Act)***AUDITORS' REPORT**

TO THE HONOURABLE
THE MINISTER OF REGIONAL ECONOMIC EXPANSION

We have examined the balance sheet and the statement of equity of the Coal Division and of the Industrial Development Division of the Cape Breton Development Corporation as at March 31, 1982, and the related income and operating statements and the statements of changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

The financial statements of the Industrial Development Division and of its subsidiaries have been presented on a consolidated basis. With respect to those subsidiaries of which we are not auditors, we have carried out such inquiries and examinations as we considered necessary in order to accept the reports of other auditors for purposes of consolidation. As required by the provision of the Cape Breton Development Corporation Act, the financial statements of the Coal Division and the Industrial Development Division are being presented separately.

In our opinion, these financial statements present fairly the financial position of the Coal Division and of the Industrial Development Division of the Cape Breton Development Corporation as at March 31, 1982, and the results of their operations and the changes in their financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Also, in our opinion, proper books of account have been kept and the transactions that have come to our notice have been within the power of the Corporation.

NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 1982

1. Significant Accounting Policies

(a) Financing

The Corporation is financed by way of votes of the Parliament of Canada. These votes are for the purpose of funding mining losses and to finance capital projects.

(b) Depreciation

The Corporation has provided depreciation on its fixed assets based on their estimated useful lives. The Treasury Board of Canada has indicated that depreciation should not be provided in determining mining losses for Parliamentary appropriation. Accordingly, the depreciation provision has been eliminated in arriving at this amount.

2. Accounts Receivable

	1982	1981
	\$	\$
Trade	10,663,765	19,540,148

Coal Preparation Plant	38,371,882	37,423,628
Devo Railway	34,036,097	13,690,076
Other fixed assets	12,292,779	6,619,208
	<u>272,187,997</u>	<u>200,339,072</u>
Accumulated depreciation (Note 1b)	<u>92,452,510</u>	<u>73,941,510</u>
	<u>179,735,487</u>	<u>126,397,562</u>

4. Commitments

Commitments on capital projects for ongoing mining operations include the following:

- Approximately \$18,000,000 for underground mining equipment
- Approximately \$4,000,000 for rolling stock
- Approximately \$8,000,000 for other facilities

The cost of completing Phase II of the Donkin-Morien project consisting of two tunnels at present under construction is forecast at \$55,000,000 with completion in 1985.

The Corporation will evaluate the viability of the project before commencing Phase III taking into consideration the quality of coal available and the problems of obtaining adequate financing for the substantial costs involved in the underground development of the mine.

5. Contingent Liabilities and Claims

On February 13, 1981, an explosion occurred on board a vessel carrying a shipment of coal supplied by the Corporation. As at March 31, 1982, there was neither an estimate of damage nor an indication of responsibility available.

6. Long-Term Sales Agreement

The Corporation has signed an agreement with the Nova Scotia Power Corporation which calls for the delivery of a substantial portion of the Corporation's coal production to the Power Corporation. The agreement expires in the year 2011.

7. Pensions

An actuarial valuation of the Cape Breton Development Corporation Non-Contributory Pension Plan as at December 31, 1979 updated to December 31, 1981 indicated an unfunded actuarial liability of \$36,579,418 and in addition an experience deficiency of \$8,046,483. No provision for these liabilities has been included in the accounts as at March 31, 1982. The former amount is required to be liquidated by 1993 and the latter amount by 1984. The minimum annual amount required, including pension payments, will be as follows:

	\$
1982	9,682,072
1983	8,092,804
1984	6,931,484
1985-92	5,089,743
1993	649,954

Current pension payments approximate \$7,800,000 and the balance will be funded by the Corporation prior to December 31 in each year.

Changes made in the benefits payable from the plan since the last valuation may have the effect of increasing the unfunded liability. It is anticipated that a new actuarial valuation will be prepared as of December 31, 1982.

8. Remuneration of Directors and Senior Officers

The Corporation had five directors, whose aggregate remuneration for the year was \$7,100 (1981—\$8,833). The Corporation had nine officers whose aggregate remuneration for the year as officers was \$598,996 (1981—\$509,156). The president is the only officer who is also a director.

CAPE BRETON DEVELOPMENT CORPORATION—*Concluded*

INDUSTRIAL DEVELOPMENT DIVISION

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 1982

1. General Policy

The objects of the Industrial Development Division are to promote and assist the financing and development of industry to provide employment on the Island of Cape Breton. In accomplishing these aims, the Corporation makes loans and investments, the amounts of which are often in excess of those which would be available through normal commercial sources. The Corporation also makes grants to assist enterprises which are considered likely to make a substantial improvement of the development of Cape Breton Island.

The Industrial Development Division is financed by way of Vote of the Parliament of Canada. Parliament voted \$8,635,000 for this purpose during the fiscal year ended March 31, 1982.

2. Significant Accounting Policies

(a) Basis of Consolidation

The financial statements of the Industrial Development Division include the results of the Division and all its subsidiaries as explained below. The subsidiaries are as follows:

	Corporation Interest	Company Year End
Darr (Cape Breton) Limited (Real Estate)	100%	December 31
Cape Breton Marine Farming Limited (Fish and Oyster Farming)	100%	March 31
Whale Cove Summer Village Limited (Tourist Accommoda- tions)	62.5%	March 31
Dundee Estates Limited (Tourist Accommodations)	100%	March 31
Cape Breton Woolen Mills Lim- ited (Carding and Spinning)	53.3%	March 31

As the financial statements of Whale Cove Summer Village Limited and Cape Breton Woolen Mills Limited showed deficit equity positions as at March 31, 1982, and the minority interest in losses to date have been absorbed against the total of the minority invested capital, the losses of these companies for the respective years are included in the consolidated net loss. As a consequence, no minority interest is shown in the balance sheet for these subsidiaries.

(b) Fixed Assets

Fixed assets are recorded at cost. The cost of related depreciation of items retired or disposed of are removed from the books and any gains or losses are included in the consolidated operating statement. Depreciation is provided on the straight-line method using rates based on the estimated useful lives of the assets generally as follows:

Buildings	Up to 20 years
Equipment	4 to 10 years
Vehicles	3 to 4 years

(c) Accounting Policy—Certain Subsidiaries

The statements of Dundee Estates Limited and of Cape Breton Marine Farming Limited both include notes indicating that their statements have been prepared on the assumption that the companies can continue to operate as going concerns, which assumption depends on the continued financial support of Cape Breton Development Corporation.

3. Fixed Assets

	1982 \$	1981 \$
Rental facilities	5,982,329	5,441,279
Tourist facilities	8,168,018	6,345,933
Primary industry facilities	2,308,474	2,651,136
Secondary industry facilities	4,388,097	3,211,312
	20,846,918	17,649,660
Less: accumulated depreciation	6,972,623	6,126,962
	13,874,295	11,522,698

The four categories of fixed assets shown above each include land, buildings and equipment.

4. Commitments

As at March 31, 1982, the Industrial Development Division of the Corporation was committed to expenditures and loans totalling approximately \$1,600,000 over and above the amounts included in the financial statements at that date.

5. Guarantees

During the 1976 year, the Corporation guaranteed the repayment by Sydney Steel Corporation of that company's \$70,000,000—11¼% Series D Debentures and the repayment of interest thereon. These funds were borrowed by Sydney Steel Corporation for the purpose of financing its plant rehabilitation program. The balance of the outstanding debentures has since been reduced to \$57,260,000.

The Corporation in 1971 guaranteed the repayment of bank advances to Stora Kopparbergs Bergslags Aktiebolag. This guarantee originally amounted to \$30,000,000. The balance of advances has since been reduced to \$15,000,000 of which \$5,000,000 is in U.S. dollars.

The Corporation made the guarantees for and on behalf of Her Majesty the Queen in right of Canada; therefore, any amounts required to be paid shall be paid out of the Consolidated Revenue Fund of Canada and not out of funds of Cape Breton Development Corporation.

6. Remuneration of Directors and Senior Officers

The Corporation had five directors, whose aggregate remuneration for the year was \$7,100 (1981—\$8,833). The Corporation had nine officers whose aggregate remuneration for the year as officers was \$598,996 (1981—\$509,156). The president is the only officer who is also a director.

CROWN ASSETS DISPOSAL CORPORATION*(Established by the Surplus Crown Assets Act)***AUDITOR'S REPORT**

THE HONOURABLE JEAN-JACQUES BLAIS, P.C., M.P.
MINISTER OF SUPPLY AND SERVICES

I have examined the balance sheet of Crown Assets Disposal Corporation as at March 31, 1982 and the statements of operations and retained earnings and changes in financial position for the year then ended for the General Account, and the balance sheet as at March 31, 1982 and the statement of transactions for the year then ended for the Agency Account. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Corporation as at March 31, 1982 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and, except for the failure to remit funds to Canada within the time periods prescribed by the Surplus Crown Assets Act as referred to in Note 2 to the financial statements, the transactions that have come under my notice have been within its statutory powers.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1982

1. Objectives and operations

The Surplus Crown Assets Act, administered by the Minister of Supply and Services, established the Corporation to act as an agent of the Crown in the sale of surplus assets. The Act requires that each department, and other bodies, report to the Minister any property in its custody or under its control or administration that is determined as surplus to its requirements. The Act also allows agents of Her Majesty and boards, commissions, corporations and other bodies that are not agents of Her Majesty, but, that are ultimately accountable to Parliament for the conduct of their affairs, the option to use the services of the Corporation. The Corporation has the authority to sell or otherwise deal with such surplus property and to transfer net proceeds received from sales to the Consolidated Revenue Fund or to the agents of Her Majesty, boards, commissions, corporations and other bodies that are not agents of Her Majesty. Land and buildings (Order-in-Council P.C. 1974-2756 December 12, 1974) and certain commodities are exempted from sale by the Corporation.

The Agency Account represents amounts on hand and/or uncollected on sales of surplus assets which have not yet been remitted to Canada and others.

The primary objective of the Corporation is to obtain on behalf of the Crown the highest return from the sale of surplus assets.

2. Statutory financial limitations

The Surplus Crown Assets Act, Section 11(2) requires that:

All monies deposited in the Corporation's bank accounts except

- (a) monies paid or advanced to the Corporation by Her Majesty on account of working capital, and

- (b) such percentage of the net proceeds of sales and of all other monies received by the Corporation during any period as the Governor in Council may from time to time fix to be retained to meet administrative costs or other expenses of the Corporation, and

- (c) the net proceeds of sales of property reported by other than a department of the Government of Canada less any amount retained pursuant to paragraph (b) with respect to each such sale,

shall be transferred or deposited to the credit of the Receiver General or remitted to each board, commission, corporation or other body on a day not later than the last day of the month following receipt thereof by the Corporation.

On a number of occasions during the year, the monies relating to the Agency Account were not remitted on time as required by Section 11(2) of the Surplus Crown Assets Act. However, the Corporation is continuing to improve in its efforts to remit monies on time as required by the Act.

Order-in-Council P.C. 1970-534, March 24, 1970 requires that the Corporation pay to Canada, at intervals of not longer than six months, the excess of the Corporation's retained earnings over \$300,000.

3. Significant accounting policies

- (a) Recognition of revenue

Sales and related commissions are recorded in the Agency Account when the Corporation accepts an offer to purchase, with the exception of some sales contracts where the value of

CROWN ASSETS DISPOSAL CORPORATION—Concluded**NOTES TO FINANCIAL STATEMENTS**MARCH 31, 1982—*Concluded*

the sale is undeterminable until after the goods are weighed upon receipt by the purchaser. For these contracts, sales are recorded upon receipt of goods by the purchaser.

(b) Depreciation

Depreciation of furniture and equipment is recorded on the straight-line method over five years, and depreciation of leasehold improvements is recorded on the straight-line method over the term of the leases.

(c) Employee termination benefits

The employees of the Corporation are entitled to specified benefits on termination as provided for under labour contracts and conditions of employment. The liability for these benefits is recorded in the accounts as the benefits accrue to the employees.

(d) Prepaid expenses

Direct sales expenses incurred relating to certain surplus assets not sold at the end of the year are shown as prepaid expenses.

(e) Income tax

The Corporation is not subject to the provisions of any income tax act.

4. Long-term receivables—Agency Account

Long-term receivables include mortgages which relate to land and buildings sold prior to 1974 and loans outstanding from the sale of a ship and major equipment.

5. Due to Canada and others—Agency Account

These amounts do not become payable to Canada until monies are received from customers.

6. Commission to agents

During the year, Vebeg, an agency of the Government of the Federal Republic of Germany, retained approximately \$9,937 (1981—\$10,000) from proceeds it remitted to the Corporation.

7. Lease commitments

The Corporation leases certain properties used in the performance of its operations. As at March 31, 1982, the aggregate minimum annual rentals for all such leases are:

	\$
1982-83	395,510
1983-84	345,909
1984-85	203,562
1985-86	93,739
1987 on	16,297

8. Contingencies

(a) The Corporation has taken legal action against a certain customer to collect a receivable of approximately \$360,000. The Corporation has been advised by the Department of Justice that it has a valid claim. However, it is uncertain whether this customer will be financially able to pay this claim. No allowance for doubtful accounts has been made in respect of this claim as the ultimate amount of loss, if any, is not determinable. Any settlement resulting from the resolution of this action will be charged against the operations of the period in which the settlement occurs.

(b) A company who was unable to fulfill its contractual obligation in the purchase of certain surplus assets has commenced legal action against the Corporation to recover deposits made under the contract with an additional claim for damages. The Corporation believes that this company has no valid claim against the Corporation and that no loss will arise from the action.

9. Subsequent event

An Order-in-Council P.C. 1982-14/1256, dated April 22, 1982, conferred upon the Corporation the power to engage the services of the Department of Supply and Services in carrying out, on its behalf, the functions, powers and duties relating to disposal of materiel set out in Sections 5 and 18 of the Surplus Crown Assets Act, and in Orders-in-Council P.C. 1979-1879 dated July 12, 1979 and P.C. 1980-1589 dated June 12, 1980.

The financial effect on the future operations of the Corporation is not determinable at this time.

CROWN ASSETS DISPOSAL CORPORATION (Established by the Surplus Crown Assets Act)

AUDITOR'S REPORT

THE HONOURABLE JEAN-JACQUES BLAIS, P.C., M.P.
MINISTER OF SUPPLY AND SERVICES

I have examined the balance sheet of Crown Assets Disposal Corporation as at March 31, 1981 and the statements of operations and retained earnings and changes in financial position for the year then ended for the General Account, and the balance sheet as at March 31, 1981 and the statement of transactions for the year then ended for the Agency Account. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Corporation as at March 31, 1981 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and, except for the failure to remit funds to Canada within the time periods prescribed by the Surplus Crown Assets Act as referred to in Note 3 to the financial statements, the transactions that have come under my notice have been within its statutory powers.

The accompanying notes are an integral part of the financial statements.

NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 1981

1. Objectives and operations of the Corporation

The Surplus Crown Assets Act, administered by the Minister of Supply and Services, established the Crown Assets Disposal Corporation to act as an agent of the Crown in the sale of surplus assets. The Act requires that each department, and other bodies, report to the Minister any property in its custody or under its control or administration that is determined as surplus to its requirements. The Act also allows agents of Her Majesty and boards, commissions, corporations and other bodies that are not agents of Her Majesty, but, that are ultimately accountable to Parliament for the conduct of their affairs, the option to use the services of Crown Assets Disposal Corporation. The Corporation has the authority to sell or otherwise deal with such surplus property and to transfer net proceeds received from sales to the Consolidated Revenue Fund or to the agents of Her Majesty, boards, commissions, corporations and other bodies that are not agents of Her Majesty. Lands and buildings and certain commodities are exempted from sale by the Corporation.

The Agency Account represents amounts on hand and/or uncollected on sales of surplus assets which have not yet been remitted to Canada and others.

The primary objective of the Corporation is to obtain on behalf of the Crown the highest return from the sale of surplus assets.

2. Significant accounting policies

(a) Recognition of revenue

Sales and related commissions are recorded in the Agency Account when the Corporation accepts an offer to purchase, with the exception of some sales contracts where the value of the sale is undeterminable until after the goods are weighed upon receipt by the purchaser. For these contracts, sales are recorded upon receipt of goods by the purchaser.

(b) Depreciation

Depreciation of furniture and equipment is recorded on the straight-line method over five years, and for leasehold improvements is recorded on the straight-line method over the term of the leases.

(c) Employee termination benefits

The employees of the Corporation are entitled to specified benefits on termination as provided for under labour contracts and conditions of employment. The liability for these benefits is recorded in the accounts as the benefits accrue to the employees.

(d) Deferred charges

Direct sales expenses incurred relating to certain surplus assets not sold at the end of the year are deferred.

(e) Income tax

The Corporation is not subject to the provisions of any income tax act.

3. Statutory financial limitations

The Surplus Crown Assets Act, section 11(2) requires that: All monies deposited in the Corporation's bank accounts except

(a) monies paid or advanced to the Corporation by Her Majesty on account of working capital, and

(b) such percentage of the net proceeds of sales and of all other monies received by the Corporation during any period as the Governor in Council may from time to time fix to be retained to meet administrative costs or other expenses of the Corporation, and

CROWN ASSETS DISPOSAL CORPORATION—*Concluded*

NOTES TO THE FINANCIAL STATEMENTS

MARCH 31, 1981—*Concluded*

- (c) the net proceeds of sales of property reported by other than a department of the Government of Canada less any amount retained pursuant to paragraph (b) with respect to each such sale,

shall be transferred or deposited to the credit of the Receiver General or remitted to each board, commission, corporation or other body that reported property, on a day not later than the last day of the month following receipt thereof by the Corporation.

The transfer of monies to be deposited to the credit of the Receiver General or remitted to each board, commission, corporation or other body that reported property, is calculated from the statement of transactions for the Agency Account.

The monies relating to the Agency Account have not always been remitted on time due partly to the time required to prepare the statement of transactions for the Agency Account from which the monies to be remitted are calculated.

Order in Council P.C. 1970-534, 24 March, 1970 requires that all of the Corporation's surplus in excess of \$300,000 be paid to Canada at intervals of not longer than six months.

4. Long-term receivables—Agency Account

Long-term receivables include mortgages which arise principally from sales of lands and buildings and loans outstanding from customers resulting from sales of ships and major equipment.

	1981	1980
	\$	\$
Long-term receivables	4,718,879	5,149,679
Less: current portion	2,584,882	1,556,795
	<u>2,133,997</u>	<u>3,592,884</u>

5. Due to Canada and others—Agency Account

These amounts do not become payable until monies are received from customers.

	1981	1980
	\$	\$
Due to Canada and others	8,361,822	7,155,170
Less: current portion	6,227,825	3,562,286
	<u>2,133,997</u>	<u>3,592,884</u>

6. Commission to agents

During the year, Vebeg, an agency of the Government of the Federal Republic of Germany, retained approximately \$10,000 (1980—\$12,000) from proceeds it remitted to the Corporation.

7. Lease commitments

The Corporation leases certain properties used in the performance of its operations. As at March 31, 1981, the aggregate minimum annual rentals for all such leases are:

	\$
1981-82	414,000
1982-83	311,000
1983-84	248,000
1984-85	151,000
1986 on	89,000

8. Contingency

The Corporation has taken legal actions against certain customers to collect receivables of approximately \$500,000. These actions are awaiting court decisions. The Corporation has been advised by the Department of Justice that it has valid claims. However, it is uncertain whether these customers will be financially able to pay these claims.

No provision for doubtful accounts has been made in respect of these claims as the ultimate amount of loss, if any, is not determinable. Any settlement resulting from the resolution of these actions will be charged against the operations of the period in which the settlement occurs.

DEFENCE CONSTRUCTION (1951) LIMITED

(Incorporated under the Canada Business Corporations Act)

AUDITOR'S REPORT

THE HONOURABLE GILLES LAMONTAGNE, P.C., M.P.
MINISTER OF NATIONAL DEFENCE

I have examined the balance sheet of Defence Construction (1951) Limited as at March 31, 1982 and the statements of operations and deficit and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Company as at March 31, 1982 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Company, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

**NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1982****1. Objectives and operations**

The Company was incorporated under the Canada Corporations Act in 1951 and is continued under the Canada Business Corporations Act, pursuant to the authority of the Defence Production Act, to contract for major military construction and maintenance projects required by the Department of National Defence.

The Company's principal functions in the field of construction management are to obtain tenders, make recommendations regarding proposed awards and to award and administer contracts. As an integral part of its responsibility for contract administration, the Company inspects the work to ensure completion in accordance with the contract and certifies contractors' progress claims for payment from funds of the Department of National Defence. It also engages architectural and engineering firms to prepare plans and specifications in accordance with the requirements of the Department of National Defence. It may provide technical and administrative assistance on construction matters to other government departments when required.

2. Significant accounting policies**Net expense**

The accounts of the Company reflect only the administrative expenses incurred in procuring the construction and maintenance of defence projects on behalf of the Department of National Defence and in procuring the construction of such other projects as are approved by Treasury Board.

Depreciation

Depreciation is provided by the straight-line method over five years.

Employee benefits

Employee benefits are expensed when earned by employees.

Pensions

During the year, the Company made payments of \$427,013 (\$346,722 in 1981) in respect of current contributions to the Public Service Superannuation Account of the Government of Canada. The Account is actuarially valued every five years. The Company's contributions and recorded liabilities are limited to the matching of the current and certain arrears contributions of employees. The Company is not required to make contributions with respect to actuarial deficiencies of the Account.

Parliamentary appropriations

The cost of operations is funded by parliamentary appropriations through the Department of National Defence Vote 15 (1981-Votes 5 and 15) to the extent of net annual cash requirements.

3. Contractors' security deposits

Contractors' security deposits represent bid deposits of \$71,945 (1981-\$247,278) and deposits on plans and specifications of \$43,454 (1981-\$36,025).

4. Provision for employee benefits

	1982	1981
	\$	\$
Termination benefits	2,112,770	1,722,492
Life insurance for retired employees	379,172	360,995
Furlough benefits	131,320	101,563
	2,623,262	2,185,050

DEFENCE CONSTRUCTION (1951) LIMITED—Concluded**NOTES TO FINANCIAL STATEMENTS**MARCH 31, 1982—*Concluded***5. Deficit**

The deficit of the Company is comprised primarily of the liabilities for employee benefits which will require funding from parliamentary appropriations in future years as they are paid.

6. Recoveries of expenses

The Company provides certain technical and administrative assistance to the Department of National Defence and other government departments and agencies on a cost-recovery basis.

7. Income tax

The Company is not liable for the payment of income taxes.

8. Comparative figures

Certain of the 1981 comparative figures have been reclassified to conform with current year presentation.

9. Supplementary information

The Company's contracting activity on behalf of government departments and agencies is summarized below:

	1982	1981
	(in thousands of dollars)	
Contracts in progress at beginning of the year	242,759	203,265
Contracts awarded	169,289	173,787

ELDORADO NUCLEAR LIMITED

AUDITOR'S REPORT

THE HONOURABLE MARC LALONDE, P.C., Q.C., M.P.
MINISTER OF ENERGY, MINES AND RESOURCES

We have examined the statement of consolidated financial position of Eldorado Nuclear Limited as at December 31, 1981 and the statements of consolidated earnings and retained earnings and changes in consolidated financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these consolidated financial statements give a true and fair view of the financial position of the Company as at December 31, 1981 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

We further report that, in our opinion, proper books of account have been kept by the Company, the financial statements are in agreement therewith and the transactions that have come under our notice have been within its statutory powers.

The accompanying notes to Consolidated Financial Statements are an integral part of this statement.

STATEMENT OF ACCOUNTING POLICIES

The accompanying consolidated financial statements were prepared by management in conformity with generally accepted accounting principles considered to be appropriate in the circumstances, and have been applied on a basis consistent with that of the preceding year. A summary of significant accounting policies of the Company is presented to assist the reader in interpreting the statements contained herein.

Consolidation

The consolidated financial statements include the accounts of Eldorado Nuclear Limited and its wholly-owned subsidiaries, Eldorado Aviation Limited and Eldor Resources Limited.

Inventories

Inventories of mine concentrates and refined and converted products are valued at the lower of weighted average cost or net realizable value. Cost for customer-owned products is the cost of the refining and conversion processes only.

Inventories of mine concentrates are initially measured and accounted for in the financial statements when the material is sealed in containers upon completion of the milling process.

Supplies

Operating and general supplies are carried at cost.

Property and Equipment

Assets are carried at cost. Costs of additions, betterments, and renewals are capitalized. When assets are retired or sold, the resulting gains or losses are reflected in current earnings.

Maintenance and repair expenditures are charged to cost of production.

Investment in Joint Venture

The investment in joint venture, which consists of exploration, development and financing costs of the one-sixth interest in the Key Lake orebodies, is carried at cost until such time as production commences.

Depreciation

The principal depreciation method used is the composite straight line method based on the estimated useful lives of the property and equipment, which in the majority of cases is 10 years. For the purposes of calculating the depreciation charge, the average economic life of the property and equipment of each plant or operation is calculated, and a composite depreciation rate based on this average economic life is applied for each plant or operation.

Capitalization of Interest

Interest costs on funds borrowed to finance the development and construction of major assets are capitalized during the development and construction period.

Mine Development and Preproduction Costs

Certain mine development and refinery costs associated with capacity additions are deferred until commencement of production. These costs are then amortized based on production over not more than 10 years. Other costs are charged to production as incurred.

Research and Development and Exploration Costs

Expenditures for applied research and development relative to the products and processes of the Company and expenditures for geological exploration programs are charged against earnings as incurred.

ELDORADO NUCLEAR LIMITED—Continued**STATEMENT OF ACCOUNTING POLICIES—Concluded****Pension Plan**

The Company has a contributory, defined benefit, trustee pension plan covering all its regular full-time employees. Assets in the pension fund are essentially valued at book values, while liabilities are costed by the entry age normal cost method.

Pension costs are funded and recorded at rates confirmed by the consulting actuary pursuant to periodic actuarial revaluations. All actuarially-determined unfunded liabilities are amortized and funded over periods that adequately reflect their specific nature, up to a maximum of 15 years.

Sales of Products and Services

In accordance with normal industry practices, the Company contracts for future delivery of mine concentrates and refinery conversion services. Sales revenue is recorded in the fiscal year that title passes or, with customer-owned material, when delivery is effected.

Foreign Exchange

Accounts receivable and accounts payable denominated in foreign currencies are translated into Canadian dollars at rates of exchange in effect at year-end; income and expenses at rates in effect during the year; long-term debt at rates in effect when the debt was incurred. Gains or losses resulting from such translation practices are reflected in the statement of consolidated earnings and retained earnings.

Shutdown of Beaverlodge Operation

The decision to cease operations at the Beaverlodge mine on June 30, 1982 has been reflected in the accompanying financial statements on the following basis:

All the Beaverlodge assets, net of estimated salvage value, have been written off.

A provision has been made for the cost that will be incurred in shutting down the mine. This includes all foreseeable costs of closing and decommissioning the mine, including early retirement, severance and relocation programs for employees, as well as environmental and salvage costs.

Also included in the provision for shutdown is the excess of the cost of continuing to operate the mine over the net realizable value of inventories produced during the shutdown period commencing November 24, 1981.

The write-off of the Beaverlodge assets and the provision for shutdown costs have been reflected in the 1981 income statement as an extraordinary item. No provision has been made for the on-going costs of environmental monitoring of the Beaverlodge site after shutdown. These are considered to be normal operating expenses for a mining company and they will be charged against revenues in the year in which they are incurred.

Income Tax

The Company follows the tax allocation method of providing for income taxes. Taxable income may be different from reported earnings before taxes because certain items of income and expense are recorded in time periods different for tax purposes from those for accounting purposes. The difference between the taxes calculated as payable each year and those charged against earnings on the tax allocation method is accumulated and carried forward in the statement of consolidated financial position under the caption Deferred Taxes.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 1981****1. Eldorado Nuclear Limited**

Eldorado Nuclear Limited is incorporated under the Canada Business Corporations Act, is subject to the Financial Administration Act and the Government Companies Operations Act, and is an agent of Her Majesty in Right of Canada. The shares outstanding in 1944 were acquired by the federal government in that year to secure a source of uranium for Canada. In 1981 these shares were cancelled and new shares were issued to the shareholder pursuant to the acquisition by the Company of the Government uranium stockpile.

The Company, wholly-owned by Her Majesty in Right of Canada, is involved in various aspects of the nuclear fuel cycle, primarily the exploration, mining, refining and conversion of uranium.

Eldorado's Beaverlodge mine and mill in northwestern Saskatchewan produce uranium mine concentrates. This facility will close during 1982, but the Company owns concentrate inventories more than sufficient to fulfill sales commitments to 1990. Most sales to electric utilities are made under long-term, annual delivery contracts, and title transfer is generally made at the Company's Port Hope facilities prior to further processing. All export contracts must first be approved by federal regulatory agencies.

The plant at Port Hope refines uranium concentrates and converts the pure uranium to produce ceramic-grade uranium dioxide powder and uranium hexafluoride as steps in the nuclear fuel cycle. Utility customers in Canada and other nations send material to Port Hope for such processing and the converted product is shipped on behalf of customers to fabricators in Canada or to enrichment plants in the United States, Europe and Russia. At year-end 1981, the refinery held 14 million pounds of customer-owned uranium at various stages of processing (1980—25 million pounds). All exports of material on behalf of customers require a licence from federal regulatory agencies.

The Port Hope operation also includes metallurgical facilities to produce depleted uranium metal alloys, experimental fuels, and various other related products, as well as storage facilities for U_3O_8 and for processed UF₆.

A wholly-owned subsidiary, Eldor Resources Limited, owns a one-sixth interest in the Saskatchewan Uranium Joint Venture, which is developing new uranium properties at Key Lake in northern Saskatchewan. Another wholly-owned subsidiary, Eldorado Aviation Limited, provides transportation services to the Beaverlodge mine site, and will continue to do so during the period of shutting down and decommissioning the mine site. In addition, Eldorado Aviation has applied for a licence change that would permit it to expand its transportation services.

Each year, after the normal preparation, review and approval of budgets by the Board of Directors of Eldorado for the next calendar year, the Company submits the capital budget for approval by the Governor-in-Council upon recommendation of the Minister of Energy, Mines and Resources, the Minister of Finance, and the President of the Treasury Board. This budget is subsequently tabled in Parliament.

ELDORADO NUCLEAR LIMITED—Continued**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 1981—Continued****2. Accounting policies**

A statement of significant accounting policies of the Company is provided in this statement.

3. Other income and expense

	1981	1980	1979
	(in thousands of dollars)		
Income			
Interest on investments	714	465	3,840
Gain on settlement of Eldor- UCAN concentrate loan	31,581	5,763	
Other non-operating items	723	999	987
Expenses			
New refinery site selection costs		(4,141)	
Miscellaneous	(326)	(548)	(147)
	<u>32,692</u>	<u>2,538</u>	<u>4,680</u>

4. Income taxes and mineral royalties

The provisions for income taxes and mineral royalties were as follows:

	1981	1980	1979
	(in thousands of dollars)		
Income taxes—Deferred	(1,365)	1,864	1,495
Mineral royalties	1,003	2,070	4,200
	<u>(362)</u>	<u>3,934</u>	<u>5,695</u>

The reconciliation between the federal statutory income tax rate and the Company's effective rate of income tax and mineral royalties is as follows:

	Percentage of Pre-tax Earnings		
	1981	1980	1979
Federal statutory income tax (recov- ery) rate	(48.3)	48.3	46.0
Resource and depletion allowances	(110.5)	(33.2)	(24.4)
Adjusted income tax (recovery) rate ..	(158.8)	15.1	21.6
Inventory allowance	(22.1)	(9.5)	(10.0)
Research allowance		(3.7)	(6.9)
Non-deductibility of income debent- ure interest	104.5	27.4	20.5
Other	4.3	4.9	(0.6)
Effective income tax (recovery) rate ..	(72.1)	34.2	24.6
Mineral royalties	53.0	38.1	68.9
Net effective tax (recovery) rate	<u>(19.1)</u>	<u>72.3</u>	<u>93.5</u>

Provincial mineral royalties, which are not deductible for federal income tax purposes, are calculated in part as a percentage of revenues and consequently the effective rate can fluctuate drastically from year to year.

As the result of an audit of taxation years prior to 1977, the Company received reassessment notices in 1978 increasing income for tax purposes and decreasing tax loss carry forwards by approximately \$4.0 million. The Company filed a Notice of Objection with respect to these reassessments. However, to date, no formal decision has been reached.

At December 31, 1981 the Company had unrecorded income tax debits of approximately \$58 million to be applied against

future taxable earnings. These debits arise from depreciation costs exceeding capital cost allowance claims and from expenditures on assets qualifying for an earned depletion tax deduction.

5. Extraordinary item—Shutdown of Beaverlodge Operation

On November 24, 1981 the Board of Directors by resolution authorized management to close the Beaverlodge mine and mill effective June 30, 1982. Low market prices, increasing production costs and declining ore grade have combined to make this operation no longer economically viable.

Accordingly, an extraordinary loss has been recorded in the 1981 financial statements to reflect the shutdown decision. The loss provides for the write-off of Beaverlodge assets (net of estimated salvage value), the costs of decommissioning the mine and terminating employees, and the phasing out of the mine operations (net of realizable value of concentrates produced).

6. Mine concentrates on loan

Mine concentrates on loan are recorded at current inventory cost, which is lower than net realizable value. These costs are classified as either current or non-current assets, according to scheduled or estimated repayments. The mine concentrates on loan are secured by a fixed and floating charge over the borrower's assets.

Income from the mine concentrates on loan is included in revenues in the amount of \$2.0 million (1980—\$2.5 million; 1979—\$6.5 million).

7. Property and equipment

	1981	1980	1979
	(in thousands of dollars)		
Land	3,725	3,642	2,353
Buildings	15,875	69,731	55,866
Equipment	72,239	143,896	144,205
Construction in progress	96,582	33,711	16,012
Aircraft under capital lease	16,729	15,927	
	<u>205,150</u>	<u>266,907</u>	<u>218,436</u>
Less accumulated depreciation	<u>44,218</u>	<u>98,113</u>	<u>85,934</u>
	<u>160,932</u>	<u>168,794</u>	<u>132,502</u>
Depreciation for year	<u>15,269</u>	<u>13,191</u>	<u>8,574</u>

8. Deferred charges

	1981	1980	1979
	(in thousands of dollars)		
Mine development		4,500	5,523
Refinery preproduction	1,773	2,052	935
Unamortized financing costs	<u>3,377</u>		
	<u>5,150</u>	<u>6,552</u>	<u>6,458</u>
Amortization for year	<u>2,831</u>	<u>2,302</u>	<u>1,404</u>

ELDORADO NUCLEAR LIMITED—Continued

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 1981—Continued

9. Long-term debt

	1981	1980	1979
	(in thousands of dollars)		
i) From Canada			
8½% notes due 1978-80			605
57½% note due 1980			11,548
4½½% notes due 1981		7,762	7,762
6½% notes due 1982	10,062	10,062	10,062
5½% notes due 1983	5,082	5,082	5,082
6½% notes due 1984	10,093	10,093	10,093
ii) Other			
Income debentures due 1983, at floating rate approximately one-half of prime lending rate	40,000	40,000	40,000
Promissory notes due 1985, at floating rate ¾% below prime lending rate	30,000	30,000	
Capitalized lease expiring 1992, at floating monthly payments 2%-4% below prime lending rate	15,333	15,615	
Notes due 1986, at 13¼% (\$U.S.-50 million)	59,428		
Loan due 1991, at 7% (100 million Swiss francs)	56,763		
Notes due 1988, at interest rate to yield 9.19% (10,108 billion Japanese yen)	51,562		
iii) Mine concentrates borrowed		94,729	110,094
Sub-total	278,323	213,343	195,246
Less: Current portion of long-term debt listed above	12,400	8,353	12,153
Total	265,923	204,990	183,093

If translated into Canadian dollars at year-end rates of exchange, long-term debt would increase by \$12,545,000 in 1981 (1980 and 1979—nil). This is not necessarily indicative of the amounts which will be repaid when the obligations are retired.

(a) Loans from Canada and other

The long-term debt payments due in each of the next five years are as follows: 1982—\$12,400,000, 1983—\$47,146,000, 1984—\$11,844,000, 1985—\$31,546,000, 1986—\$64,133,000.

(b) Mine concentrates borrowed

	1981	1980	1979
	(in thousands of dollars)		
Due by Eldor Resources Limited		94,729	110,094

In conjunction with the purchase of its interest in the Key Lake joint venture, Eldor Resources Limited arranged with Uranium Canada, Limited (UCAN) for a loan of two million pounds of uranium mine concentrate (U_3O_8) from the Government of Canada stockpile. This material, of which 730,600 pounds were drawn in 1978 and 1,269,400 pounds in 1979, was sold at world market prices (deemed loan value) to fund the Key Lake acquisition. During 1981 the Government of Canada stockpile and the remaining loan liability of 1.5 million pounds U_3O_8 were transferred from UCAN to Eldorado in exchange for the issuance of common and preferred shares. As a result, the liability, valued at \$76.6 million, and the related accrued interest, valued at \$20.3 million, were eliminated.

Prior to this stockpile transfer, all interest, as computed on the deemed loan value of borrowed concentrates, was being accrued and recorded as an increase to the investment in joint venture. In

1980, 500,000 pounds of the loan was repaid to UCAN, resulting in a gain which represented the excess of the original average unit loan value over U_3O_8 inventory cost. In 1981, upon transfer of the stockpile, a further gain resulted with respect to the remainder of the loan. These gains are reflected in the respective years as "Other Income" in the statement of consolidated earnings and retained earnings.

10. Sales contracts

At December 31, 1981 the Company had commitments for the delivery of 9,423,000 pounds of uranium mine concentrates from 1982 to 1990.

11. Share capital

	1981	1980	1979
	(in thousands of dollars)		
Authorized:			
An unlimited number of common shares of no par value			
1,600,000 preferred shares (1980 and 1979—nil)			
Issued and fully paid:			
Common—1,452,880 shares to Canada (1980 and 1979—70,500 shares)	106,586	6,586	6,586
Preferred—1,600,000 shares to Canada (1980 and 1979—nil)	200,000		
	306,586	6,586	6,586

During 1981 the Company cancelled 70,500 common shares and issued 1,452,880 new common shares and 1,600,000 redeemable preferred shares.

The preferred shares have an assigned value of \$125 per share. No dividends are payable until March 31, 1986. At that date cumulative dividends, if declared, are payable at \$25 per share. At March 31, 1987 cumulative dividends, if declared, are payable at \$50 per share. Thereafter, the preferred shares bear a cumulative dividend rate of \$12.50.

12. Commitments and contingencies

- The Company has entered into long-term leases on certain properties up to 1986 with annual rental payments averaging \$499,000.
- The Company has a contributory, defined benefit pension plan covering all of its regular full-time employees. The pension fund is periodically (at least every three years) revaluated by the consulting actuary. Assets in the pension fund, which is administered by independent trustees, are essentially valued at book values, although in the case of equities, the book value is adjusted by 20 percent of any unrealized gain or loss, provided any gain does not result in the particular equity being in excess of 90% of its market value. In the case of bonds, any premium or discount from par is amortized over the lifetime of the bond. Liabilities and funding requirements are determined by the consulting actuary on the Entry Age Normal Cost method. Under this method, the normal cost to the Company is calculated as a level annual percentage of payroll which, when taken together with the members' required contributions and the assumed earnings rate thereon, would be sufficient to fund the expected benefits for each member. The assumed annual rate of return used in determining the actuarial present values of accumulated plan benefits is 5 per cent.

ELDORADO NUCLEAR LIMITED—Concluded**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 1981—Concluded**

The last actuarial valuation of the plan, as of December 31, 1980, revealed that the plan had a surplus of \$2,972,000 as of that date. The previous actuarial valuation as of December 31, 1979 had revealed an unfunded liability of \$248,000.

- (c) Through its wholly-owned subsidiary Eldor Resources Limited, the Company is a one-sixth partner in a joint venture that discovered and has commenced developing the ore bodies near Key Lake, Saskatchewan. In accordance with the joint venture agreement, Eldor is obligated to meet its proportionate share of the commitments of the joint venture. At December 31, 1981, Eldor's share of the estimated cost to commence production is approximately \$68 million.

- (d) The Company is expanding its refining and conversion capacity to meet projected increases in world demand for uranium. All uranium refining operations will be consolidated at a new Blind River UO_3 plant, and all UO_2 and UF_6 conversion activities will take place at expanded facilities at Port Hope. This will enable the Company to phase out its 25-year-old UO_3 plant at Port Hope. The capital cost of the program to be incurred from 1981 is projected at approximately \$184 million. The plants are expected to be ready for operation by late 1983. The Company has obtained site approval for both facilities and construction approval for the Blind River UO_3 plant from the Atomic Energy Control Board and is awaiting construction approval for the Port Hope UF_6 plant.

The Company has entered into contracts in connection with its expansion program and as at December 31, 1981, has made commitments of approximately \$34 million.

- (e) In connection with its operation, the Company is the defendant in certain litigation. It is the opinion of management, based on legal counsel, that this will not result in any material liabilities to the Company.

13. Supplementary information

- (a) Subsequent to December 31, 1981 the Company has entered into a line-of-credit financing agreement with a group of Japanese lenders. This agreement provides for the borrowing of up to 5 billion Japanese yen at an interest rate of .2% above the Japanese long-term prime lending rate (currently 8.6%). The funds must be drawn down no later than July 15, 1982 and repaid in ten equal semi-annual instalments commencing July 15, 1987.

- (b) During 1981 the Company paid sales commissions to Marubeni Corporation, who have been retained as exclusive Japanese sales agents since 1960.

- (c) Interest costs of \$8.5 million paid in 1981 have been capitalized under property and equipment and investment in joint venture (1980—\$2.8 million; 1979—nil). Deferred interest of \$2.1 million recorded in 1981 has been capitalized under investment in joint venture (1980—\$10.2 million; 1979—\$7.9 million).

- (d) Certain account descriptions have been reclassified from prior years for comparative purposes.

14. Segmented information

- (a) Industry segment

The Company is of the opinion that virtually all its sales revenues are in the industry segment identified as the nuclear fuel industry.

- (b) Sales

Sales revenues of the Company are derived primarily from sales to foreign and domestic electric utilities as follows:

	1981	1980	1979
	(in thousands of dollars)		
Export sales	55,135	77,738	48,893
Domestic sales	16,753	13,378	62,605
Total sales	71,888	91,116	111,498

EXPORT DEVELOPMENT CORPORATION*(Established by the Export Development Act)***AUDITOR'S REPORT**

THE HONOURABLE MARK MACGUIGAN, P.C., M.P.
 SECRETARY OF STATE FOR EXTERNAL AFFAIRS

I have examined the balance sheet of Export Development Corporation as at December 31, 1981 and the statements of income and retained earnings and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Corporation as at December 31, 1981 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

KENNETH M. DYE
Auditor General of Canada

Ottawa, Ontario

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1981

1. The Corporation

Export Development Corporation is a Crown corporation wholly-owned by Canada, which was established October 1, 1969 by the Export Development Act, a statute of the Parliament of Canada, as the successor to the Export Credits Insurance Corporation which commenced operations in 1944.

The Corporation has broad powers including the power to borrow, to lend and to guarantee loans, to enter into export and foreign investment insurance contracts and to issue guarantees in respect of export transactions.

The Corporation is not subject to the requirements of the Income Tax Act with respect to its earnings.

Contracts are entered into either under the authority of the Board of Directors or under the authority of the Governor in Council. Contracts entered into under the authority of the Governor in Council (Accounts administered for Canada) are reflected in separate financial statements. Funds required for such transactions are paid to the Corporation by Canada and the Corporation does not have any liability for transactions administered for Canada. All contracts of foreign investment insurance are issued for Canada.

2. Summary of Significant Accounting Policies

These financial statements were prepared in accordance with accounting principles generally accepted in Canada consistently applied, and conform in all material respects with International Accounting Standards. A summary of significant accounting policies follows.

Export Loan Interest Earned

Interest is accrued on principal receivable until such time as the Corporation accelerates all payments falling due under a loan agreement or when in the opinion of management there is significant doubt as to its collectibility or the loan becomes non-current. Non-current is defined as any rescheduled loan where a significant payment has not been received for one year.

Finance and service charges, which are paid by exporters, are taken into interest earned over the disbursement and repayment periods of a loan.

Export Loan Fees Earned

Administration fees are taken into income as earned over the disbursement and repayment periods of a loan, and standby fees are taken into income over the disbursement period.

Investment Interest Earned

Investment interest earned is prorated between Loans and Guarantees and Insurance and Guarantees on the basis of average funds invested.

Interest Expense

Interest expense includes amortization of debt discount and issue expenses, which is charged over the life of the debt on a straight-line basis.

Allowance for Losses on Loans Receivable

Provisions for loan losses are based on a review of collectibility of all outstanding loans to sovereign and commercial borrowers. In respect of this review, the Corporation recognizes that the future economic and political conditions in some of the countries where the Corporation has made loans are subject to varying degrees of pressures, some of which are unpredictable. Accordingly, delays in the repayment of principal and interest may well occur from time to time.

EXPORT DEVELOPMENT CORPORATION—Continued

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 1981—Continued

In the case of loans made to sovereign borrowers, that is the governments of countries or their agencies, payment delays are not necessarily indicative of a future loss requiring a provision. Sovereign entities and their international financial obligations do not have commercial mortality, and the international system does not allow the unilateral denial of a sovereign obligation. Furthermore, the international system provides several mechanisms and institutions through which countries facing repayment difficulties can effect remedial measures in agreement with their creditors. Therefore, except in the rare instance of outright repudiation or a write-off of asset value agreed to by creditors, in the opinion of management the ultimate collectibility of a sovereign obligation, and thus its asset value, is not subject to question although delays may have to be accepted.

It is the policy of the Corporation to set aside from net income, in addition to any specific provisions made as a result of the review of the outstanding loans, an amount sufficient to maintain an accumulated non-specific allowance proportionate to the total loan principal and interest receivable for which no specific provision has been made.

Insurance Premiums

For short term global export insurance policies, premiums are taken into income at the commencement of coverage. Premiums on other export insurance policies are taken into income using methods which generally reflect the exposures over the terms of the policies.

Allowance for Claims on Insurance and Guarantees in Force

The Corporation provides for claims based on claims experience, augmented if necessary by a specific provision based on a review of contingent liability. Claims payments are charged and recoveries credited to the allowance.

Translation of Foreign Currency

Assets and liabilities are translated into Canadian dollars at exchange rates prevailing at year end. Income and expenses are translated at average monthly exchange rates in effect during the year.

3. Loans Receivable

Loans receivable from both sovereign and commercial borrowers, net of participation by other lenders, are at interest rates established in competition with similar agencies in other countries and are generally below commercial rates. These loans mature as follows:

	December 31	
	1981	1980
	(in thousands of dollars)	
Overdue	15,080	12,169
1981		250,711
1982	331,155	339,485
1983	421,019	402,781
1984	451,177	411,590
1985	437,181	397,280
1986	395,474	357,084
1987 and thereafter	1,610,657	1,001,204
Total	3,661,743	3,172,304
Commercial loans included above	1,004,162	820,225
Overdue interest	15,253	5,536

In order to facilitate the collectibility of some loans or portion of loans, the Corporation has concluded agreements to reschedule principal and interest payments in the following amounts:

	December 31	
	1981	1980
	(in thousands of dollars)	
During the year—Interest	15,736	25,233
—Principal	15,725	43,991
	31,461	69,224
Balance of rescheduled loans outstanding	160,963	133,236
Amounts overdue	1,802	289

4. Long Term Loans Payable

Long term loans payable were as follows:

	December 31	
	1981	1980
	(in thousands of dollars)	
Canada loans	529,462	640,253
Interest rates from 5.31% to 9.50% (1980 — 5.31% to 9.50%)		
Commercial loans	2,264,321	1,971,224
Interest rates from 6.00% to 16.875% (1980 — 7.00% to 14.00%)		
	2,793,783	2,611,477

These loans mature as follows:

	December 31	
	1981	1980
	(in thousands of dollars)	
1981		260,825
1982	306,338	306,955
1983	390,237	391,270
1984	754,164	757,047
1985	457,075	433,576
1986	381,387	253,831
1987 and thereafter	504,582	207,973
Total	2,793,783	2,611,477

5. Capital

Authorized capital consists of 10,000,000 shares with a par value of \$100 each. At December 31, 1981, 3,250,000 shares were issued and fully paid (December 31, 1980 — 2,850,000 shares). During the year, 400,000 shares were issued for cash. Capital also includes \$25,000,000 of contributed capital, the maximum amount provided in the Export Development Act.

EXPORT DEVELOPMENT CORPORATION—Continued

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 1981—Concluded

6. Adjustment of Prior Year

During 1981, the Corporation conducted a review of the method of accounting for forward foreign exchange contracts. This review indicated that incorrect treatment given to these transactions had resulted in an understatement of revenue of \$1,973,000 in 1980.

7. Commitments and Contingent Liabilities

Undisbursed commitments on signed loan agreements and other guarantee commitments of the Corporation as at December 31, 1981 were \$4,167,429,000 (December 31, 1980—\$3,594,203,000).

It is anticipated that undisbursed commitments under signed loan agreements will be disbursed as delivery of goods and services or progress on projects is achieved, the average period of disbursement being typically three years. The Corporation expects to fund these commitments near the time of disbursement by issuing a combination of debt instruments in world capital markets at commercial rates of interest and capital stock while generally attempting to match debt maturities and currencies with those of its export loans.

Insurance in force and other contingent liabilities of the Corporation as at December 31, 1981 were \$2,189,117,000 (December 31, 1980—\$1,701,314,000).

8. Statutory Limits

The Export Development Act allows the Corporation to have outstanding loans and commitments to foreign borrowers up to a maximum of \$10,000,000,000. The position against this limit as at December 31, 1981 was \$7,584,104,000 (December 31, 1980—\$6,533,640,000).

The Act also specifies that the Corporation can incur liabilities under contracts of insurance, related guarantees and guarantees pertaining to the lending program up to a maximum of \$10,000,000,000. The position against this limit as at December 31, 1981 was \$2,352,497,000 (December 31, 1980—\$1,866,516,000).

9. Short Term Investments and Loans Payable

With respect to short term investments and loans payable, activity was as follows:

		Year Ended December 31	
		1981	1980
		(in thousands of dollars)	
Short term investments	Average.....	515,800	502,000
	High	703,800	790,000
	Low	368,800	307,500
Short term loans payable	Average.....	546,300	424,700
	High	722,700	542,500
	Low	380,200	303,000

The Corporation also had lines of credit and overdraft facilities aggregating \$492,500,000 at December 31, 1981 (December 31, 1980 — \$390,000,000).

10. Related Party Transactions

Related party transactions not otherwise disclosed in these financial statements were as follows:

	Year Ended December 31	
	1981	1980
(in thousands of dollars)		
Transactions with Canada		
Interest expense	45,097	54,800
Less:		
Administrative expenses recovered	2,956	3,239
Interest earned	5,064	6,059
	37,077	45,502
Amounts due to (due from) Canada		
Canada treasury bills		(24,012)
Canada bonds bearing interest at rates from 8.00% to 9.75%, maturing 1983 through 1994	(25,576)	(25,471)
Accrued interest receivable	(475)	(954)
Accounts administered for Canada	1,613	5,441
Long term loans, bearing interest at rates from 5.31% to 9.50%, due 1982 through 1988	529,462	640,253
Accrued interest payable	14,985	17,612
Unused parliamentary appropriation	5,000	
Other liabilities	8,925	8,773
	533,934	621,642

11. Segmented Information

Loans and insurance are the Corporation's significant industrial segments.

Loans and Guarantees and Insurance and Guarantees on the Statement of Income reflect operations income of the two segments before deduction of administrative expenses.

At December 31, 1981 the total principal receivable of loans to foreign borrowers, excluding participation by other lenders, was \$3,661,743,000 (December 31, 1980 — \$3,172,304,000).

The assets of the Corporation are predominantly identifiable with the loans and guarantees program.

Revenue from loan interest and fees earned outside Canada for the year ended December 31, 1981 was \$324,047,000 (December 31, 1980 — \$252,199,000).

Revenue from insurance premiums and fees is earned in Canada.

EXPORT DEVELOPMENT CORPORATION—Continued

ACCOUNTS ADMINISTERED FOR CANADA

AUDITOR'S REPORT

THE HONOURABLE MARK MACGUIGAN, P.C., M.P.
SECRETARY OF STATE FOR EXTERNAL AFFAIRS

I have examined the balance sheet of Accounts Administered for Canada by Export Development Corporation as at December 31, 1981 and the statement of changes in amounts funded by Canada for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Accounts Administered for Canada as at December 31, 1981 and the changes in the amount funded by Canada for the year then ended in accordance with the accounting policies set out in Note 2 to the financial statements applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept for the Accounts administered for Canada by Export Development Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within the statutory powers set out in the Export Development Act.

**NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1981****1. Accounts administered for Canada**

The Corporation administers for Canada certain loan and insurance programs entered into under the authority of the Governor in Council. The funds required for these operations are provided by Canada, and the Corporation has no direct financial interest in these programs. As cash is received by the Corporation, it is remitted to the Consolidated Revenue Fund of Canada, net of amounts withheld to cover administrative expenses which are charged on a cost recovery basis.

2. Summary of Significant Accounting Policies**Export Loan Interest Earned**

Interest is accrued on principal receivable until such time as the Corporation accelerates all payments falling due under a loan agreement or when in the opinion of management there is significant doubt as to its collectibility or the loan becomes non-current. Such action is taken by the Corporation under the authority of the Governor in Council. Non-current is defined as any rescheduled loan where a significant payment has not been received for one year.

Finance and service charges, which are paid by exporters, are taken into interest earned over the disbursement and repayment periods of a loan.

Export Loan Fees Earned

Administration fees are taken into income as earned over the disbursement and repayment periods of a loan, and standby fees are taken into income over the disbursement period.

Insurance Premiums

For short term global export insurance policies, premiums are taken into income at the commencement of coverage. Premiums on the other export insurance policies are taken into income using methods which generally reflect the exposures over the terms of the policies.

Translation of Foreign Currency

Assets and liabilities are translated into Canadian dollars at exchange rates prevailing at year end. Income and expenses are translated at average monthly exchange rates in effect during the year.

3. Loans Receivable

Loans receivable from both sovereign and commercial borrowers, net of participation by other lenders, mature as follows:

	December 31	
	1981	1980
	(in thousands of dollars)	
Overdue	12,266	433
1981		33,537
1982	36,456	41,037
1983	54,925	58,655
1984	60,597	59,510
1985	64,380	57,008
1986	64,066	57,302
1987 and thereafter	372,846	311,073
Total	665,536	618,555
Commercial loans included above	153,531	136,542
Overdue interest	10,031	113

In order to facilitate the collectibility of some loans or portion of loans, agreements have been concluded to reschedule principal and interest payments in the following amounts:

	December 31	
	1981	1980
	(in thousands of dollars)	
During the year—Interest	3,462	720
—Principal		
	3,462	720
Balance of rescheduled loans outstanding	6,138	2,718

4. Commitments and Contingent Liabilities

Undisbursed commitments on signed loan agreements and other guarantee commitments of the Accounts administered for Canada as at December 31, 1981 were \$49,512,000 (December 31, 1980—\$33,586,000).

Insurance in force and other contingent liabilities of the Accounts administered for Canada as at December 31, 1981 were \$266,505,000 (December 31, 1980—\$383,735,000).

5. Statutory Limits

The Export Development Act allows the Accounts administered for Canada to have outstanding loans and commitments to foreign borrowers up to a maximum of \$2,500,000,000. The position against this limit as at December 31, 1981 was \$743,302,000 (December 31, 1980—\$665,277,000).

The Act also specifies that the Accounts administered for Canada can incur liabilities under contracts of insurance, related guarantees and guarantees pertaining to the lending program up to a maximum of \$3,500,000,000. The position against this limit as at December 31, 1981 was \$266,505,000 (December 31, 1980—\$383,735,000).

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1982

1. Corporate objectives

The Farm Credit Corporation was established on October 5, 1959, by the Farm Credit Act as the successor to the Canadian Farm Loan Board. The Corporation's prime objective is to assist Canadian farmers to establish and develop viable farm enterprises through the use of long-term credit as provided for by the Farm Credit Act.

The Corporation also administers the lending program authorized under the Farm Syndicates Credit Act which was originally introduced as the Farm Machinery Syndicates Credit Act on December 11, 1964. It provides for loans to groups or syndicates of farmers organized to share in the purchase and use of farm machinery, buildings and installed equipment.

FARM CREDIT CORPORATION—Continued**NOTES TO FINANCIAL STATEMENTS****MARCH 31, 1982—Continued****2. Significant accounting policies****Allowance for doubtful accounts**

The allowance for doubtful accounts relates to loans to farmers, loans to farm syndicates and agreements for sale. This allowance represents the Corporation's estimate of future probable losses on the accounts outstanding at March 31, 1982.

Actual losses on loans, recoveries on loans and the changes in the allowance are recorded in the statement of operations and retained earnings as a provision for doubtful accounts.

Revenue recognition

Interest on loans to farmers, loans to farm syndicates and agreements for sale is recorded as income on an accrual basis. Appraisal fees relating to loan applications are recorded as income when received. Appraisal fees withheld from loan funds are recorded as income at the time the loans are disbursed. Partial discharge fees are recorded as income when the discharge occurs. Service charges earned on loans to farm syndicates are recorded as income when loans are disbursed.

Fixed assets

Fixed assets are recorded at cost. Leasehold improvements are amortized using the straight-line method over the term of the lease and one renewal period. Other fixed assets are depreciated using the diminishing balance method at annual rates of 20% for furniture and equipment and 30% for automobiles.

Income taxes

The Corporation records income taxes on the tax allocation basis which recognizes the income tax effect on transactions when they are recorded in accounting income, regardless of when such items are recognized for tax purposes. Deferred income taxes result primarily from the timing difference between the provision for doubtful accounts charged to operations and the amount claimed for tax purposes with respect to mortgage reserves deducted under Section 33 of the Income Tax Act.

3. Long-term receivables

Outstanding amounts are receivable over periods of up to thirty years at interest rates in effect at the time of approval.

	Period not exceeding	Annual interest rate %	Outstanding amount (in thousands of dollars)	
			1982	1981
Loans to farmers	30 years	5-16 ¾	3,812,957	3,452,254
Loans to farm syndicates	15 years	6 ¾-17 ½	17,454	14,668
Agreements for sale	30 years	5-16 ¾	17,394	15,084
			<u>3,847,805</u>	<u>3,482,006</u>

Agreements for sale of \$17,394,000 (1981—\$15,084,000) consists of \$10,156,000 (1981—\$7,278,000) pertaining to agreements for sale and mortgages arising from sales of real estate under the Farm Credit Act and \$7,238,000 (1981—\$7,806,000) pertaining to agreements for sale under the Small Farm Development Program.

A summary of long-term receivables in the aggregate, by annual interest rate and fiscal year of maturity, is as follows:

Annual interest rate %	Maturities by fiscal year (in thousands of dollars)						1988 through 2012
	Total	1983	1984	1985	1986	1987

At March 31, 1982, accrued interest of \$182,552,000 (1981—\$155,541,000) and arrearages of \$53,384,000 (1981—\$31,543,000) are included and are shown as maturing in the year ending March 31, 1983.

Prepayments of principal from borrowers of \$35,774,000 (1981—\$53,248,000) were received during the year and applied as a reduction of principal.

FARM CREDIT CORPORATION—Continued

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 1982—Continued

4. Real estate

This represents farm property held by the Corporation for resale and is carried at the lower of cost and net realizable value. It consists of property acquired in the process of administering the outstanding loans to farmers and to farm syndicates and must be disposed of by the Corporation within five years of acquisition or such further period as the Governor in Council may prescribe.

5. Fixed assets

	1982		1981	
	Cost	Accumulated Depreciation	Net	Net
	(in thousands of dollars)			
Furniture and equipment ..	1,517	974	543	440
Automobiles	8	2	6	1
Leasehold improvements ..	847	107	740	576
	<u>2,372</u>	<u>1,083</u>	<u>1,289</u>	<u>1,017</u>

6. Due to Canada

Pursuant to an agreement with the Department of Agriculture, the Corporation's continuing administrative costs relating to the Land Transfer Plan, a component of the Department's Small Farm Development Program which terminated on March 31, 1979, are reimbursed by the Department and any excess of income over expense is paid to Canada.

The amount due to Canada of \$232,000 (1981—\$148,000) in respect of operations during the year under this program is determined as follows:

	1982	1981
	(in thousands of dollars)	
Interest earned and other income	843	786
Less: interest on loans from Canada	<u>620</u>	<u>646</u>
Excess of income over interest expense	<u>223</u>	<u>140</u>
Funds received from Agriculture Vote 20 (1981—Vote 25)	40	40
Less: administrative expenses	<u>31</u>	<u>32</u>
	<u>9</u>	<u>8</u>
	<u>232</u>	<u>148</u>

7. Canada loans

The Corporation has borrowed funds, secured by note, from the Minister of Finance for the purpose of making farm loans, pursuant to section 13 of the Farm Credit Act and section 8 of the Farm Syndicates Credit Act. Loans are also outstanding that were borrowed for the purposes of the Small Farm Development Program pursuant to the Farm Credit Act, as authorized by Order in Council P.C. 1972-1490 dated June 29, 1972. These borrowings are repayable in accordance with the terms and interest rates prescribed at the time of borrowing.

Outstanding amounts as at March 31, 1982 are as follows:

	Period not exceeding	Annual interest rate %	Outstanding amount (in thousands of dollars)	
			1982	1981
Farm Credit Act	20 years	4-15¾	3,559,015	3,226,192
Farm Syndicates Credit Act	5 years	8½-16½	16,576	13,985
Small Farm Development Program	20 years	6-9	8,667	9,058
Accrued interest			<u>102,070</u>	<u>83,231</u>
			<u>3,686,328</u>	<u>3,332,466</u>

A summary of the Canada loans in the aggregate, by interest rate and fiscal year of maturity, is as follows:

Annual interest rate %	Maturities by fiscal year (in thousands of dollars)						1988 through 2003
	Total	1983	1984	1985	1986	1987

13-13½%	352,763	31,501	4,838	5,375	5,984	6,674	298,391
14-14½%							
15-15½%	170,069	6,518	1,469	1,709	1,989	2,315	156,069
16-16½%	1,878	258	360	360	360	360	180
	<u>3,686,328</u>	<u>262,316</u>	<u>163,621</u>	<u>174,458</u>	<u>185,503</u>	<u>173,701</u>	<u>2,726,729</u>

The amounts outstanding as at March 31, 1982, include accrued interest totalling \$102,070,000 (1981—\$83,231,000) and are shown as maturing in the year ending March 31, 1983.

FARM CREDIT CORPORATION—Concluded

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 1982—Concluded

8. Contributed capital

The contributed capital of the Corporation represents the amount received from Canada under Section 12 of the Farm Credit Act. The present statutory limit on this amount is \$150 million (1981—\$150 million). Subsequent to the year-end, the limit has been increased as described in Note 15. In the current

year, contributed capital of \$13.1 million (1981—\$10.4 million) was received from Canada.

9. Segmented information

Operations and retained earnings under the Farm Credit Act and the Farm Syndicates Credit Act are broken down as follows:

	Total		Farm Credit Act		Farm Syndicates Credit Act	
	1982	1981	1982	1981	1982	1981
(in thousands of dollars)						
Income						
Interest earned on loans	333,675	283,833	331,830	282,440	1,845	1,393
Deduct: interest on loans from Canada	302,736	254,580	301,006	253,288	1,730	1,292
Interest margin	30,939	29,253	30,824	29,152	115	101
Fees earned	1,037	964	1,037	964		
Other interest income and service charges	4,546	2,677	4,453	2,602	93	75
Gross income	36,522	32,894	36,314	32,718	208	176
Expenses	33,061	25,206	32,965	25,128	96	78
Net income before income taxes	3,461	7,688	3,349	7,590	112	98
Deferred income taxes	1,592	3,536	1,592	3,536		
Net income	1,869	4,152	1,757	4,054	112	98
Retained earnings, beginning of year	9,003	4,851	8,623	4,569	380	282
Retained earnings, end of year	10,872	9,003	10,380	8,623	492	380

10. Interest rates

Unless otherwise established by Order in Council, loans to farmers bear an interest rate from the date of approval equal to the base rate defined in section 3(2) of the Farm Credit Act Interest Rates Regulations plus one per cent. The base rate is determined using the average yield on Government of Canada bonds payable in Canadian currency and due to mature in five to ten years. The lending rate is established for six month periods commencing April 1st and October 1st each year and applies to all loans approved in the related six-month period.

However, if a new loan under the Farm Credit Act is made, a portion of which is to be used to repay an existing Farm Credit Act loan, the current lending rate and the rate on the existing loan are blended and a composite rate charged. Except for the provision for blended rates, rates on loans to farm syndicates are determined in the same manner using the yield on Government of Canada bonds maturing in one to five years plus one per cent.

Interest rates on borrowings from Canada by the Corporation under section 13 of the Farm Credit Act are established for six-month periods commencing April 1st and October 1st each year in accordance with the terms and conditions approved by the Governor in Council. Similarly, rates on borrowings under section 8 of the Farm Syndicates Credit Act are set on these dates for the same six-month periods.

11. Funding commitments by Canada

In addition to the repayments of principal received from borrowers, the Corporation also receives and is dependent upon Canada for capital contributions and loans for the funding of its lending program. Accordingly, by Order in Council, the Minister of Finance is committed to provide a net increase in capital and loans of \$349,300,000 for the year ending March 31, 1983.

12. Commitments to farmers

Loans to farmers approved but not disbursed as at March 31, 1982, amounted to \$79.3 million (1981—\$67.8 million) most of which were approved at 16¼% (1981—12¼%). It is expected that the majority of these loans will be disbursed within the six-month

period ending September 30, 1982, from funds to be borrowed by the Corporation from Canada at 15½% (1981-13%).

13. Operating leases

The future minimum lease payments required under operating leases having initial non-cancellable lease terms in excess of one year are as follows:

	(in thousands of dollars)
Year ending March 31	
1983	1,280
1984	1,041
1985	945
1986	741
1987	640
Thereafter	3,542
	8,189

These leases generally provide for the payment by the Corporation of real estate taxes and operating expenses in excess of those amounts established at the commencement of the lease term.

14. Comparative figures

Certain figures for the previous year have been reclassified to conform to the current year's presentation.

15. Amendments to the Farm Credit Act

The Farm Credit Act was amended subsequent to March 31, 1982 to increase the Corporation's authorized capital from \$150 million to \$225 million. As a consequence, the Corporation's borrowing capacity has been increased from \$3.750 billion to \$5.625 billion.

In addition to its present authority to borrow funds from the Minister of Finance, the amended legislation provides that the Corporation may borrow funds from other sources with the approval of the Minister of Finance.

FEDERAL BUSINESS DEVELOPMENT BANK

AUDITOR'S REPORT

THE HONOURABLE MINISTER OF INDUSTRY
TRADE AND COMMERCE

I have examined the statement of assets and liabilities of the Federal Business Development Bank as at March 31, 1982 and the statements of operations, deficit and changes in cash position for the year then ended. My examination was made in accordance with generally accepted auditing standards and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present a true and fair view of the financial position of the Bank as at March 31, 1982 and the results of its operations and the changes in its cash position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Bank, the financial statements are in agreement therewith and the transactions that have come under my notice have been within the statutory powers of the Bank.

CLAUDE D. HENRY, C.A.
of Maheu, Noiseux

FEDERAL BUSINESS DEVELOPMENT BANK—Continued

NOTES TO FINANCIAL STATEMENTS
AS AT MARCH 31, 1982

1. Objectives and operations of the Corporation

Federal Business Development Bank is a Crown corporation wholly-owned by the Government of Canada, which was established December 20, 1974 by the Federal Business Development Bank Act, as the successor to the Industrial Development Bank which commenced operations in 1944.

The objectives of the Bank, as stated in the Act, are to promote and assist in the establishment of business enterprises in Canada by providing financial assistance, management counselling, management training, information and advice; giving particular consideration to the needs of small business enterprises.

The Bank's lending and venture capital investment operations are carried out by Financial Services. Management Services includes counselling, training and information services. A separate statement of operations is shown for Management Services since it is funded directly by Parliamentary appropriation.

Federal Business Development Bank is for all purposes an agent of the Government of Canada, and as such all liabilities of the Corporation are direct obligations of the Government of Canada.

The Bank is exempt from income taxes.

2. Significant accounting policies

Loans and venture capital investments

Loans and venture capital investments are recorded at principal amounts.

Provision for losses on loans and for write-downs of venture capital investments

A charge against income is made to adjust the accumulated provision for possible future losses to the level which provides for specifically identified probable losses on loans, as well as for unidentified future losses and to reflect write-downs of venture capital investments. The general portion of the accumulated provision is based on historical experience and is intended to cover future losses on loans and venture capital investments which have not yet been specifically identified. Write-downs of venture capital investments are recorded whenever a significant negative change occurs, or appears likely to occur, in the investee's business development plan.

Revenue recognition

Interest on loans is recorded as income on an accrual basis except that interest is not accrued on loans where management believes that the interest will not be recovered. Dividends, interest and capital gains on venture capital investments are recorded as income when received.

Fixed assets and depreciation

Fixed assets are recorded at cost. Depreciation is charged against income using either the straight-line or diminishing balance methods in amounts sufficient to amortize the cost of fixed assets over their estimated useful lives.

With respect to the Management Services function of the Bank, all capital expenditures are recovered from the Department of Industry, Trade and Commerce and hence are not capitalized.

Debt issue expenses

Discounts, premiums and expenses related to the issue of the long term debt are amortized on a straight-line basis over the term of the obligations to which they pertain and charged to interest expense.

Translation of foreign currencies

Notes payable in foreign currencies are hedged by forward exchange contracts and are translated into Canadian dollars at

the rates provided therein. The difference between the ultimate amount payable at the contracted rate and the cash proceeds of the issue is considered to be a financing cost and is therefore amortized by a charge to interest expense over the life of the obligation on a straight-line basis. The unamortized portion of these costs is included with unamortized debt issue expenses in the statement of assets and liabilities. The related interest payable on these note issues is also hedged by forward exchange contracts and is translated into Canadian dollars at such contract rates.

3. Venture capital investments

	(in thousands of dollars)	
	1982	1981
Shares	15,522	11,264
Shareholder advances	17,711	16,213

	1983	1984	1985	1986	1987	
8-8½ %	53,000	54,000	36,000	34,000		177,000
9-9½ %	75,000	75,000	78,000	43,000	43,000	314,000
10-10½ %	43,000	43,000	43,000	42,000	50,000	272,000
	171,000	172,000	157,000	119,000	93,000	763,000

6. Notes payable, other than to Canada

Maturities by fiscal year were as follows:

Rate %	(in thousands of dollars)				Total
	1984	1985	1986	1987	
10.1-11¼ %		50,000	113,000	3,000	275,000
12¼-13½ %	65,000	65,000	151,870		281,870
14-15¼ %	75,000	83,060		124,350	282,410
17¼ %				40,000	40,000
	140,000	198,060	264,870	167,350	879,280

The above includes notes payable of US \$265,000,000.

7. Capital paid in by Canada

	(in thousands of dollars)	
	1982	1981
Balance, beginning of year	222,000	184,000
Add:		
Cash paid in	46,000	31,000
Conversion of notes held by Canada		7,000
	46,000	38,000
Balance, end of year	268,000	222,000

8. Contingent liabilities and commitments

The Bank is contingently liable as guarantor of loans aggregating \$19,448,750.

The undisbursed amount at March 31, 1982 on loans and venture capital investments authorized aggregated \$106,045,000 (1981—\$104,000,000).

9. Pension fund

The Bank has a pension plan for its employees which is contributory and trustee. Related costs, net of employees' contributions, are charged to earnings as paid. Based on an independent actuarial valuation as at December 31, 1981, the plan was fully funded at that date.

10. Statutory limitations on operations

In accordance with the Federal Business Development Bank Act the Minister of Finance of Canada may, with the approval of the Governor in Council, authorize capital payments to the Bank provided that capital (including deficit) is less than \$475 million. The total of direct and contingent liabilities of the Bank is limited to a maximum of 12 times such capital and deficit (or up to 15 times with the approval of the Governor in Council) and may never exceed \$3.2 billion. The ratio of the direct and contingent liabilities of the Bank to its capital, as defined, was 11.1:1 at March 31, 1982.

11. Venture Capital Division

Included within the statement of operations for Financial Services are the results of the Venture Capital Division which are segregated below. The Venture Capital Division is responsible for all venture capital customers, including the associated regular loans that form part of their financing arrangement.

**RESULTS OF VENTURE CAPITAL DIVISION
FOR THE YEAR ENDED MARCH 31
(in thousands of dollars)**

	1982	1981
Income		
Loans	3,637	3,003
Venture capital investments	1,065	2,022
	4,702	5,025
Interest expense	6,193	5,138
Net interest expense	1,491	113
Provision for losses on loans and for write-downs of venture capital investments	8,024	4,635
Net interest expense after provision and write-downs	9,515	4,748
Non-interest expenses		
Salaries and other staff benefits	2,095	1,625
Other expenses	757	501
Net loss for the year	12,367	6,874

12. Comparative financial data

Certain amounts pertaining to the fiscal year ended March 31, 1981 have been reclassified to comply with the presentation adopted for the fiscal year ended March 31, 1982. For the purpose of determining the bank's floating rate, net non-interest expenses is identical to net operating expenses.

FRESHWATER FISH MARKETING CORPORATION (Established by the Freshwater Fish Marketing Act)

AUDITOR'S REPORT

THE HONOURABLE ROMÉO LEBLANC, P.C., M.P.
MINISTER OF FISHERIES AND OCEANS

I have examined the balance sheet of the Freshwater Fish Marketing Corporation as at April 30, 1981 and the statements of operations, retained earnings and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Corporation as at April 30, 1981 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

KENNETH M. DYE
Auditor General of Canada

The accompanying notes are an integral part of the financial statements.

**NOTES TO FINANCIAL STATEMENTS
APRIL 30, 1981****1. Objectives and operations of the Corporation**

The Freshwater Fish Marketing Corporation was established by the Freshwater Fish Marketing Act in February 1969 as a company without share capital for the purpose of marketing and trading in fish, fish products and fish by-products in and out of Canada. The Corporation is a proprietary Crown corporation of Canada and is required to conduct its operations on a self-sustaining basis. Total loans outstanding from Canada and from banks may not exceed \$18 million.

The Corporation has the exclusive right to market the products of the commercial fishery in the provinces participating in the program in inter-provincial and export trade. Participation of the provinces of Manitoba, Saskatchewan, Alberta, the Northwest Territories and Ontario was established by agreement with the Government of Canada.

2. Significant accounting policies**Inventory**

Inventories have been valued on the following bases:

Finished fish products—At lower of cost and net realizable value.

Packaging material and parts—At lower of cost and replacement cost.

Depreciation and amortization

The cost of fixed assets is written off by depreciation charges over the estimated useful lives of the fixed assets on the following bases:

Buildings	—Lake stations	10%	Straight-line
	—Plant	40 years	Straight-line
Equipment	—Plant	20%	Declining balance
	—Mobile	30%	Declining balance
Packer vessel		15 years	Straight-line

Leasehold improvements are amortized on a straight-line basis over the term of the lease. Lease terms vary in length from 2 years to 20 years.

Payments to fishermen

The Corporation purchases fish at initial prices established by the Board of Directors and the cost of such purchases is included in the Statement of Operations as part of Cost of Sales. A guide used in the determination of the initial prices is 80% of the projected total payments to fishermen (initial plus final) based upon forecasts prepared by the Corporation. Final payments, if any, to fishermen are determined by the Board after the end of the year, based on the results of operations for the year. The final payments are made in respect of products purchased during the year and therefore are charged to expense in the current year's Statement of Operations.

Foreign currency translation

Accounts receivable and payable in foreign currency are translated to Canadian dollars at the year end exchange rate. Transactions in foreign currency during the year are translated at the rate in effect at the time of the transaction.

3. Interest expense

The net gain on foreign exchange for the year amounted to \$76,731 (\$91,564—1980). Interest expense of \$740,820 (\$647,572—1980) has been reduced by this amount.

FRESHWATER FISH MARKETING CORPORATION—Concluded

NOTES TO FINANCIAL STATEMENTS

APRIL 30, 1981—Concluded

4. Mortgage loan receivable

Accounts receivable—Other—Includes \$149,000 (\$136,000—1980) which is a loan secured by a chattel mortgage. The loan, which was to be repaid by May 1, 1984 in monthly instalments, is in default, and the Corporation is proceeding with litigation.

5. Contributions receivable

The Corporation operates certain fish packing and processing plants which, due to their remoteness, incur excessive freight and other costs. These amounts are expected to be recovered from various federal and provincial government departments upon whose support the existence of these operations depends. In the event that these amounts cannot be collected from governments, the Corporation will seek to recover these amounts from fishermen's final payments.

The Corporation has received agreement from federal and provincial governments for contributions to offset costs incurred by the Corporation in operating certain of its fish packing and processing plants, as follows:

	1981	1980
	\$	\$
Island Lake, Manitoba	210,000	227,000
Gunnar, Saskatchewan		155,000
Hay River, N.W.T.		23,000
	<u>210,000</u>	<u>405,000</u>

During the year, a total of \$210,000 (\$317,000—1980) in government assistance has been offset against costs included in the Cost of Sales section of the Statement of Operations.

6. Fixed assets

At April 30, 1981 the fixed assets and related accumulated depreciation and amortization were as follows:

	1981		1980	
	Cost	Accumulated depreciation and amortization	Net book value	Net book value
	\$	\$	\$	\$
Land	259,266		259,266	259,266
Buildings	4,402,312	1,105,941	3,296,371	3,350,395
Equipment	4,011,263	2,618,672	1,392,591	1,488,801
Packer vessel	267,490	163,864	103,626	121,761
Construction in progress	30,214		30,214	75,123
Leasehold improvements	480,072	306,343	173,729	154,676
	<u>9,450,617</u>	<u>4,194,820</u>	<u>5,255,797</u>	<u>5,450,022</u>

Leasehold improvements

The Corporation has spent \$1,208,319 on land and a processing plant constructed for the Department of Indian Affairs and Northern Development at Hay River, N.W.T. Under a twenty-year agreement dated July 1, 1972 the Department has leased this property back to the Corporation for one dollar (\$1.00) per year. The Corporation has received \$1,000,000 from the Department and the balance of \$208,319 is being amortized as a leasehold improvement over the term of the lease.

Depreciation and amortization for the year

	1981	1980
	\$	\$
Depreciation	498,394	501,496
Amortization	35,655	45,771
	<u>534,049</u>	<u>547,267</u>

7. Loans from Canada

These demand loans, secured by promissory notes, are made under Section 17 of the Act. At April 30, 1981 the outstanding loans included the following:

	Amount	Interest Rate
	\$	%
Working capital loans	650,000	13½
	2,100,000	13½
	3,600,000	14
	<u>6,350,000</u>	
Fixed asset loans	1,274,729	4½
	158,000	7½
	801,044	8½
	623,000	9½
	300,000	10½
	1,191,122	10½
	408,108	14
	<u>4,756,003</u>	

In general, fixed asset loans are repaid in amounts equal to the sum of the annual provision for depreciation on all fixed assets and proceeds derived from fixed asset transactions. The amount due on June 1st, 1981 is approximately \$534,000.

8. Remuneration to foreign agents

During the year, the Corporation paid an aggregate amount of \$535,039 (\$382,677—1980) to the following foreign sales agents: L.H. Frohman & Sons; Juhl Brokerage Incorporated; Bill Bush & Associates; International Pacific Seafoods; Maripac International; Sahakian & Salm; Three Crown Sales, Inc.; D/S Food Marketing, Inc.; Sid Alpers Sales Company; Ocean Fresh Seafoods, Inc.;—U.S. I. Le Grande, H. Malo et Cie—France; Lejos Oy—Finland; Malm & Stahl—Sweden; Rud Kanzow GmbH & Co.—Germany.

9. Comparative figures

Certain of the 1980 comparative figures have been reclassified to conform with the 1981 presentation.

10. Corporate income taxes

Net income for the year is \$281,550 (\$421,918—1980). In arriving at this figure income taxes for the year of \$50,000 (\$154,000—1980) have been offset by a tax recovery due to the application of tax losses carried forward from prior years. Operating income for the year after taxes but before tax recoveries is \$231,550 (\$267,918—1980).

The Corporation has the following amounts available to reduce future taxable income:

Undepreciated capital cost in excess of net book value of fixed assets \$3,477,000.

A loss carry-forward of \$236,294 available until April 1983.

GREAT LAKES PILOTAGE AUTHORITY, LTD.*(Continued under the Canada Business Corporations Act)***AUDITOR'S REPORT**

THE HONOURABLE JEAN-LUC PEPIN, P.C., M.P.
MINISTER OF TRANSPORT

I have examined the balance sheet of Great Lakes Pilotage Authority, Ltd. as at December 31, 1981 and the statements of operations, deficit and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Authority as at December 31, 1981 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Authority, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

GREAT LAKES PILOTAGE AUTHORITY, LTD.—*Concluded*

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 1981

1. Nature of activities

The Great Lakes Pilotage Authority was established on February 1, 1972 pursuant to the Pilotage Act and incorporated as a limited company on May 17, 1972. Great Lakes Pilotage Authority, Ltd. is a subsidiary of the St. Lawrence Seaway Authority and is continued under the Canada Business Corporations Act.

The objectives of the Authority are to establish, operate, maintain and administer a safe and efficient pilotage service within designated Canadian waters. The Act further provides that the tariffs of pilotage charges shall be fair and reasonable and consistent with providing a revenue, together with any revenue from other sources, sufficient to permit the Authority to operate on a self-sustaining financial basis.

2. Significant accounting policies

Parliamentary appropriations

When the income from pilotage charges is not sufficient to permit the Authority to operate on a self-sustaining financial basis, operating losses and capital expenditures are recovered from parliamentary appropriations. For the purposes of these parliamentary appropriations, operating losses do not include depreciation or any increase in accrued employee termination benefits.

Parliamentary appropriations with respect to operating losses are reflected in the statement of deficit, while parliamentary appropriations to finance capital expenditures are shown as contributed capital. Parliamentary appropriations are recorded in the accounts when received.

Depreciation

Depreciation of fixed assets is calculated on a straight-line basis and is based on the estimated useful life of the assets as follows:

Buildings	20 years
Furniture and equipment	5 to 10 years

Pension plan

All employees of the Authority are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required from both the employee and the Authority. Contributions with respect to current service are expensed in the current period. Contributions with respect to past service benefits are expensed when paid, generally over the remaining service lives of the employees.

Employee termination benefits

Employees of the Authority are entitled to specified benefits on termination as provided for under labour contracts and conditions of employment. The liability for these benefits is recorded in the accounts as the benefits accrue to the employees.

3. Income tax

As a result of an amendment to sub-section 27(2) of the Income Tax Act in 1979, Revenue Canada had taken the position that the Authority may be liable for taxes, however, Revenue Canada has now confirmed the Authority's tax exempt status.

4. Pension plan

Under provisions of the Pilotage Act, pilots who choose to become employees of the Authority are entitled to count service prior to becoming an employee as pensionable under the Public Service Superannuation Act. For pilots who have elected to purchase pension benefits with respect to past service, the Authority is required to match the employee contribution. The estimated unfunded past service pension contribution with respect to these employees was approximately \$625,900 as of December 31, 1981 (1980—\$709,000) and will be funded over the remaining service

lives of the pilots, or the terms of purchase whichever is the lesser.

The total pension expense was \$547,091 in 1981 and \$545,372 in 1980 including \$83,235 and \$94,045 for past service contributions respectively.

5. Remuneration of directors and officers

The remuneration of directors as directors amounted to \$5,250 (1980—\$3,000) and the remuneration of officers as officers amounted to \$150,000 (1980—\$134,000). The Authority has seven directors and four officers. Two officers are also directors.

6. Related party transactions

The Authority receives certain administrative services from its parent company The St. Lawrence Seaway Authority. During 1981 the cost of these services was \$2,450 (1980—\$1,000).

7. Subsequent event

The Authority has applied for a parliamentary appropriation to recover its 1981 operating loss less the items which do not require an outlay of funds.

The Authority received Treasury Board approval on January 14, 1982 to borrow from the Government Contingency Fund amounts to cover its 1981 operating loss. The funds borrowed are to be repaid on approval of the supplementary estimate.

8. Comparative figures

To conform to the financial statement presentation of 1981, changes have been made to the classification of certain items and comparative figures.

THE HONOURABLE JEAN-LUC PEPIN, P.C., M.P.
MINISTER OF TRANSPORT

I have examined the balance sheet of The Jacques Cartier and Champlain Bridges Incorporated as at March 31, 1982 and the statements of operations, deficit and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Corporation as at March 31, 1982 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

KENNETH M. DYE
Auditor General of Canada

Ottawa, Ontario
April 30, 1982

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1982

1. Authority and activities

The Jacques Cartier and Champlain Bridges Incorporated was established under the Canada Business Corporations Act on November 3, 1978 and is a wholly owned subsidiary of The St. Lawrence Seaway Authority, which is a federal Crown corporation named in Schedule D of the Financial Administration Act.

The Corporation is dependent on the Government of Canada for its financing.

Effective December 1, 1978 the Corporation assumed the responsibility for the operation and maintenance of the Jacques Cartier and Champlain Bridges and of the section of the Bonaventure Autoroute owned by the Government of Canada.

2. Significant accounting policies

(a) Fixed assets

Fixed assets acquired from the National Harbours Board on December 1, 1978 were recorded at their then book values. Fixed assets acquired subsequently by the Corporation are recorded at cost.

Fixed assets are depreciated using the straight-line method, at the following rates:

Jacques Cartier Bridge	4.8%
Champlain Bridge	2.5%
Vehicles and equipment	10% and 20.0%

The section of the Bonaventure Autoroute for which the Corporation is responsible is fully depreciated.

(b) Parliamentary appropriation

The parliamentary appropriation is recorded on a cash basis.

The parliamentary appropriation covering the operating deficit is reflected in the statement of deficit. In this regard, operating expenditures do not include depreciation, interest on loans or any provision for accrued employee termination benefits.

The parliamentary appropriation for financing fixed assets is credited to the capital deficiency.

Any parliamentary appropriation* received by the Corporation in excess of its needs is recorded on the balance sheet as an amount due to Canada. It is the Corporation's policy to reimburse this amount in the following fiscal year.

(c) Deferred revenues

The value of unredeemed toll tokens and tickets as well as rental revenues collected in advance are recorded on the balance sheet as deferred revenues.

(d) Employee termination benefits

On termination of employment, employees of the Corporation are entitled to certain benefits provided under their collective agreements and their conditions of employment. The cost of these benefits is expensed in the year in which they are earned by the employees.

THE JACQUES CARTIER AND CHAMPLAIN BRIDGES INCORPORATED—Concluded

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 1982—Concluded

(e) Pension plan

Employees of the Corporation participate in the superannuation plan administered by the Government of Canada. The employees and the Corporation contribute equally to the cost of the plan. This contribution represents the total liability of the Corporation. Contributions in respect of current service are expensed in the year in which services are rendered. Those in respect of admissible past service are expensed when paid; the terms of payment are set by the applicable purchase conditions, generally over the number of years of service remaining prior to retirement.

(f) Expenses

Expenses incurred with respect to the section of the Bonaventure Autoroute for which the Corporation is responsible are included with those for the Champlain Bridge.

(g) Income taxes

As a federal Crown corporation, the Corporation is not subject to provincial income tax. The corporation has incurred substantial losses in prior years which can be carried forward and applied against taxable income of future years.

3. Loans from Canada

	\$
Certificate of indebtedness	59,752,867
Advance	6,489,605
	<u>66,242,472</u>

During the year and retroactive to April 1, 1981, certificates of indebtedness totalling \$59,752,867, bearing interest from 2½% to 6½%, were cancelled and replaced by a single non-interest bearing certificate. This certificate, similarly to preceding ones, does not carry a definite due date nor terms of repayment.

The advance of \$6,489,605, which bears no interest, was recorded in the accounts of Canada as a non-active loan and was charged to the accumulated deficit of Canada when it was made.

4. Interest in arrears

The accumulated simple interest of \$44,513,580 as at March 31, 1982 is recorded on the balance sheet as long-term since the Corporation does not foresee paying it, in whole or in part, during the next fiscal year. This interest of \$44,513,580 does not include the interest since 1962 on a 2½% loan in the amount of \$7,576,000 issued with respect to the Jacques Cartier Bridge. The recording of this interest was discontinued when the tolls on this bridge were abolished.

5. Capital deficiency

When the Corporation took possession of its fixed assets on December 1, 1978, it also assumed the related debt obligations. The excess of such debts over the book value of the assets acquired at that date amounted to \$72,448,371 and was recorded as a capital deficiency. The capital deficiency was reduced during the year by \$30,445 (\$255,976 in 1981) representing the parliamentary appropriation covering the acquisition of fixed assets.

6. Related party transactions

The Corporation has agreed to maintain the portion of the Mercier Bridge belonging to, and for the account of, its parent company. Expenses so incurred during the year in the amount of \$742,806 (\$331,651 in 1981) have been recovered and thus had no effect on operating results.

During the year, the Corporation received administrative services from its parent company totalling \$500,000 (\$400,000 in 1981). As at March 31, 1982 an unpaid balance of \$49,521 (nil as at March 31, 1981) is shown as a current liability.

During the year, the Corporation received operating services from the National Harbours Board totalling \$1,827,129 (\$1,481,331 in 1981). As at March 31, 1982 an unpaid balance of \$174,278 (\$213,572 as at March 31, 1981) is included with accounts payable.

7. Commitments

The Corporation has entered into long-term leases for the rental of facilities and equipment used in the course of its activities. The aggregate minimum annual rentals which will be paid in the following years are:

	\$
1982-83	240,330
1983-84	79,690
1984-85	6,120

The Corporation's other contractual obligations as at March 31, 1982 amount to approximately \$2,800,000.

8. Contingencies

Claims and lawsuits arising in the normal course of operations have been brought against the Corporation. Management is of the opinion that the resolution of these actions will not result in any material loss to the Corporation. No provision has been recorded in the accounts.

LAURENTIAN PILOTAGE AUTHORITY
(Established under the Pilotage Act)

AUDITOR'S REPORT

THE HONOURABLE JEAN-LUC PEPIN, P.C., M.P.
MINISTER OF TRANSPORT

I have examined the balance sheet of Laurentian Pilotage Authority as at December 31, 1981 and the statements of operations, retained earnings and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Authority as at December 31, 1981 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Authority, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1981

1. Nature of activities

The Laurentian Pilotage Authority was established on February 1, 1972 under the Pilotage Act. Its objectives are to establish, operate, maintain and administer, in the interest of navigational safety, an effective pilotage service within certain designated Canadian waters in and around the Province of Quebec. The Act provides that pilotage tariffs shall be fair and reasonable and assure a revenue which, together with any revenue from other sources, is sufficient to permit the Authority to operate on a self-sustaining basis.

2. Significant accounting policies

(a) Fixed assets

Fixed assets obtained from Canada when the Authority was established were recorded at the then assigned values. Purchases of fixed assets acquired subsequently by the Authority are recorded at cost.

Fixed assets are depreciated using the straight-line method, at rates based on the estimated useful lives of the assets.

(b) Contributed capital

The values assigned to the fixed assets obtained from Canada when the Authority was established and the cost of fixed assets financed from parliamentary appropriations are recorded as contributed capital.

(c) Services provided without charge

Estimated amounts for the rental of office space and other services provided without charge by government departments are included in expenses with an offset to retained earnings.

LAURENTIAN PILOTAGE AUTHORITY—Concluded

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 1981—Concluded

(d) Pension plan

Employees of the Authority participate in the Superannuation Plan administered by the Government of Canada. The employees and the Authority contribute equally to the cost of the Plan. This contribution represents the total liability of the Authority. Contributions in respect of current service and of admissible past service are expensed when paid. The terms of payment of past service contributions are set by the applicable purchase conditions, generally over the number of years of service remaining prior to retirement.

(e) Employee termination benefits

On termination of employment, employees of the Authority are entitled to certain benefits provided for under their collective agreements and their conditions of employment. The cost of these benefits is expensed in the year in which they are earned.

(f) Income tax

The Authority is not subject to any income taxes.

3. Fixed assets

(a) Details of fixed assets are as follows:

	1981		1980	
	Cost	Accumulated Depreciation	Net	Net
	\$	\$	\$	\$
Land	9,300		9,300	9,300
Buildings	23,622	16,631	6,991	8,668
Pilot boats	891,455	207,874	683,581	314,762
Furniture and fixtures	52,872	39,706	13,166	21,766
Communications equipment	153,819	62,142	91,677	76,851
Boarding facilities	191,864	44,722	147,142	161,299
Wharf improvements	169,033	8,452	160,581	
Automobiles	43,039	12,912	30,127	2,484
Leasehold improvements	34,756	10,928	23,828	31,884
	<u>1,569,760</u>	<u>403,367</u>	<u>1,166,393</u>	<u>627,014</u>

Depreciation for the year is \$134,493 (1980—\$69,092)

(b) The estimated useful lives for the principal categories of fixed assets for the purposes of calculating depreciation are as follows:

Buildings	20 years
Pilot boats	10 and 20 years
Furniture and fixtures	10 years
Communications equipment	10 years
Boarding facilities	10 and 20 years
Wharf improvements	20 years
Automobiles	4 years
Leasehold improvements	duration of the leases

4. Pension plan

The estimated unrecorded liability for employees' past services is \$137,000 at December 31, 1981 (\$152,000 at December 31, 1980).

5. Extraordinary item

During the year, the Authority received \$177,475, net of certain expenditures, in final settlement of a claim for costs incurred and reward to rescue a ship in distress in 1978.

LOTO CANADA INC.

(Incorporated under the Canada Business Corporations Act)

THE AUDITED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 1982
WERE NOT AVAILABLE AT DATE OF PRINTING

LOTO CANADA INC.*(Incorporated under the Canada Business Corporations Act)***AUDITOR'S REPORT**

THE HONOURABLE GERALD A. REGAN, P.C., Q.C., M.P.
 SECRETARY OF STATE OF CANADA AND MINISTER
 RESPONSIBLE FOR FITNESS AND AMATEUR SPORT

I have examined the balance sheet of Loto Canada Inc. as at March 31, 1981 and the statement of income for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Corporation as at March 31, 1981 and the results of its operations for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation and the financial statements are in agreement therewith. The transactions that have come under my notice have been within the statutory powers of the Corporation except for the sports pool scheme research and development payments described in Note 2 to the financial statements. In my opinion, although recovered by the Corporation, these payments were not specifically authorized by the Corporation's Articles of Incorporation, which restrict the business that the Corporation may conduct and manage, and were consequently contrary to the provisions of the Canada Business Corporations Act.

Net income for the year (Note 3)	4,245,578	46,323,143

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1981

1. Termination of lottery operations

Loto Canada Inc. was established as a Crown Corporation under the provisions of Appropriation Act No. 4, 1976 and was incorporated under the provisions of the Canada Business Corporations Act on June 7, 1976. The Corporation's objective was to conduct and manage a national lottery in accordance with the National Lottery Regulations as authorized by the Criminal Code.

In August 1979, federal and provincial government representatives signed a document whereby Loto Canada Inc. would withdraw from the sale of lottery tickets effective December 31, 1979 and the Government of Canada would cause the Corporation to be wound up after that date as quickly as legal, financial and administrative requirements permit. The Shareholder of the Corporation directed the Board of Directors to commence the orderly windup of the operations and, therefore, the lottery operations were terminated effective December 31, 1979.

The resulting termination costs for employees, premises and other claims amounted to \$1,756,933. Furniture and equipment were disposed of in accordance with the provisions of the Surplus Crown Assets Act. Also with the termination of the lottery operations, the "provision for prizes—future draws" in the amount of \$7,007,311 was no longer necessary. The net effect amounting to \$5,250,378 was shown as extraordinary income in 1980.

In accordance with the National Lottery Regulations, the right to claim prizes expired on December 31, 1980, therefore, unclaimed prizes as of that date in the amount of \$3,065,942 are shown as extraordinary income in 1981.

2. Research and development

During the year, the Corporation financed research on gaming concepts including research and development of a sports pool scheme. This financing continued subsequent to the year end and in August 1981 Cabinet decided that this sports pool scheme would be operated by a new federal agency. In September 1981, the Corporation decided that all payments made on the sports pool research and development scheme should be fully recovered from the Government of Canada. Payments made for research and development of the sports pool scheme amounting to \$1,200,000 up to June 1, 1982, including \$143,000 up to March 31, 1981, have been fully recovered from the Government of Canada subsequent to the year end.

Legal opinions were obtained with respect to the statutory powers of the Corporation to finance the research and development of a sports pool scheme. While the legal opinions obtained

differ, the Corporation takes the position that the financing of this research and development was a business decision within the general powers of the Corporation and in support of the intention of the Federal Government.

3. Due to Receiver General for Canada

	1981	1980
	\$	\$
Balance (due from) beginning of the year ..	12,898,179	(2,108,543)
Net income for the year	4,245,578	46,323,143
	17,143,757	44,214,600
Funds remitted during the year	(5,890,868)	(31,316,421)
Balance end of the year	11,252,889	12,898,179

4. Related party transactions

A certain part of the research and development activities related to the sports pool scheme described in Note 2 in the amount of \$127,000 up to March 31, 1981 was conducted by a firm owned and operated by a member of management.

Transactions with the Government of Canada are disclosed in Notes 2 and 3.

5. Contingent liability

In 1980, certain ticket wholesalers who were operating in provinces other than Quebec commenced legal proceedings against the Corporation for alleged damages in the amount of \$4,175,000. This litigation will continue to be contested and its outcome is unknown at this time.

6. Subsequent event

In August 1981, the Corporation obtained a discontinuance of claims for alleged damages in the amount of \$5,900,000. These claims were filed against the Corporation in 1980 by certain ticket wholesalers who were operating in the Province of Quebec.

7. Comparative figures

Certain comparative figures for 1980 have been reclassified to conform with the 1981 presentation.

SCHEDULE OF SELLING AND ADMINISTRATION EXPENSES FOR THE YEAR ENDED MARCH 31, 1981

NATIONAL BATTLEFIELDS COMMISSION

(Established under the Act respecting the National Battlefields at Quebec)

AUDITOR'S REPORT

THE HONOURABLE JOHN ROBERTS, P.C., M.P.
MINISTER OF THE ENVIRONMENT

I have examined the balance sheet of the National Battlefields Commission as at March 31, 1982 and the statements of operations, equity of Canada and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Commission as at March 31, 1982 and the results of its operations and the changes in its financial position for the year then ended in accordance with accounting policies set out in Note 2, applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Commission, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

KENNETH M. DYE
Auditor General of Canada

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1982

1. Authority and activities

The Commission was established in 1908 under the Act respecting The National Battlefields at Quebec for the purpose of acquiring, preserving and developing an historic battlefields park at Quebec.

The Commission is a Crown corporation included in Schedule C of the Financial Administration Act.

2. Significant accounting policies

(a) Supplies and small tools

Supplies and small tools are valued at the lower of average cost and replacement value.

(b) Fixed assets

Fixed assets are financed by parliamentary appropriations and are accounted for at cost. No depreciation is recorded in the accounts.

(c) Parliamentary appropriation

The parliamentary appropriation is credited to the Equity of Canada in the year to which it applies.

(d) Employee termination benefits

On termination of employment, employees of the Commission are entitled to certain benefits provided for under their collective agreement and their conditions of employment. The cost of these benefits is expensed in the year in which they are earned.

NATIONAL BATTLEFIELDS COMMISSION—*Concluded*

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 1982—*Concluded*

(c) Pension plan

The employees of the Commission participate in the superannuation plan administered by the Government of Canada. The employees and the Commission contribute equally to the cost of the plan. This contribution represents the total liability of the Commission. Contributions in respect of current service are expensed during the year in which services are rendered. With respect to admissible past service, contributions are expensed when paid; the terms of payment are set by the applicable purchase conditions.

(f) Special Land Purchase Fund

Funds have been received from provincial and municipal government and other administrations for the specific purpose of acquiring certain lands. These funds, together with revenue earned from the investment of such funds, are recorded in a special fund. Investments held are carried at cost; interest is recorded on a cash basis.

3. Fixed assets

Details of fixed assets are as follows:

	1982	1981
	\$	\$
Land	724,710	724,710
Buildings	206,481	190,422
Roadways, driveways and landscaping	883,086	873,096
Equipment.....	715,072	696,118
	<u>2,529,349</u>	<u>2,484,346</u>

4. Contingencies

(a) Pension plan

The right for seasonal employees to participate in the superannuation plan administered by the Government of Canada has been recognized. However, the terms governing the contributions from the employees and the Commission with respect to past services have not yet been determined. As at March 31, 1982, the Commission estimates its liability at \$35,000 (\$50,000 as at March 31, 1981) should all employees decide to purchase their admissible past services. No liability has been recorded in the accounts.

(b) Real estate taxes

The cities of Quebec and Sillery have applied to the Commission for grants totalling \$2,494,000 in lieu of real estate taxes for the calendar years 1980, 1981 and 1982. The Commission is of the opinion that Parliament will provide a special appropriation in the event that a decision is made to accede to these applications; therefore, no liability has been recorded in the accounts.

NATIONAL CAPITAL COMMISSION

(Established by the National Capital Act)

AUDITOR'S REPORT

THE HONOURABLE PAUL COSGROVE, P.C., M.P.
MINISTER OF PUBLIC WORKS

I have examined the balance sheet of the National Capital Commission as at March 31, 1982 and the statements of operations, proprietor's equity and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Commission as at March 31, 1982 and the results of its operations and the changes in its financial position for the year then ended in accordance with the accounting policies set out in Note 2 to the financial statements, applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Commission, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers except that funds in the amount of \$2.9 million in 1981-82 (\$2.6 million in 1980-81) were used to repay loans from Canada rather than being used either for operating expenditures authorized by Parliament, or returned to the Consolidated Revenue Fund in accordance with the Appropriation Acts and Section 30 of the Financial Administration Act.

NATIONAL CAPITAL COMMISSION—Continued

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1982

1. Authority and Objectives

The National Capital Commission was established by the National Capital Act, 1958 and is an Agency Corporation under the Financial Administration Act. The objects and purposes of the Commission are to prepare plans for and assist in the development, conservation and improvement of the National Capital Region in order that the nature and character of the seat of the Government of Canada may be in accordance with its national significance.

2. Significant Accounting Policies

(a) Basis of Accounting

Revenues and expenditures of the Commission are recorded on an accrual basis.

(b) Capital Assets

(i) Real Property

Acquisitions of real property are charged to the capital appropriation when incurred and also recorded as capital assets, at cost. The cost of real property does not include interest on loans to finance the acquisitions thereof. Only those expenditures producing Commission-held real property are capitalized; studies and contributions to the works of other authorities are not capitalized.

Gains or losses on disposal of real property are reflected in the Statement of Proprietor's Equity and the assets are credited with the cost of the property disposed.

Prior to March 31, 1974 full proceeds from disposal of part of the property were credited to the assets account. Properties acquired prior to March 31, 1974, and retained by the Commission, have been restated at historical cost and the prior years' adjustment is presented in the Statement of Proprietor's Equity.

(ii) Equipment, Furniture and Vehicles

Equipment, furniture and vehicles are recorded in the accounts at cost. Losses arising from destruction or disposal are reflected in the Statement of Proprietor's Equity.

(iii) Depreciation

Depreciation on capital assets is not recorded in the accounts.

(c) Operating Supplies, Small Tools and Nursery Stock

Operating supplies and small tools are carried at most recent cost. Nursery stock is valued at estimated replacement cost less an allowance for overhead, baling and packaging expenses.

(d) Financing

The Commission's revenues consist of appropriations from Parliament and revenue from its operations. The excess of revenues over expenditures is retained by the Commission to be used in accordance with the purposes approved by Parliament.

(e) Pension Plan

The Commission's employees participate in the Public Service Superannuation Plan, which is administered by the Government of Canada. Contributions to the plan are made by both employees and the Commission, and are recorded on a current basis.

(f) Employee Termination Benefits

Severance pay generally accrues to employees over their service period, and is payable on their separation or retirement. Provision for these benefits is recorded as a liability.

3. Capital Assets—Real Property

The following are the major categories of real property at March 31:

	1982	1981
	\$	\$
Greenbelt	48,499,824	47,443,011
Parkways	64,338,978	62,170,671
Parks	34,007,292	31,906,441
Bridges and approaches	24,629,694	24,311,601
Historic sites	12,303,776	12,089,483
Recreational facilities	4,723,728	3,926,131
Rental and agency properties	142,994,618	138,997,998
Unsettled expropriations, estimated	2,799,793	3,516,896
Administration and service buildings	8,855,464	7,722,808
	343,153,167	332,085,040
Less: provision for transfers at less than cost	3,138,999	3,422,013
	340,014,168	328,663,027

The provision for transfers at less than cost pertains to property to be transferred in accordance with the agreements detailed below:

- agreements with the railway companies resulting from the relocation of the Ottawa area railway facilities;
- agreement with the Province of Quebec for lands to be given free of charge for approaches to the Macdonald-Cartier Bridge;
- agreement with the Province of Quebec for the transfer of lands for \$1 used as a right-of-way for Highway 550; and
- agreement with the Province of Ontario for the transfer of lands for \$1 used as a right-of-way for Highway 417.

4. Loans from Canada

Further to Note 2(b)(i), the Commission also purchases real property out of funds advanced from the Consolidated Revenue Fund of Canada by way of loans as authorized by Parliament, upon terms and conditions approved by the Governor-in-Council.

On disposal of properties financed by loans, the loan terms require that, for non-greenbelt properties, the proceeds be used to repay relevant loans in full and any excess proceeds to repay other outstanding loans; for greenbelt properties, the excess of proceeds over acquisition cost be used to repay outstanding loans.

Interest on loans from Canada is payable semi-annually at rates varying from 4.75% to 15.625% and averaging 7.2%. No dates for repayment of principal are specified except that loans and interest are required to be repaid at the time of disposal.

5. Commitments

- Subject to being provided with future funds by Parliament, the Commission is committed to make contributions to other levels of government:

- to the Province of Quebec one-half of the cost of a road network within the National Capital Region. The Commission's commitment is \$150 million of which \$93.9 million has been expended. Expenditures of \$2.9 million for related works are recoverable from provincial and municipal governments;

NATIONAL CAPITAL COMMISSION—Concluded

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 1982—Concluded

- (ii) to the Province of Quebec and the Outaouais Regional Community, one-third of the cost of a regional sewage disposal system. The Commission's commitment is \$52.4 million of which \$45.0 million has been expended;
- (iii) to the Regional Municipality of Ottawa-Carleton and the City of Ottawa, one-half of the cost of the development in the Rideau Street area. The Commission's commitment is \$10.6 million of which \$3.2 million has been expended; and
- (iv) to the Province of Ontario and the Regional Municipality of Ottawa-Carleton, one-third of the cost of a regional sewage system. The Commission has expended \$15.5 million and has committed a further \$1.9 million.

- (b) The Commission has entered into agreements for computing services and leases of equipment and office space. Annual payments under these agreements are approximately as follows:

	\$
1982-83	1,030,125
1983-84	1,052,190
1984-85	1,032,643
1985-86	228,836
	<u>3,343,794</u>

6. Contingencies

(a) Litigations

Legal actions have been taken against the Commission totalling approximately \$19,000,000. The larger claims being:

- (i) \$18,000,000 for alleged wrongful termination of certain agreements;
- (ii) \$350,000 for alleged damages resulting from the flow of water from contiguous properties;
- (iii) \$250,000 as a result of a mishap allegedly occurring on Commission property; and
- (iv) \$187,000 for water damages to a building and contents resulting from the flow of water from Commission property onto contiguous property.

No provision for these contingencies has been made in the accounts.

(b) Agreement with a Province

In 1961 the Commission entered into an agreement whereby the Province of Ontario established and maintains 6,557 acres of forest. When the agreement expires in 2011, or is terminated, the Commission will reimburse the Province for the excess of expense over revenue, or the Province will pay the Commission the excess of revenue over expense. At March 31, 1981, expense exceeded revenue by \$0.9 million, and is not reflected in the accounts of the Commission.

(c) Other

In connection with a shared cost agreement, the Commission has received from the party to the agreement a preliminary estimate that the party has performed \$2,500,000 of work for which it has not yet billed the Commission.

The Commission has reviewed the preliminary estimate and based on the information available, has provided in its accounts \$1,000,000. Any further provision is not determinable at this time.

7. Prior Years' Adjustment

In the statement of Proprietor's Equity, the opening balances of Proprietary Interest have been adjusted to reflect the restatement to historic cost of real property retained after sales made prior to March 31, 1974 (Note 2(b)(i)).

8. Comparative Figures

Certain figures for 1981 presented for comparative purposes have been restated to conform to the 1982 presentation.

SCHEDULE OF EXPENDITURES BY PARLIAMENTARY VOTE

NATIONAL HARBOURS BOARD*(Established by the National Harbours Board Act)***AUDITOR'S REPORT**

THE HONOURABLE JEAN-LUC PEPIN, P.C., M.P.
MINISTER OF TRANSPORT

I have examined the balance sheet of the National Harbours Board as at December 31, 1981 and the statements of income and deficit, contributed capital and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Board as at December 31, 1981 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Board, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

KENNETH M. DYE
Auditor General of Canada

Ottawa, Ontario

NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 1981

1. Significant accounting policies

(a) Financial statements

The financial statements of the National Harbours Board include the accounts of all the ports and other facilities under its administration.

(b) Investments

Funds are invested in Government of Canada direct and guaranteed securities which are shown at amortized cost, with premiums or discounts amortized over the periods to maturity.

(c) Fixed assets and depreciation

Assets are recorded at cost except for those transferred to the Board from the Crown which are recorded at values established at the time of transfer (appraisal or fair market value). Grants towards capital projects received from the Crown (which are not capital contributions) and third parties are credited directly against the cost of the related fixed assets.

Depreciation is calculated on the straight-line method for the full year, commencing with the year the asset becomes operational, using rates based on the estimated useful lives of the assets.

NATIONAL HARBOURS BOARD—Continued

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 1981—Continued

(d) Pension costs

All permanent employees of the Board are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the plan are required from both the employees and the Board. These contributions represent the total liability of the Board and are recognized in the accounts on a current basis.

(e) Insurance

The Board assumes substantially all risks against fire and general perils, as well as for workmen's compensation claims. Any costs arising from these risks are recorded in the accounts in the year incurred.

(f) Grants in lieu of municipal taxes

Grants in lieu of municipal taxes are based on estimated municipal assessments adjusted in accordance with the Municipal Grants Act. Grants are paid after the amounts have been audited by the Municipal Grants Division of Public Works Canada. Any adjustments upon finalization are reflected in the accounts in the year of settlement.

(g) Employee benefits

The Board accrues in its accounts annually the estimated liabilities for severance pay, annual leave, sick leave and overtime compensatory leave, which are payable to its employees in subsequent years under its collective agreements, or in accordance with Board policy.

2. Long-term investments

Commencing in the financial year ended December 31, 1981, the Board has concluded that the funds invested in Government of Canada bonds are not intended to meet expenditure requirements within the following financial year, and accordingly, they have been presented as non-current assets.

3. Long-term amounts receivable

Long-term amounts receivable resulting from sales of fixed assets become due over periods from one to 26 years at interest rates varying from 5 1/4% to 8%.

4. Investment in Ridley Terminals Inc.

Order in Council (PC 1981-3669) dated December 18, 1981 authorized the National Harbours Board to enter into a joint undertaking with Federal Commerce and Navigation Ltd. for the development, management and operation of a coal terminal facility on Ridley Island at the Port of Prince Rupert. On December 23, 1981, the Board acquired, at a cost of \$24,000, 90% of the issued common (voting) shares and 900 class A preferred (non-voting) shares of Ridley Terminals Inc., a company incorporated on December 18, 1981 under the Canada Business Corporations Act for that purpose.

The Board is also committed to purchase additional shares for up to \$23,021,400 of Ridley Terminals Inc., in accordance with the Pre-incorporation Agreement of December 17, 1981.

5. Debentures of Saint John Harbour Bridge Authority

The Saint John Harbour Bridge Authority is indebted in the amount of \$14,612,000 (1980—\$14,687,000) to the Board which in turn is indebted to the Government of Canada by the same amount, in accordance with the provisions of Vote L106b, Appropriation Act. No. 7, 1967, 1967-68, c. 8. The interest and repayment terms of the parliamentary advances to the Board are identical to those of the debentures of the Authority. Under the terms of the agreement between the Government of Canada and

the Authority, the Government has, in effect, guaranteed the repayment of both principal and interest on the debentures. Therefore, both the debentures receivable and advances and loans payable to the Government have been offset against each other and are not reflected as a separate asset and liability on the balance sheet. Interest income and expense of \$1,002,000 (1980—\$1,007,000) have been similarly offset and do not appear in the Statement of Income and Deficit.

On July 9, 1981, Treasury Board agreed to the transfer of the responsibility for the administration of the indebtedness of the Saint John Harbour Bridge Authority as well as the equivalent loan payable to the Government of Canada Department of Finance from the accounts of the National Harbours Board to Transport Canada. As at December 31, 1981, this transfer had still to be completed.

6. Fixed assets

(a) Summary

(in thousands of dollars)					
		1981		1980	
	Rate of depreciation	Cost	Accumulated depreciation	Net	Net
Land		112,268		112,268	104,235
Dredging		35,422	20,874	14,548	13,387
Berthing structures	2.5-6.7%				
Buildings	2.5-10%	259,726	128,385	131,341	114,742
Utilities	3.3-10%	147,275	79,300	67,975	68,567
Roads and surfaces		32,056	13,575	18,481	16,905
Machinery and equipment	2.5-10%	43,207	20,560	22,647	20,110
Office furniture and equipment	5-100%	64,542	48,926	15,616	16,421
Works under construction	20%	1,601	1,366	235	136
		56,318		56,318	53,490
		<u>752,415</u>	<u>312,986</u>	<u>439,429</u>	<u>407,993</u>

(b) Land transfer

In 1979, the Board effected a land transfer with Canada Mortgage and Housing Corporation and, as at December 31, 1981, had still to transfer eight acres of land valued at \$1,204,000 in order to complete the transaction. The cost of the land not yet transferred has not been relieved from the accounts and the related liability of \$1,204,000 is included in accounts payable.

(c) Capital grants

During the year, the Board received capital grants from the Federal Government towards the construction of capital projects totalling \$17,613,000 (1980—\$4,656,000). These grants have been credited directly against the cost of related fixed assets. Included in the \$17,613,000 is an amount of \$3,076,000 which represents settlement of a Federal court judgement in connection with a property at the Port of Halifax.

7. Accounts payable and accrued liabilities

Included in accounts payable and accrued liabilities are amounts for deferred revenues and for the current portion of long-term liabilities.

NATIONAL HARBOURS BOARD—*Concluded*NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 1981—*Concluded*

	(in thousands of dollars)	
	1981	1980
Deferred revenues	5,387	3,998
Current portion of long-term liabilities	1,733	2,011

8. Financing provided by province

Under an agreement dated July 13, 1972, the Province of New Brunswick advanced \$25,000,000 to partially finance the construction of Rodney Terminal, Saint John, which is owned by the Board.

Until the non-interest bearing investment is repaid, the Province will receive 50% of the net operating income of the terminal, under the terms of an agreement dated January 1, 1976.

9. Loans from Canada

	(in thousands of dollars)	
	1981	1980
Loans bearing interest at 6.25% to 12.43% with blended annual principal and interest repay- ment requirements of \$2,745,000 and matur- ing December 31, 2000	25,138	25,684
Less: current portion	589	546
	24,549	25,138
Non-interest bearing loans with indefinite due date	317,739	317,739
Accrued interest on loans not due and payable	157,462	157,462
	499,750	500,339

Principal repayment requirements over the next five years amount to \$588,920 in 1982, \$635,677 in 1983, \$686,460 in 1984, \$741,646 in 1985 and \$801,651 in 1986.

10. 1980 adjustment to contributed capital

In 1973, an amount of \$1,510,534 provided by a lessee towards the cost of a new container terminal was recorded as contributed capital. In 1980, a judgement was rendered which required that this amount be repaid to the lessee. This amount was transferred from contributed capital and included in accounts payable.

11. Contingencies

- (a) Claims aggregating approximately \$17,000,000 in respect of lawsuits, guarantees, employee agreements, damage allegedly suffered on the Board's property and sundry other matters in dispute have been received by the Board but are not reflected in the accounts. In the opinion of the Board, its position is defensible and the final outcome of such claims should not result in any material financial liability.
- (b) The Board is aware of cracks in some pilings in one of the piers at a port. The extent of any future costs which may be incurred, and the extent to which these costs will be recovered, cannot be reasonably estimated at this time.

12. Capital expenditure commitments

Contractual obligations for the completion, construction and purchase of fixed assets are estimated at \$90,815,000. Of this amount, it is estimated that \$59,512,000 will be expended in the year ending December 31, 1982 and the balance in subsequent years.

On January 18, 1982 the Board entered into an agreement with Ridley Terminals Inc. for the construction of the infrastructure for the coal terminal facility on Ridley Island. The cost of this construction is estimated at \$48,300,000.

Additionally, Ridley Terminals Inc. will enter into various contracts for the construction of the coal terminal facility. As at February 18, 1982, the value of these contracts approximates \$45,000,000. Ridley Terminals Inc. has made arrangements with its bankers for financing 80% of the cost of the facility and any operating short-fall to a combined maximum of \$265,000,000.

13. Subsequent event

The Minister of Transport has introduced legislation known as the Canada Ports Corporation Act, which was tabled for first reading in the House of Commons on February 1, 1982. This bill, C-92, if passed, will include amendments to the National Harbours Board Act. Certain of these amendments will have the effect of providing for the creation of local port corporations with a high degree of autonomy in the management of their facilities.

NORTHERN CANADA POWER COMMISSION

(Established by the Northern Canada Power Commission Act)

AUDITOR'S REPORT

THE HONOURABLE JOHN CARR MUNRO, P.C., M.P.

MINISTER OF INDIAN AFFAIRS AND NORTHERN DEVELOPMENT

I have examined the balance sheet of Northern Canada Power Commission as at March 31, 1982 and the statements of operations and deficit and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Commission as at March 31, 1982 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Commission, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 1982

1. Authority and objective

The Northern Canada Power Commission, a Schedule C corporation, was formerly the Northwest Territories Power Commission established in 1948 and now operates under the Northern Canada Power Commission Act.

The objective of the Commission is to provide utility services on a self-sustaining basis in the Northwest Territories, the Yukon Territory and, with the approval of the Governor in Council, at certain other locations in Canada.

2. Accounting policies

The financial statements have been prepared by management in conformity with generally accepted accounting principles considered to be appropriate in the circumstances, and have been applied on a basis consistent with that of the preceding year. A summary of significant accounting policies of the Commission is presented as follows to assist the reader in interpreting the financial statements.

Property and equipment

Property and equipment, with the exception of that gifted to the Commission by Canada and others which have been recorded at nominal value, are carried at cost less accumulated depreciation. Costs of additions, betterments and major renewals are capitalized. In addition to direct payments for goods and services, project costs include interest at prevailing rates on loan funds used to finance construction during the construction period and a share of engineering and general administration expense which is directly attributable to the capital projects.

Gains or losses on disposal of property and equipment resulting from exceptional circumstances such as the disposal of assets which have not entered the production cycle, are written off against operations in the year that the losses are recognized. For normal retirements, the cost of assets retired less salvage proceeds is charged to accumulated depreciation with no gain or loss being reflected in operations.

Depreciation

Depreciation on property and equipment in service prior to March 31, 1977, financed by loans from Canada, excepting the Head Office building, is calculated as an amount equivalent to the principal portion of the repayment of the associated loan. The associated loans are being repaid by the annuity method over the estimated economic life of the assets. Assets placed in service subsequent to March 31, 1977 are depreciated on a straight line basis. Straight line depreciation is charged over the estimated economic life of the Head Office building and on assets purchased from internally generated funds.

Depreciation rates for the various classes of assets are based on estimated economic lives, which for the principal classes of assets are:

Hydroelectric plants	30 - 50 years
Diesel engines and associated equipment	10 - 15 years
Fuel storage equipment	20 years
Buildings	20 - 30 years
Heating systems	20 years
Transmission and distribution systems	20 - 30 years
Office and general equipment	10 - 15 years
Motor vehicles	4 years

Inventories

Inventories are valued at average cost. Provision is made for decline in value of slow-moving inventory.

NORTHERN CANADA POWER COMMISSION—Continued

NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 1982—Continued

3. Fixed assets in service

Details of fixed assets in service at cost are as follows:

	1982	1981
	\$	\$
Electric power plants	163,751,000	161,276,000
Transmission and distribution systems	36,210,000	35,180,000
Other utilities	5,053,000	5,053,000
Staff accommodation	3,800,000	3,821,000
Warehouses, motor vehicles and general facilities	6,776,000	6,361,000
	<u>215,590,000</u>	<u>211,691,000</u>

4. Loans from Canada

The Commission receives funds for capital expenditures by way of interest bearing loans from Canada. Interest at prevailing rates is accrued during the course of construction of a project and added to the amount borrowed. The total loan, including accrued interest is repaid on terms and conditions as approved by Government in Council.

The Commission also received a working capital loan of \$7,500,000 in 1979. Terms and conditions provide for principal repayment by 10 equal annual instalments of \$750,000 commencing on March 31, 1990. The loan is interest free but should any instalment become due and unpaid, interest at then current rate is applicable until the date of payment.

At March 31, 1982, loans for capital expenditures carried interest rates ranging from 4% to 15.625% with a weighted average interest rate of 8.85%.

Loans due Canada mature as follows:

	Principal
	\$
1983	6,186,000
1984	6,557,000
1985	7,147,000
1986	7,591,000
1987	8,000,000
1988 - 2024	161,626,000
	<u>197,107,000</u>
Deduct current portion	6,186,000
	<u>190,921,000</u>
Advance: project investigation	50,000
	<u>190,971,000</u>

In 1982 the Commission borrowed \$9,600,000 (\$5,000,000 in 1981) from Canada at an interest rate of 15.625% and paid \$22,091,000 (\$21,890,000 in 1981) to Canada including interest of \$16,365,000 (\$16,361,000 in 1981). In addition, interest of \$382,000 has been accrued in respect of construction in progress and is included in the amount due to Canada.

5. Due to Canada—Overdue instalments and related interest

This item represents principal, \$2,203,000 and interest \$6,989,000 on instalments which fell due on March 31, 1977 and which remain unpaid.

6. Hydro investigation studies

The Commission, with the approval of the Governor in Council, is carrying out special investigation studies on the hydro-generation potential of the mid-Yukon for which it will receive payments not exceeding \$3,150,000. The studies are to be completed by September 30, 1983 and any undisbursed funds are to be refunded to Canada. If these studies result in the provision of electricity for consumption, the funds provided for the studies will become repayable, with accrued interest, to Canada.

The Commission has received accumulated payments of \$3,150,000 to March 31, 1982 (\$1,250,000 to March 31, 1981) for the special investigation studies and has incurred accumulated expenditures of \$2,926,000 (\$1,215,000 in 1981). The unexpended balance of \$224,000 is included as an account payable at March 31, 1982 (\$35,000 at March 31, 1981).

7. Pensions

During the year the Commission made payments of \$518,000 (\$460,000 in 1981) in respect of current contributions to the Public Service Superannuation Account (PSSA) of the Government of Canada. The PSSA is actuarially valued every five years. The Commission's contributions and liabilities are limited to the current portion, and no estimate of the Commission's share of actuarial deficiencies has been made.

8. Engineering and general administration

Engineering and general administration is net of amounts charged to capital and recoverable projects. Allocations to capital and recoverable projects totalled \$777,000 in 1982 (\$662,000 in 1981).

9. Interest expense

Interest expense relates to long-term debt and is net of amounts charged to capital projects and interest earned from short-term investments. Interest charges totalling \$382,000 were capitalized at a rate of 15.054 for 1982 (\$138,000 at 8% for 1981). Interest earned on short-term investments amounted to \$2,409,000 in 1982 (\$2,352,000 in 1981).

10. Commitments

Estimated cost to complete capital projects under construction is approximately \$51,744,000 at March 31, 1982 (\$32,100,000 at March 31, 1981).

11. Insurance

The Commission purchases catastrophe insurance on specified assets as protection against major losses up to \$20,000,000. Business liability insurance coverage is maintained in an amount considered necessary to provide adequate protection to the Commission. Other coverage in effect includes fleet, aircraft, airstrip, boiler and comprehensive general liability insurance. Special coverage on major projects under construction is purchased by the Commission, or by its contractors if required by the Commission.

NORTHERN CANADA POWER COMMISSION—*Concluded*

NOTES TO THE FINANCIAL STATEMENTS

MARCH 31, 1982—*Concluded*

12. Related party transactions

Audit and legal services

In addition to the transactions with the Government of Canada referred to in Notes 4, 5, 6 and 7, the Commission receives audit and legal services without charge from the Office of the Auditor General of Canada and the Department of Justice (Canada).

Commission members

The Commission consists of a chairman and four additional members appointed by the Governor in Council. The Chairman is the chief executive officer of the Commission.

Economic dependence

The Commission has a significant amount of transactions with Canada and its agencies, the same with territorial and municipal governments of the Northwest Territories and Yukon Territory and large industrial consumers and supplies. These transactions comprise:

	1982	1981
	\$	\$
Sale of power and heat		
Federal, territorial, municipal govern- ments and agencies	29,259,000	24,288,000
Large industrial consumers	35,421,000	24,871,000
Purchase of fuel		
Federal, territorial governments and agen- cies	5,496,000	3,836,000
Accounts receivable, at March 31		
Federal, territorial, municipal govern- ments and agencies	3,822,000	3,262,000
Large industrial consumers	2,103,000	2,651,000
Accounts payable, at March 31		
Federal and territorial governments	2,838,000	1,733,000

13. Income tax

As a Schedule C Crown corporation, the Commission is exempt from income tax.

NORTHERN TRANSPORTATION COMPANY LIMITED

(Incorporated under the Canada Business Corporations Act)

AUDITORS' REPORT

THE HONOURABLE JEAN-LUC PEPIN, P.C., M.P.
MINISTER OF TRANSPORT

We have examined the consolidated statement of financial position of Northern Transportation Company Limited as at December 31, 1981 and the consolidated statements of operations, retained earnings and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these consolidated financial statements present fairly the financial position of the Company as at December 31, 1981 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied, after giving retroactive effect to the adoption of a policy of providing for the estimated cost of repairing damage to vessels sustained during the year as explained in Note 6 to the financial statements, on a basis consistent with that of the preceding year.

We further report that, in our opinion, proper books of account have been kept by the Company, the financial statements are in agreement therewith and the transactions that have come under our notice have been within its statutory powers.

Working capital at end of year	15,965	20,012

The accompanying notes are an integral part of the financial statements.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS AS AT DECEMBER 31, 1981

1. Corporate objective

The Company is a profit-oriented commercial Crown corporation whose primary objective is to provide economic, reliable and comprehensive transportation and related services in Northern Canada and the Arctic.

2. Accounting policies

The consolidated financial statements have been prepared in accordance with generally accepted accounting principles. The following accounting policies are considered significant:

Basis of consolidation

The consolidated financial statements include the accounts of the Company and its subsidiaries, Grimshaw Trucking and Distributing Ltd., and Nortran Offshore Limited (formerly Yellowknife Transportation Company Limited), both of which are wholly owned. All significant inter-company transactions have been eliminated on consolidation.

Operating and general supplies

Inventories of operating and general supplies are valued at the lower of cost and estimated replacement cost.

Insurance investment fund

As part of its insurance program, the Company maintains umbrella insurance coverage in respect of physical loss or damage to property and equipment. In addition, a fund is being accumulated to underwrite the aggregate deductible amount and the uninsured portion of any losses. The total amount of the fund, which is invested in short-term bank deposits, is related to the annual aggregate deductible amount under the umbrella program and will not exceed \$4.5 million.

Leases

Leases are classified as either capital or operating. A lease that transfers substantially all of the benefits and risks incident to the ownership of property is classified as a capital lease. At the inception of a capital lease, an asset and an obligation are recorded at an amount equal to the lesser of the present value of the minimum lease payments and the property's fair value at the beginning of such lease. All other leases are accounted for as operating leases wherein rental payments are charged to operations as incurred.

Property and equipment

Investment in property and equipment is recorded at cost. The costs of major additions and replacements, including assets under capital lease, is capitalized. Minor replacements, maintenance and repairs, including provision for the estimated cost of repairing damage to vessels, are charged against current operations. Gains or losses realized on retirement or disposal are reflected in operations.

Depreciation

Vessels are depreciated on a "unit of production" basis taking into account the estimated ton-mile productive capacity of each vessel over a 15-year period with a minimum charge of four per cent per annum calculated on a maximum useful life of 25 years. The cost of other depreciable assets, including assets under capital lease, is amortized on a straight-line basis over an estimated useful life of 10 to 20 years for buildings, other structures and site development, and 5 to 10 years for other equipment.

NORTHERN TRANSPORTATION COMPANY LIMITED—Continued

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
AS AT DECEMBER 31, 1981—Continued

Pension plan

A contributory, defined benefit, final average earnings pension plan covers all regular full-time employees of Northern Transportation Company Limited. The assets of the plan are held by an independent corporate trustee. Current service costs are funded and charged to operations as they accrue. Unfunded liabilities and plan improvement costs, as determined by actuarial valuation, are funded by annual payments which are charged to operations over periods recommended by the consulting actuary and as required by the Pension Benefits Standards Act.

Income taxes

The tax allocation method is used in providing for income taxes. In calculating taxable income, regulations permit the deduction of expenses which may not correspond with the amounts recorded in the financial statements. Income taxes charged to operations, therefore, may differ from those currently payable.

3. Freightage revenue

Included in freightage revenue is a subsidy of \$642,000 (1980—\$844,000) from Canada for the resupply service to the Keewatin area.

4. Other income (expense)—Net

	1981	1980
	(in thousands of dollars)	
Income		
Interest earned	3,727	2,512
Gain on disposal of property and equipment	100	289
Other	101	104
	<u>3,928</u>	<u>2,905</u>
Expense		
Interest on long-term debt	2,853	2,948
Interest on other debt	128	22
	<u>2,981</u>	<u>2,970</u>
	<u>947</u>	<u>(65)</u>

5. Income taxes and extraordinary item

The undepreciated capital cost of property and equipment for income tax purposes exceeds the net book value of depreciable assets, and this excess is available to reduce the taxable income of current and future years. During the year, income taxes otherwise payable of \$3,269,000 (1980—\$1,891,000) were reduced as a result of claiming \$6,835,000 (1980—\$3,940,000) of this excess, leaving an amount of approximately \$2,805,000 (1980—\$9,640,000) available for reduction of income taxes in future years. This reduction of income taxes has been shown as an extraordinary item in the statement of operations. In addition, expenses of \$2,645,000 were charged against operations in 1981 but not claimed for income tax purposes. This amount will also be available for reduction of income taxes in future years.

6. Change in accounting policy

In 1981, in order to better match costs and revenue, the Company adopted a policy of providing for the estimated cost of repairing damage to vessels sustained during the year. This change in accounting policy has been applied on a retroactive basis, necessitating the restatement of prior results.

This change has had the effect of reducing the profit before extraordinary item in 1981 by \$905,000; as well, working capital decreased by \$1,751,000. The deficit as at January 1, 1981

previously reported as \$1,235,000 has been increased by \$894,000 of which \$177,000 is applicable to 1980 and \$717,000 to prior years.

7. Bank indebtedness

Certain assets of a subsidiary company have been assigned as security.

8. Property and equipment

	1981	1980
	(in thousands of dollars)	
Land	2,049	1,759
Vessels	66,621	57,692
Buildings, other structures and site development	19,665	18,824
Other equipment	19,251	17,200
	<u>107,586</u>	<u>95,475</u>
Accumulated depreciation	62,865	58,637
	<u>44,721</u>	<u>36,838</u>

Equipment under capital lease is included in property and equipment at a cost of \$536,000 (1980—\$713,000) less accumulated depreciation of \$439,000 (1980—\$535,000).

9. Long-term debt

	1981	1980
	(in thousands of dollars)	
Notes payable to Canada		
8.41% note due 1982—1986	620	920
7.45% note due 1982—1991	31,180	31,180
8.375% note due 1989	2,625	3,093
8.5% notes due 1990	2,500	2,500
	<u>36,925</u>	<u>37,693</u>
Capital lease obligations		
12.0% due 1982—1984	126	208
	<u>37,051</u>	<u>37,901</u>
Less current portion	3,015	850
	<u>34,036</u>	<u>37,051</u>

Principal amounts due in each of the next five years are as follows:

	Notes payable to Canada	Capital Lease obligations	Total
	(in thousands of dollars)		
1982	2,972	43	3,015
1983	3,124	50	3,174
1984	2,971	33	3,004
1985	3,191		3,191
1986	3,395		3,395

Individual notes may be prepaid without premium or penalty.

10. Deferred income taxes

Deferred income taxes relate to a subsidiary company which is claiming capital cost allowance in excess of depreciation for income tax purposes.

NORTHERN TRANSPORTATION COMPANY LIMITED—*Concluded*

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

AS AT DECEMBER 31, 1981—*Concluded*

11. Share capital

	1981	1980
	(in thousands of dollars)	
Authorized		
400,000 common shares of no par value		
Issued and fully paid		
250,520 shares to Canada.....	25,052	25,052

12. Operating lease obligations

Certain property is leased under long-term contracts. Commitments in respect of rental payments are: 1982—\$679,000; 1983—\$504,000; 1984—\$386,000; 1985—\$365,000; 1986—\$365,000 and subsequent years—\$783,000.

13. Pension plan

At December 31, 1980 the unfunded liability, as determined by actuarial valuation, was \$43,000. A special payment in respect of this unfunded liability was made to the pension plan in 1981.

14. Related party transactions

In addition to the notes payable to Canada referred to in Note 9, the Company had transactions with the Government of Canada and its agencies, the Government of the Northwest Territories, and several federal Crown corporations. These transactions were conducted in the normal course of business, under the same terms and conditions as those applied to unrelated parties. The account balances resulting from these transactions are reflected in the statement of financial position.

PACIFIC PILOTAGE AUTHORITY*(Established by the Pilotage Act)***AUDITOR'S REPORT**

THE HONOURABLE JEAN-LUC PEPIN, P.C., M.P.
MINISTER OF TRANSPORT

I have examined the balance sheet of the Pacific Pilotage Authority as at December 31, 1981 and the statements of operations, retained earnings and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Authority as at December 31, 1981 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Authority, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1981

1. Nature of activities

The Pacific Pilotage Authority was established on February 1, 1972 pursuant to the Pilotage Act. The objectives of the Authority are to establish, operate, maintain and administer a safe and efficient pilotage service within designated Canadian waters. The Act further provides that the tariffs of pilotage charges shall be fair and reasonable and consistent with providing a revenue, together with any revenue from other sources, sufficient to permit the Authority to operate on a self-sustaining financial basis.

Pilotage services on the Fraser River are provided by employee pilots and in other coastal waters under a contract with a local association of licensed pilots.

2. Significant accounting policies

(a) Capital lease

The Authority leases a pilot boat from Canada under a long-term financing lease. Under the terms of the lease agreement, the Authority assumes the rights and obligations of ownership. As a result, the lease is treated as a purchase and the principal portion of the lease payments is capitalized and depreciated over the estimated useful life of the boat. The corresponding liability is reduced each year by the principal portion of lease payments and the interest portion is expensed in the year to which it relates.

(b) Depreciation

Depreciation of fixed assets is calculated on a straight-line basis and is based on the estimated useful life of the assets as follows:

Buildings	20 years
Pilot boats	20 years
Pilot boat under capital lease	20 years
Equipment	10 years
Leasehold improvements	7 years

PACIFIC PILOTAGE AUTHORITY—Concluded**NOTES TO FINANCIAL STATEMENTS**
DECEMBER 31, 1981—Concluded

(c) Employee termination benefits

Employees of the Authority are entitled to specified benefits on termination as provided for under labour contracts and conditions of employment. The liability for these payments is recorded in the accounts as the benefits accrue to the employees.

(d) Contributed capital

Amounts representing the values assigned to assets transferred to the Authority from Canada in 1972 and the cost of any fixed assets financed from parliamentary appropriations are shown as contributed capital.

(e) Pension plan

All employees of the Authority are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required from both the employee and the Authority. Contributions with respect to current service are expensed in the current period.

(f) Income tax

The Authority is not subject to the provisions of any income tax act.

3. Obligation under capital lease

	1981	1980
	\$	\$
Total minimum payments under 8% lease agreement, due April 1988, payable in blended annual payments of \$32,229	225,604	257,833
Less: amount representing interest	57,807	72,624
Balance of the obligation	167,797	185,209
Less: current portion	18,805	17,412
Long-term portion	148,992	167,797

Upon maturity of the lease, the Authority has the option to purchase the boat for \$1.

The capital cost and accumulated depreciation of the leased pilot boat are as follows:

	1981	1980
	\$	\$
Cost	275,865	275,865
Less: accumulated depreciation	120,691	106,898
	155,174	168,967

4. Long-term commitment

The Authority has entered into an operating lease agreement for the services of a manned pilot boat with a guaranteed annual rental of \$58,000 to 1990, plus operating expenses. The Authority has the option to purchase this boat, at any time, at a price to be determined when the option is exercised.

5. Contingencies

In connection with its operations, the Authority is involved in certain pending litigation. It is the opinion of management, based on legal counsel, that these actions will not result in any material liabilities to the Authority.

6. Remuneration of members and officers

The remuneration of members as members amounted to \$44,325 (1980—\$44,575) and the remuneration of officers as officers amounted to \$69,125 (1980—\$55,894). The Authority has 7 members and 2 officers. One officer is also a member.

PETRO-CANADA

AUDITORS' REPORT

TO THE HONOURABLE MARC LALONDE, P.C., M.P.
 MINISTER OF ENERGY, MINES AND RESOURCES CANADA
 HOUSE OF COMMONS

We have examined the consolidated balance sheet of Petro-Canada as at December 31, 1981 and the consolidated statements of earnings and retained earnings and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these consolidated financial statements present fairly the financial position of the corporation as at December 31, 1981 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

We further report as required by Section 77(1) of the Financial Administration Act that, in our opinion, proper books of account have been kept by the corporation and the transactions that have come under our notice have been within the powers of the corporation.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 1981

(tabular amounts shown in thousands of dollars)

1. Summary of Significant Accounting Policies

(a) Basis of Consolidation

The consolidated financial statements include the accounts of Petro-Canada and of all subsidiary companies ("the Corporation") except those of Canertech Inc., the reason for which exclusion is described in Note 4.

The excess of the consideration paid for the shares of subsidiaries over the underlying net book values at the dates of acquisition is attributed to the related assets acquired.

(b) Translation of Foreign Currency

Current assets and current liabilities are translated at the rate of exchange in effect at the close of the year. The resulting gains and losses are included in earnings. Long-term assets, liabilities and preferred shares issued by a subsidiary are translated at rates in effect at the dates the assets were acquired, the obligations were incurred or the capital stock was issued. Revenue and expense items are translated at the average rates in effect during the year with the exception of depreciation, depletion and amortization which reflect rates in effect when the assets were acquired.

(c) Inventories

Inventories are valued at the lower of cost and net realizable value.

PETRO-CANADA—Continued

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS DECEMBER 31, 1981—Continued

(d) Investments

The Corporation accounts for investments in companies over which it has significant influence on the equity method. Other long-term investments are accounted for by the cost method.

(e) Property, Plant and Equipment

The Corporation accounts for the investment in oil and gas properties on the full cost method whereby all costs relating to the exploration for and development of oil and gas reserves are capitalized. Such costs include those related to lease acquisitions, geological and geophysical activities, lease rentals on non-producing properties, drilling both productive and non-productive wells and overhead related to exploration.

Separate cost centres have been established for non-frontier Canada, each of five Canadian frontier areas and each foreign area in which the Corporation has an interest. Costs incurred in producing foreign cost centres are depleted separately on the unit of production method based on estimated proven oil and gas reserves. In 1981, the Corporation adopted the revenue method of depletion for the non-frontier Canada cost centre whereby costs incurred are depleted in the proportion that current revenue is to the total estimated revenue from proven reserves of oil and gas. This modification of the unit of production method, which prior to 1981 was based on production volumes, was made in response to changes in the pricing of hydrocarbons initiated by the National Energy Program and finalized by the signing of the Energy Pricing and Taxation Agreements between the Federal Government and the producing provinces.

Annual costs incurred in the other cost centres are amortized on a straight line basis over the period during which exploration activity in each cost centre is expected to continue. When exploration proves to be successful, as when an indicated commercial discovery is made, amortization is suspended and the unamortized balance of the cost centre is depleted on the unit of production method when production commences. When exploration proves to be unsuccessful and the cost centre is condemned or abandoned, the unamortized balance of that cost centre is charged to earnings at that time.

Costs of property, plant and equipment associated with the Syncrude Project and related leases are accumulated in a separate cost centre and are depreciated on the unit of production method based on production volumes. Expenditures on other bituminous sands leases are also accumulated in separate cost centres and are amortized, depleted or otherwise charged to earnings in accordance with the policy described in the preceding paragraph.

Depreciation of plant and equipment, except as noted above, is provided on either the unit of production method, based on production revenues, or the straight line method as appropriate. Annual straight line depreciation rates range from 2.5% to 25.0%.

The interest cost of debt attributable to the construction of major new facilities is capitalized during the construction period.

Substantially all of the Corporation's exploration and production activities related to oil and gas are conducted jointly with others. Only the Corporation's proportionate interest in such activities is reflected in the financial statements.

(f) Deferred Charges

The Corporation defers costs incurred on feasibility studies involving economic evaluation and preliminary engineering relating to:

- (i) Production of hydrocarbons from conventional heavy oil and oil sands deposits
- (ii) Arctic Liquefied Natural Gas Project
- (iii) Transportation and refining projects

When production or commercial activity of a particular project commences the applicable expenditures are transferred to property, plant and equipment and are charged to earnings based on the estimated useful life of the project. In the event that a decision is made not to proceed with a particular project, all associated costs are charged to earnings at that time.

Certain costs relating to the Corporation's marketing program are deferred and amortized on a straight line basis over five years.

Debt issue expense is amortized on a straight line basis over the life of the debt. The amortization is included with interest on long-term debt in the consolidated statement of earnings and retained earnings.

(g) Federal Petroleum Compensation Program

Under the oil compensation program the Federal Government compensates eligible importers, and purchasers of domestic synthetic crude oil for a portion of certain costs with respect to petroleum consumed in Canada, provided they maintain prices for certain products at levels not to exceed those suggested by the Government. Compensation received under the program is reflected as a reduction of crude oil and product purchases.

(h) Research Costs

Research costs are charged against earnings as incurred.

(i) Income Taxes

The Corporation makes full provision for income taxes deferred as the result of claiming tax depreciation, exploration, development and other costs which exceed the related amounts charged to expense in the financial statements.

(j) Pension Plan

Costs of pension benefits for current services are funded and charged to earnings as they accrue. Costs for past services, arising from amendments to the plan, and experience deficiencies are funded in accordance with applicable pension legislation and charged to earnings over periods not exceeding fifteen years.

2. Acquisition of Petrofina Canada Inc.

On April 18, 1981 the Corporation made a tender offer to purchase for cash at \$120 per share, subject to adjustments to reflect imputed interest and dividend payments, any and all of the outstanding common shares of Petrofina Canada Inc., subsequently renamed Petro-Canada Entreprises Inc. ("Enterprises"). The offer will terminate on February 28, 1983, unless extended.

Effective May 12, 1981 the shareholders of Enterprises approved the sale of substantially all its net assets to the Corporation in exchange for securities issued by a subsidiary of the

PETRO-CANADA—Continued

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

DECEMBER 31, 1981—Continued

Corporation. The securities are valued at \$1,612,950,000, being the equivalent of \$120 per common share of Enterprises after adjustment for estimated imputed interest and dividends on common shares of Enterprises not yet acquired by the Corporation.

The net assets acquired at attributed values consist of:

Property, plan and equipment	
Oil and gas	
Canada	
—Non-frontier	696,616
—Frontier	12,253
Bituminous sands	
—Syncrude	191,584
—Other bituminous sands	55,126
Refining and marketing	688,054
Pipelines and other property and equipment	6,888
	<u>1,650,521</u>
Investments	4,773
Deferred charges	1,674
Long-term debt	(176,460)
Advances on future natural gas deliveries	(14,957)
Deferred income taxes	(152,372)
Working capital	
—Current assets	462,520
—Current liabilities	(162,749)
	<u>299,771</u>
	<u>1,612,950</u>

The acquisition of the assets from Enterprises and the tender offer constitute an integrated transaction which has been accounted for by the purchase method with the results of operations included in these financial statements from May 12, 1981. Details of the acquisition are as follows:

Book value of acquired assets	1,070,905
Book value of assumed liabilities	(508,484)
	<u>562,421</u>
Excess of attributed value over book value of acquired net assets:	
Petroleum and natural gas properties	487,789
Refining and marketing	509,802
Bituminous sands	
—Syncrude Project	7,838
—Other bituminous sands leases	45,100
	<u>1,050,529</u>
Net assets acquired from Enterprises at attributed value	1,612,950
Minority interest	(787,450)
Cost of acquisition to December 31, 1981	<u>825,500</u>

At December 31, 1981 the Corporation had acquired 6,750,418 shares (55.7%) of the outstanding common shares of Enterprises. The acquisition was financed by funds from a revolving term loan (Note 8). The minority interest is stated, pursuant to the offer of April 18, 1981 and the shareholder approval of May 12, 1981 referred to above, at the estimated cost of acquiring all of the outstanding shares of Enterprises not already held by the Corporation at December 31, 1981. Funds for the acquisition of these shares will also be provided from the revolving term loan.

3. Inventories

Inventories consist of:

	1981	1980
Foreign crude oil	67,378	51,356
Domestic crude oil, refined products and merchandise	337,658	43,796
Materials and supplies	68,981	32,062
	<u>474,017</u>	<u>127,214</u>

4. Investments

The Corporation's investments consist of:

	1981	1980
At equity		
Westcoast Transmission Company Limited	170,716	163,012
Panarctic Oils Ltd.	150,702	117,598
Other	25,978	2,559
At cost		
Canertech Inc.	20,000	
Mortgages and other investments	16,479	8,648
	<u>383,875</u>	<u>291,817</u>

Westcoast Transmission Company Limited

At December 31, 1981, the Corporation held 31.3% of the total outstanding common shares of Westcoast Transmission Company Limited ("Westcoast").

The value assigned to the investment in Westcoast, when it was acquired by the Corporation, and the cost of subsequent share purchases exceed the underlying net book value at the dates of acquisition by \$33,388,000. This excess is being amortized over the estimated useful lives of the underlying assets to which it is attributed by charges against the Corporation's share of Westcoast's net earnings.

Westcoast is a regulated utility and is subject to regulatory directives which may change the components of the cost of service. Changes resulting from such directives do not have a direct effect on net earnings due to rate of return on rate base considerations which are also taken into account in the regulatory process.

At December 31, 1981, the quoted market value of the Corporation's investment in Westcoast was \$168,649,000 (1980—\$189,333,000).

Panarctic Oils Ltd.

During 1981 the Corporation acquired an additional 6,082,387 common shares of Panarctic Oils Ltd. ("Panarctic") in exchange for cash and common and preferred shares of the Corporation, increasing its holding to 28,099,785 shares, and advanced additional funds in connection with the ongoing financing of Panarctic. The activities of Panarctic are in the exploratory stage and all expenses less sundry income have been capitalized; the company is deemed not to have earned a profit or sustained a loss. Panarctic's shares are not traded on the open market and therefore do not have a quoted market value.

Canertech Inc.

Canertech Inc. was incorporated by the Corporation as a wholly-owned subsidiary company and commenced operations during 1981 developing alternate energy sources in Canada. The Government of Canada has indicated its intention to establish Canertech Inc. as an independent Crown corporation and to purchase the Corporation's investment at cost. The accounts of Canertech Inc., therefore, have not been included in the consolidated financial statements because of the temporary nature of control by the Corporation.

	<u>5,407,907</u>	<u>496,520*</u>	<u>4,911,387</u>	<u>2,950,741</u>

*Consists of depreciation—\$111,393,000, depletion—\$267,871,000 and amortization—\$117,256,000 (at December 31, 1980—\$56,464,000, \$207,396,000 and \$75,665,000 respectively).

6. Deferred Charges

Deferred charges consist of:

	1981	1980
At cost		
Heavy oil and oil sands projects	19,489	8,948
Polar Gas Project	16,397	15,372
Arctic Liquefied Natural Gas Project	17,515	10,899
Other	8,079	4,773
Net of amortization	364	434
Debt issue expense	7,910	1,117
Marketing program	<u>69,754</u>	<u>41,543</u>

7. Long-Term Debt

Long-term debt consists of:

	Maturity	1981	1980
In Canadian dollars			
Bank Income Debentures	1983	90,000	140,000
Promissory notes, bearing interest at prime rate	1985	20,692	
Unsecured loans, bearing interest at ½% above prime rate	1990	40,000	
Other loans and long-term obligations	1982-1997	5,741	4,349
In United States dollars			
9% unsecured notes (\$56,250,000 US)	1996	66,641	71,116
8.45% unsecured notes (\$30,000,000 US)	1987	35,545	35,539
5.25% unsecured notes (\$18,200,000 US)	1985	21,747	26,351
5.75%—6.25% mortgages (\$3,204,000 US)	1988	3,811	4,485
6.5% secured notes		73,135	61,668
		<u>284,177</u>	<u>283,075</u>
Less portion due within one year		<u>211,042</u>	<u>221,407</u>

Bank Income Debentures

The Bank Income Debentures are held by a Canadian chartered bank and bear interest at approximately 49% (1980—50%) of the bank's prime lending rate as announced from time to time. No deduction is allowed under the Income Tax Act for interest expense relating to the Bank Income Debentures.

While the Bank Income Debentures are not secured by any charge against the assets of the Corporation, there are certain restrictions with respect to the disposition or encumbrance of the investment by the Corporation in a subsidiary company.

Repayment of long-term debt

Annual repayments of the 8.45% unsecured notes will commence in 1982. All the other issues are currently subject to minimum annual repayments.

The repayment of long-term debt in each of the next five years is as follows:

1982—\$73,135,000, 1983—\$73,194,000, 1984—\$23,132,000, 1985—\$26,662,000, 1986—\$15,503,000.

8. Revolving Term Loan

During 1981 the Corporation entered into an agreement with two Canadian chartered banks providing for a three year revolving credit facility, amounting to \$1.5 billion Canadian or the equivalent in US dollars, to finance the acquisition of Enterprises. The December 31, 1981 term loan balance includes \$405,215,000 which is repayable in US funds in the amount of \$337,567,000 US.

The term loan bears interest at floating rates. At December 31, 1981 the interest rate on both the Canadian dollar and the US dollar borrowings was approximately 17%.

The 1981 term loan borrowings are being repaid by funds from the Canadian Ownership Account (Note 10). Accordingly, the loan is reflected as non-current.

PETRO-CANADA—Continued

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

DECEMBER 31, 1981—Continued

9. Preferred Shares Issued by a Subsidiary

The preferred shares issued by a subsidiary consist of 12,500,000 floating rate, cumulative, redeemable, non-voting, preferred shares issued at \$100 US per share to a group of Canadian chartered banks.

The shares are redeemable, at the option of the subsidiary, at \$100 US per share, plus accrued dividends.

Cumulative dividends, payable quarterly, are, at the option of the subsidiary, based on a percentage of either the United States Base Rates, or the London Inter-Bank Offered Rates of the banks. At December 31, 1981, the dividend rate was approximately 9% per annum.

Under the terms of an agreement between the banks and the Corporation, in the event that the subsidiary does not exercise its option to redeem the shares over a ten year period beginning December 31, 1983, or in the event of certain occurrences under the provisions of the agreement, the banks have the option to require the Corporation to purchase the shares at \$100 US per share, plus accrued dividends.

10. Convertible Notes

The Corporation issued convertible notes to the Government of Canada in acknowledgement of funds received during 1981 from the Canadian Ownership Account. These funds were applied against the revolving term loan (Note 8). The Corporation will continue to receive funds available to the Canadian Ownership Account and issue convertible notes in acknowledgement thereof, until the portion of the revolving term loan, including interest thereon, applicable to the acquisition of Enterprises (Note 2), to a maximum of \$1.7 billion, has been repaid.

The notes, which are non-interest bearing, will be converted into common shares of the Corporation. Interest on the revolving term loan has been reflected as deferred interest pending conversion of the notes which will create contributed surplus against which the deferred interest will be charged.

11. Capital

Authorized

The initial authorized capital of the Corporation was \$500 million divided into 100 common shares of the par value of \$5 million each. This was increased to 120 common shares on the acquisition of the capital stock of Panarctic Oils Ltd., previously owned by the Government of Canada.

Pursuant to the Petro-Canada Act, and subject to certain conditions and limitations as to the aggregate amount, the authorized capital of the Corporation is increased by the issue of preferred shares. Accordingly, at any time, the authorized and issued preferred shares are identical. The preferred shares have a par value of \$1 each, are redeemable at par at the option of the Corporation, carry no stated rate of dividend and are non-cumulative.

The Government of Canada has proposed legislation to increase the authorized capital of the Corporation to a maximum of \$5,500,000,000, in part to facilitate the conversion of the notes (Note 10).

Issued (to the Government of Canada):

	1981		1980	
	Number of Shares	Consideration	Number of Shares	Consideration
Common Shares				
Balance at beginning of year	116	580,000	116	580,000
In consideration for shares of Panarctic Oils Ltd. (Note 4)	4	20,000		
Balance at end of year	120	600,000	116	580,000
Preferred Shares				
Balance at beginning of year	423,799,853	423,800	343,799,853	343,800
For cash	440,000,000	440,000	80,000,000	80,000
In consideration for shares of Panarctic Oils Ltd. (Note 4)	972,000	972		
Balance at end of year	864,771,853	864,772	423,799,853	423,800

12. Income Taxes

The provision for income taxes of \$225,174,000 (1980—\$155,464,000) represents an effective rate of 52.5% (1980—48.8%) on earnings before income taxes of \$429,018,000 (1980—\$319,150,000). The provision has been computed as follows:

	1981	1980
Earnings before income taxes	429,018	319,150
<i>Add (deduct)</i>		
Royalties and other payments to Provincial Governments	264,392	213,231
Federal allowances		
Resource allowance	(152,619)	(132,791)
Tax depletion	(88,152)	(94,730)
Scientific research allowance	(14,078)	(2,173)
Frontier exploration allowances		(5,198)
Non-deductible interest on Bank Income Debentures	13,556	12,879
Petroleum and gas revenue tax	52,105	
Amortization of excess of attributed value over book value of assets acquired on purchase of subsidiary companies	65,923	48,520
Equity in earnings of affiliates	(20,998)	(16,026)
Other	3,896	(2,192)
	553,043	340,670
Combined Canadian Federal and Provincial income tax at 50.2% (1980—48.8%)	277,628	166,247
Deduct tax rebates and credits		
Provincial income tax rebate plans	(14,060)	(10,783)
Federal investment tax credit	(38,394)	
Provision for income taxes	225,174	155,464

13. Pension Plan

The present value of all unfunded past service pension obligations, based on actuarial computations, is approximately \$20,200,000 at December 31, 1981, of which \$16,200,000 was assumed on the acquisition of Enterprises.

Effective January 1, 1982, the Corporation integrated Enterprises' pension plan with its own plan. Certain amendments were required for the integration which resulted in an additional unfunded past service obligation of \$13,500,000.

PETRO-CANADA—Continued**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**
DECEMBER 31, 1981—Continued**14. Segmented Information**

The Corporation operates principally in the following business segments:

<u>Business Segment</u>	<u>Operations</u>
Natural resources	Exploration, development and production activities for crude oil, natural gas, field liquids, sulphur, oil sands, coal and minerals.
Refined oil products	Purchase and sale of offshore oil (including transactions undertaken in accordance with Government of Canada directives); refining crude oil into oil products; distribution and marketing of these and other purchased refined oil products.
Natural gas liquids	Extraction of liquids from natural gas; transportation, distribution and marketing of the natural gas liquids.

The financial results of operations by business segment are as follows:

	1981				
	Natural Resources	Refined Oil Products	Natural Gas Liquids	Eliminations	Total

PETRO-CANADA—Concluded**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 1981—Concluded**

Inter-segment transfers are accounted for at market value.

The identifiable assets at December 31, and the amount of capital expenditures for the year, by business segment, are as follows:

	Identifiable Assets		Capital Expenditures	
	1981	1980	1981	1980
Natural resources	4,336,988	2,919,403	527,754	386,016
Refined oil products ..	1,419,042	223,085	80,358	17,399
Natural gas liquids ..	154,175	148,550	2,498	1,212
Other	702,328	475,728	99,271	34,906
	6,612,533	3,766,766	709,881	439,533

Other identifiable assets include cash and short-term deposits, investments in other companies, general corporate assets and miscellaneous corporate ventures.

15. Comparative Figures

Certain reclassifications have been made to the 1980 comparative figures to conform with the current year's presentation.

16. Commitments and Contingencies**(a) Commitments**

In addition to commitments incurred in the ordinary course of business the Corporation has, at December 31, 1981, the following commitments:

- (i) The Corporation is participating in the construction of an office complex in Calgary and is also participating in the construction of an offshore drilling vessel. These projects will require a commitment by the Corporation of approximately \$222,000,000, which is expected to be financed by mortgage borrowings. In addition the Corporation has entered into a long-term lease for the use of the drilling vessel and has agreed to enter into a long-term lease for the use of the office complex.
- (ii) The Corporation has leased certain offshore drilling vessels for periods of one to four years. The gross lease rentals will amount to approximately: 1982—\$160,000,000, 1983—\$167,000,000, 1984—\$164,000,000 and 1985—\$43,000,000. These vessels will be used by the Corporation in exploration projects carried out during the Canadian drilling season and the lease rentals will be shared with other participating companies. It is planned to sublease the drilling vessels while they are not being used in such projects.
- (iii) The Corporation is a participant in a project operated by Syncrude Canada Ltd. to produce synthetic crude oil from the Athabasca Oil Sands. Associated with the Syncrude Project are facilities which are not owned by the participants, consisting of a steam and electricity generating plant, a field gas supply pipeline and a pipeline to transport plant product to Edmonton. The Corporation, together with the other participants, has minimum usage commitments relating to these facilities.

(b) Contingencies

- (i) On January 9, 1980 the Atlantic Richfield Company served the Corporation and a subsidiary with a Statement of Claim requesting that the Corporation cause the subsidiary to pursue a monetary claim for \$12,039,000 against the Government of Saskatchewan with respect to payments made by it under certain Saskatchewan legislation (subsequently determined to be unconstitutional) prior to the time the shares of the subsidiary were acquired by the Corporation from Atlantic Richfield Company. The Statement of Claim asks the court, inter alia, for certain injunctive relief and general damages in the amount of \$20,000,000. Prior to the service of the Statement of Claim, the subsidiary had executed an assignment and quitclaim agreement with the Government of Saskatchewan pursuant to which the payments made under the unconstitutional legislation were applied in satisfaction of an assessment under the Oil Well Income Tax Act, 1978 for the same period as the payments previously made. In the opinion of management, based on the advice of counsel, no provision for the claim is required in the accounts of the Corporation.
- (ii) Certain of the transactions previously referred to in Notes 4 and 11 and the reimbursement, if necessary, of an advance in the amount of \$40,000,000 with interest, made in connection with the Cold Lake Project are subject to the enactment of proposed legislation by the Government of Canada.

ROYAL CANADIAN MINT

(Incorporated by the Royal Canadian Mint Act)

AUDITOR'S REPORT

THE HONOURABLE JEAN-JACQUES BLAIS, P.C., M.P.
MINISTER OF SUPPLY AND SERVICES

I have examined the balance sheet of the Royal Canadian Mint as at December 31, 1981 and the statements of earnings, reserve for losses and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the corporation as at December 31, 1981 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year, after giving retroactive effect to the change in the application of the method of billing for Canadian circulating coins as explained in Note 4 to the financial statements.

I further report that, in my opinion, proper books of account have been kept by the corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

KENNETH M. DYE
Auditor General of Canada

Ottawa, Ontario

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1981

1. Governing statute and corporate objectives

The Mint was incorporated in 1969 by the Royal Canadian Mint Act and is an agent of Her Majesty named in Schedule C of the Financial Administration Act.

The principal objectives of the Mint are to:

- produce and arrange for the production and supply of coins of the currency of Canada;
- produce coins of the currency of countries other than Canada;
- melt, assay and refine gold, silver and other metals;
- buy and sell gold, silver and other metals;
- assay, refine, store and otherwise deal with gold, silver and other metals for the account of Her Majesty or others;
- prepare and store shipments of coin, gold, silver and other metals and to move such shipments to or from the Mint; and
- make medals, plaques and other devices.

2. Statutory financial limitations

In accordance with its governing statute, the Mint is subject to the following limitations:

- The Mint has within the Consolidated Revenue Fund a special account known as the Royal Canadian Mint Account, in which loans made and all moneys received and expended as well as repayment of loans are credited or charged;
- loans made to the Mint are made by the Minister of Finance on the recommendation of the Minister on such terms and conditions as are approved by the Governor in Council;
- loans made to the Mint for fixed assets and working capital may not in the aggregate exceed \$35 million, which includes a maximum of \$5 million for working capital;
- loans made to the Mint for temporary purposes may not in the aggregate exceed \$1 million and each shall be repaid within twelve months from the day on which the loan is made; and
- the Mint may make a provision for earnings for a reserve against possible losses, but the aggregate amount in the reserve at any one time shall not exceed \$1 million. Any earnings in excess of that required for the appropriation to the reserve and to cover previous losses shall be applied to the revenues of Canada.

3. Significant accounting policies

(a) Inventories

Finished goods, work in process and raw materials are valued at the lower of cost and net realizable value, cost being determined by the average cost method.

Operating and maintenance supplies inventory is valued at the lower of cost and replacement cost, cost being determined by the average cost method.

ROYAL CANADIAN MINT—Continued

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1981—Continued

(b) Fixed assets

Fixed assets are recorded at historical cost and depreciated under the straight-line method at the following annual rates:

	Rate
Land improvements.....	5%
Buildings	5%
Equipment	10%

(c) Translation of foreign currency transactions

Foreign currency transactions are translated at the exchange rate prevailing at the transaction date. Any asset or liability item expressed in foreign currency at the balance sheet date is translated into Canadian dollars at the rate prevailing at that date.

(d) Leasehold improvements

Leasehold improvements are charged to expense in the year they are incurred.

(e) Employee termination benefits

According to their collective agreement and terms of employment, the Mint employees are entitled to termination benefits. The liability for these benefits is recorded in the accounts when earned by the employees.

(f) Pension plan

The Mint employees participate in the Public Service Superannuation plan, which is administered by the Government of Canada. Contributions to the plan are required by both the employees and the Mint. These contributions represent the Mint's total debt and are recorded on a current basis.

4. Change in the application of the method of billing for Canadian circulating coins

Since 1979, the Mint has invoiced the Department of Finance for the value of raw materials used in the manufacture of its coins at the average monthly cost of its raw materials inventory, computed at the close of the period immediately preceding the end of production. During the year, the Mint modified its interpretation of the expression "period of production" as outlined in a letter of agreement with the Department of Finance and considered this period as beginning at the start of coin production.

As a result of this change, the net earnings for the current year were increased by \$583,052. The earnings in excess of statutory limitations payable to the Government of Canada at January 1, 1981 were reduced by \$2,693,690. This amount represents a reduction in net earnings for the years 1980 and 1979 of \$569,276 and \$2,124,414 respectively.

5. Correction to the accounting treatment of gold exchange sale transactions

In 1980, gold exchange sale transactions on the Gold Maple Leaf program were accounted as revenue in the year the coins were shipped. An examination of the contracts signed with the distributors revealed that the transactions were in fact leases. In 1981, the Mint decided to treat these sale transactions as leases and to adjust the 1980 financial statements retroactively.

As a result of this change, the net earnings for the current year were reduced by \$227,598. The earnings in excess of statutory limitations payable to the Government of Canada at January 1, 1981 were reduced by \$1,586,464, representing the amount by which net earnings for the year ended December 31, 1980 were reduced.

6. Inventories

	1981	1980
	\$	\$
Raw materials	15,703,939	35,650,584
Work in process	2,327,159	3,840,444

Operating and maintenance supplies	1,548,596	1,487,117
	<u>26,009,143</u>	<u>63,830,383</u>

In order to facilitate the production of the Gold Maple Leaf coin program, the Mint leases from the Department of Finance and a Canadian chartered bank the quantity of gold required and pays a leasing fee based on the value of gold established on the London market. As at December 31, 1981, a total of 1,007,204 ounces were leased and were not reflected in the financial statements.

ROYAL CANADIAN MINT—*Concluded*NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1981—*Concluded*

11. Long-term debt

Loans from the Government of Canada bear interest at various annual rates ranging from 7.625% to 10.125%, payable according to the following schedule:

	\$
1982	2,131,785
1983	2,131,785
1984	6,971,785
1985	2,131,785
1986	1,531,785
	<u>14,898,925</u>
1987 to 1998	5,230,870
	<u>20,129,795</u>
Less: current portion of long-term debt	2,131,785
	<u><u>17,998,010</u></u>

12. Additional information on cost of goods sold

The cost of goods sold, included in the 1981 expenses, amounts to \$555,450,771 (\$920,610,028 in 1980) and is detailed as follows:

	1981	1980
	\$	\$
Raw materials	532,855,086	903,049,178
Direct labour	3,019,538	3,081,838
Manufacturing overhead expenses	19,576,147	14,479,012
	<u>555,450,771</u>	<u>920,610,028</u>

13. Related party transactions

In addition to the transactions conducted with the Government of Canada referred to in Notes 2, 9 and 11, the Mint conducted during the year transactions with the Department of Finance as follows:

	Ounces
Refinement and borrowing of gold	955,100
Purchases of gold and silver	888,851
Sales of silver	77,539

14. Contingencies

- (a) The result of a claim of \$12,000,000 against the Mint for an alleged infringement of copyright on the design of a certain coin is uncertain. Management and the Mint's legal adviser are of the opinion that the claim is neither properly founded nor supported and will not result in a loss to the Mint. Therefore, no provision for contingency was established.
- (b) The Mint has filed a claim for faulty construction at its Winnipeg plant. The amount of settlement cannot be ascertained as at December 31, 1981.
- (c) A parcel of land owned by the Mint was granted to the City of Winnipeg for the purpose of widening a major municipal artery. A memorandum of agreement was signed with the City's officials but not ratified by City Council. It is therefore difficult to determine the amount the Mint will realize on this sale.

Settlements resulting from the resolution of the above contingencies will be accounted for as prior years adjustments, except for the parcel of land granted to the City of Winnipeg, which will be accounted for in the year in which the settlement occurs.

15. Commission to an agent

The total commission earned by Comarex A.G., Switzerland, an agent of the Royal Canadian Mint for the sales of numismatic coins, amounts to \$468,934 in 1981 (\$667,948 in 1980).

16. Comparative figures

Certain figures of the 1980 financial statements have been reclassified to conform to the presentation adopted in 1981.

ROYAL CANADIAN MINT

(Incorporated by the Royal Canadian Mint Act)

AUDITOR'S REPORT

THE HONOURABLE JEAN-JACQUES BLAIS, P.C., M.P.
MINISTER OF SUPPLY AND SERVICES

I have examined the balance sheet of the Royal Canadian Mint as at December 31, 1980 and the statements of earnings, reserve for losses and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the corporation as at December 31, 1980 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

During our audit of the 1980 financial statements, we noted that the Corporation had, in prior years as well as after December 31, 1980, engaged in the business practice of discharging certain of its debts by

making payments to third parties in Switzerland and Belgium on account of and pursuant to the written direction of one of the Corporation's foreign distributors. Our examination has revealed that the Corporation, pursuant to an agreement to share advertising and promotional expenses incurred by a foreign distributor, has, on the latter's written instructions, made payments totalling approximately \$58,000 to third parties in countries other than that of the foreign distributor's place of business. The Board of Directors and senior officers of the Royal Canadian Mint were informed that, in my opinion, these practices were inconsistent with the intent of the Government policy and guidelines relating to the commercial practices of Crown corporations as announced in the House of Commons on December 16, 1976. In October 1981, in view of the concern of our Office, the Board of Directors directed that management discontinue these practices. My Office will continue to monitor this matter.

KENNETH M. DYE
Auditor General of Canada

Ottawa, Ontario
October 19, 1981

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1980

1. Governing statute and corporate objectives

The Mint was incorporated in 1969 by the Royal Canadian Mint Act and is an agent of Her Majesty named in Schedule C of the Financial Administration Act.

The principal objectives of the Mint are to:

- produce and arrange for the production and supply of coins of the currency of Canada;
- produce coins of the currency of countries other than Canada;
- melt, assay and refine gold, silver and other metals;
- buy and sell gold, silver and other metals;
- assay, refine, store and otherwise deal with gold, silver and other metals for the account of Her Majesty or others;
- prepare and store shipments of coin, gold, silver and other metals and to move such shipments to or from the Mint; and
- make medals, plaques and other devices.

2. Statutory financial limitations

In accordance with its governing statute, the Mint is subject to the following limitations:

- The Mint has within the Consolidated Revenue Fund a special account known as the Royal Canadian Mint Account, in which loans made and all moneys received and expended as well as repayment of loans are credited or charged to the account;
- loans made to the Mint are made by the Minister of Finance on the recommendation of the Minister on such terms and conditions as are approved by the Governor in Council;

ROYAL CANADIAN MINT—Continued

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 1980—Continued

- (c) loans made to the Mint for fixed assets and working capital may not in the aggregate exceed \$35 million, which includes a maximum of \$5 million for working capital;
- (d) loans made to the Mint for temporary purposes may not in the aggregate exceed \$1 million and each shall be repaid within twelve months from the day on which the loan is made; and
- (e) the Mint may make a provision from earnings for a reserve against possible losses, but the aggregate amount in the reserve at any one time shall not exceed \$1 million. Any earnings in excess of that required for the appropriation to the reserve and to cover previous losses shall be applied to the revenues of Canada.

3. Significant accounting policies

(a) Inventories

Finished goods, work in process and raw materials are valued at the lower of cost and net realizable value, cost being determined by the average cost method.

Operating and maintenance supplies inventory is valued at the lower of cost and replacement cost, cost being determined by the average cost method.

(b) Fixed assets

Fixed assets are recorded at historical cost and depreciated under the straight-line method and at the following annual rates:

	Rate
Land improvements	5%
Buildings	5%
Equipment	10%

(c) Translation of foreign currency transactions

Foreign currency transactions are translated at the exchange rate prevailing at the transaction date. Any asset or liability item expressed in foreign currency at the balance sheet date is translated into Canadian dollars at the rate prevailing at that date.

(d) Leasehold improvements

Leasehold improvements are charged to expense in the year they are incurred.

(e) Employee termination benefits

According to their collective agreement and terms of employment, the Mint employees are entitled to termination benefits. The liability for these benefits is recorded in the accounts when earned by the employees.

(f) Pension plan

The Mint employees participate in the Public Service Superannuation plan, which is administered by the Government of Canada. Contributions to the plan are required by both the employees and the Mint. These contributions represent the Mint's total debt and are recorded on a current basis.

(g) Mint displays

The Mint maintains displays of minted products in Ottawa and Winnipeg. These contain Canadian and foreign coins and medals of undetermined value. As these coins are not intended for resale, they are excluded from the accounts.

ROYAL CANADIAN MINT—Concluded**NOTES TO FINANCIAL STATEMENTS****DECEMBER 31, 1980—Concluded****9. Long-term debt**

Loans from the Government of Canada bear interest at various annual rates ranging from 7.625% to 10.125%, payable according to the following schedule:

	\$
1981	2,131,785
1982	2,131,785
1983	2,131,785
1984	6,971,785
1985	2,131,785
	<u>15,498,925</u>
1986 to 1998	6,762,655
	<u>22,261,580</u>
Less: current portion of long-term debt	<u>2,131,785</u>
	<u>20,129,795</u>

10. Additional information on cost of goods sold

The cost of goods sold, included in the 1980 expenses, amounts to \$989,759,363 and is detailed as follows:

	\$
Raw materials	972,939,086
Direct labour	3,081,838
Manufacturing overhead expenses	13,738,439
	<u>989,759,363</u>

11. Contingencies

The result of a claim of \$12,000,000 against the Mint for an alleged infringement of copyright on the design of a certain coin is uncertain. Management as well as the Mint's legal adviser are of the opinion that the claim is neither properly founded nor supported and will not result in a loss to the Mint. Accordingly, a provision for a contingency was not established.

The Mint has filed a claim for faulty construction of the Mint's building in Winnipeg. At the present time, the amount of this claim cannot be ascertained.

Any settlements resulting from the resolution of the above contingencies will be accounted for as prior year adjustments.

12. Commission to an agent

The total commission earned by Comarex A.G., Switzerland, as an agent of the Royal Canadian Mint, for the sales of numismatic coins amounts to \$667,948 in 1980 (\$556,107 in 1979).

13. Comparative figures

Certain figures of the 1979 Financial Statements have been reclassified to conform to the presentation adopted in 1980.

14. Additional information**(a) Safekeeping**

As at December 31, 1980, the Mint held the following inventories which were excluded from its accounts:

On behalf of the Department of Finance:

	\$
Gold and silver at year end market value	108,721,119
Coins at face value	12,536,125
	<u>121,257,244</u>

On behalf of third parties:

	\$
Gold and silver at year end market value	87,491,456
Unprocessed ore at approximate market value	84,525,015
	<u>172,016,471</u>
	<u>293,273,715</u>

(b) Standby arrangements for gold

As at December 31, 1980, the Mint had on hand 990,118 ounces of fine gold, having a market value of \$696,795,286, which was owned by the Department of Finance and a Canadian chartered bank. This gold is principally used to facilitate the production of the Gold Maple Leaf Coin Program. The Mint pays a rental fee for this gold based on the daily amount outstanding valued at the afternoon London fixings.

THE ST. LAWRENCE SEAWAY AUTHORITY

AUDITOR'S REPORT

THE HONOURABLE JEAN-LUC PEPIN, P.C., M.P.
MINISTER OF TRANSPORT

I have examined the balance sheet of The St. Lawrence Seaway Authority as at March 31, 1982 and the statements of operations, deficit and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Authority as at March 31, 1982 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Authority, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

THE ST. LAWRENCE SEAWAY AUTHORITY—Continued

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 1982

1. Objectives and operations

The St. Lawrence Seaway Authority was established in 1954 under The St. Lawrence Seaway Authority Act and is classified as a proprietary Crown corporation under Schedule D of the Financial Administration Act.

The Authority was established to construct and operate a deep waterway between the Port of Montreal and Lake Erie together with such works and other property, including bridges incidental to the deep waterway, as deemed necessary by the Governor in Council.

2. Significant accounting policies

(a) Investment in Canada bonds

The investment in Canada bonds is recorded at cost. All gains or losses, including any premiums or discounts on acquisition, are recognized when the bonds are sold.

(b) Investment in subsidiary companies

The investment in subsidiary companies is recorded at cost. The financial statements of the subsidiaries have not been consolidated in these financial statements because increases in the equity of the subsidiaries do not accrue to the Authority. Separate financial statements for the subsidiary companies are available to the public and condensed financial statements are included in Note 4.

(c) Fixed assets

Fixed assets are recorded at cost. All additions, replacements or major improvements which increase the capacity of the deep waterway system are capitalized. Repairs and maintenance are charged to operations as incurred. The cost of assets sold, retired, or abandoned, and the related accumulated depreciation are removed from the accounts on disposal. Gains or losses on disposals are credited or charged to operations.

Depreciation is recorded on the straight-line method based on the estimated useful lives of the assets.

(d) Employee termination benefits

Employees of the Authority are entitled to specified benefits on termination as provided for under labour contracts and conditions of employment. The liability for these benefits is recorded in the accounts as the benefits accrue to employees.

(e) Pension plan

All employees of the Authority are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required from both the employee and the Authority. These contributions represent the total liability of the Authority and are recognized in the accounts on a current basis.

(f) Revenue recognition

The Authority recognizes revenues from tolls based upon the shipping season which normally corresponds to the Authority's fiscal year commencing April 1. In the event that the season opens prior to April 1, the revenues earned are deferred until the commencement of the new fiscal year.

(g) Grants in lieu of taxes

Grants in lieu of municipal and school taxes are expensed when paid.

3. Long-term receivables

The Authority has entered into long-term contractual agreements for the sale of two parcels of land and for the recovery of costs associated with the construction of certain facilities.

These amounts are being collected in annual instalments in accordance with the terms of the contractual agreements. An amount of \$305,568 is non-interest bearing, and the balance bears interest at rates of 5 ¼% and 5 ½%.

4. Subsidiary companies

The investment in subsidiaries consists of the cost of the shares of the following wholly-owned subsidiaries:

	\$
Great Lakes Pilotage Authority, Ltd. (G.L.P.A.).....	1,500
The Jacques Cartier and Champlain Bridges Incorporated (J.C.C.B.)	100
The Seaway International Bridge Corporation, Ltd. (S.I.B.C.).....	8,000
	<u>9,600</u>

Condensed financial statements for these subsidiaries for their most recently completed fiscal year follow:

	G.L.P.A. Dec. 31/81	J.C.C.B. Mar. 31/82	S.I.B.C. Dec. 31/81

Interest during construction		32,822,016		32,822,016	32,822,016
Remedial works—Expenditures on properties owned by others, relating to Seaway construction	1%	134,018,970	18,618,623	115,400,347	116,740,537
Works under construction		8,145,593		8,145,593	5,587,838
		790,123,152	182,498,211	607,624,941	609,943,273

No depreciation has been provided on interest of \$32,822,016 capitalized during construction of the Welland Modernization Project. It is anticipated that the interest will be cancelled and reversed as part of the second phase of the refinancing of the Authority.

6. Equity financing

As of April 1, 1977, loans from Canada of \$624,950,000 were converted to equity by parliamentary appropriation. The unpaid interest on these loans is reflected on the balance sheet as deferred interest. This deferred interest, on which no further accrual of interest is required, is not classified as a current liability because it is the intention of the Authority to seek approval from Parliament to have the unpaid interest forgiven.

The parliamentary appropriation authorizing the 1977 conversion of loans from Canada to equity also authorized the Minister to fix, from time to time, the amount that shall be paid by the Authority annually out of its toll revenue as a return on capital. No return on capital has been required to be paid for the 1982 and 1981 fiscal years.

7. Income Taxes

The Authority, as a Schedule D Crown corporation, is subject to the provisions of the Income Tax Act. The Authority is not subject to any provincial income taxes.

To date, accumulated loss carry-forwards from previous years have been sufficient to offset taxable income. However, no losses are available to offset any taxable income after the 1982 fiscal year.

The Authority has, for fixed assets, undepreciated capital cost for tax purposes in excess of net book value for accounting purposes of approximately \$175,000,000. The tax effect of this excess has not been recorded in the accounts.

The Authority has incurred research and development costs of approximately \$6,000,000 and will apply, under Section 37 of the Income Tax Act, to have these costs deferred and made available to reduce the taxable income of future periods.

The Authority also has unused investment tax credits of approximately \$526,000 available to reduce future taxes payable. These tax credits expire in varying amounts up to March 31, 1987.

8. Contingencies and commitments

In connection with its operations, the Authority is the claimant or defendant in certain pending or threatened claims and lawsuits. It is the opinion of management that these actions will not result in any material liabilities to the Authority.

Contractual expenditures, committed but not expended, at March 31, 1982 amounted to \$880,988 (1981—\$3,034,487).

THE SEAWAY INTERNATIONAL BRIDGE CORPORATION, LTD.
(Continued under the Canada Business Corporations Act)

AUDITOR'S REPORT

THE HONOURABLE JEAN-LUC PEPIN, P.C., M.P.
 MINISTER OF TRANSPORT

I have examined the balance sheet of The Seaway International Bridge Corporation, Ltd. as at December 31, 1981 and the statements of operations and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Corporation as at December 31, 1981 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

RAYMOND DUBOIS

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1981

1. Nature of activities

The Seaway International Bridge Corporation, Ltd., a wholly owned subsidiary of The St. Lawrence Seaway Authority, was incorporated for the purpose of operating and managing the international toll bridge system between Cornwall, Ont., and Rooseveltown, N.Y., on behalf of The St. Lawrence Seaway Authority and the Saint Lawrence Seaway Development Corporation.

2. Significant accounting policies

Depreciation

Depreciation of equipment is based on the estimated useful life of the assets calculated on a straight-line basis at the following annual rates:

Automotive	20%
Office and shop	10%
Toll equipment	10%

Employee termination benefits

Employees of the Corporation are entitled to specified benefits on termination as provided for under the conditions of employment. The liability for these benefits is recorded in the accounts as the employees become entitled to the benefits.

Pension plan

All employees of the Corporation are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required from both the employee and the Corporation. These contributions represent the total pension liability of the Corporation and are recognized in the accounts on a current basis.

Deferred income

Unredeemed toll tokens are recorded as deferred income.

3. Debentures payable

The debentures due on December 31, 2012 are non-interest bearing and payable to the Saint Lawrence Seaway Development Corporation.

4. Bridge user charge

By agreement between The St. Lawrence Seaway Authority and the Saint Lawrence Seaway Development Corporation, the annual income from the bridge system after all operating expenses, is paid as a bridge user charge, first to the Authority to offset the amortization of the cost of the North Channel Bridge together with interest, then to the Development Corporation to offset the amortization of the cost of Racquette River Bridge, and the balance, if any, is then divided equally between both parties.

All bridge user charges since the commencement of operations have been paid to The St. Lawrence Seaway Authority.

5. Related party transactions

The Seaway International Bridge Corporation, Ltd. receives certain administrative services, without charge from The St. Lawrence Seaway Authority.

TELEGLOBE CANADA*(Established by the Teleglobe Canada Act)***AUDITOR'S REPORT**

THE HONOURABLE FRANCIS FOX, P.C., M.P.
MINISTER OF COMMUNICATIONS

I have examined the balance sheet of Teleglobe Canada as at March 31, 1982 and the statements of income, retained earnings and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances, except as explained in the following paragraph.

As described in Note 5 to the financial statements, partnership accounts in respect of the Commonwealth Telecommunications Organisation's financial arrangements have been finalized only to March 31, 1976 under the current Agreement. For those years in respect of which accounts have not been finalized, the Corporation has included estimated amounts recoverable from the partnership in income, and has provided in its liabilities for the excess of provisional settlements received over the estimated recoverable amounts. However, available information is not adequate to enable me to assess the probable results of the final settlements for those years. Consequently, I am unable to determine whether adjustments to current liabilities, income tax, retained earnings, net income and funds derived from operations might be necessary.

In my opinion, except for the effects of adjustments, if any, which I might have determined to be necessary if I had been able to satisfy myself with respect to the estimated recoverable amounts and the excess of provisional settlements received over the estimated recoverable amounts described in the previous paragraph, these financial statements give a true and fair view of the financial position of the Corporation as at March 31, 1982 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

KENNETH M. DYE
Auditor General of Canada

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1982**1. Nature of activities**

Teleglobe Canada, created by the Teleglobe Canada Act, is mandated to establish, maintain and operate Canada's international telecommunications services and to coordinate these services with those of other countries.

2. Significant accounting policies

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in Canada. The Corporation follows the significant accounting policies summarized below:

(a) Fixed assets

Fixed assets are stated at acquisition cost, which includes salaries, wages, fringe benefits and certain overhead costs related to construction activities. In addition, for major capital projects, an allowance for funds used during construction is included.

Fixed assets owned jointly are accounted for proportionally to the Corporation's share.

From time to time the Corporation acquires indefeasible rights of user for international telecommunications circuits that extend over specific time periods. Moreover, Teleglobe Canada may grant such rights on circuits owned by the Corporation, or grant such rights that have been previously acquired. The amounts paid or received according to the terms of these transactions are recorded as Fixed Assets and depreciated over the duration of each agreement.

TELEGLOBE CANADA—Continued

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 1982—Continued

The Corporation has been designated by the Government of Canada to be the Canadian signatory to the International Telecommunications Satellite Organization (INTELSAT). Periodically, each signatory's ownership share is adjusted to conform to its percentage of total use of the system. Teleglobe's ownership share is reported in Fixed Assets and depreciated in accordance with the Corporation's fixed assets depreciation policy.

(b) Allowance for funds used during construction

The rate applied in determining the allowance for funds used during construction of major capital projects is based principally on the interest rate established by the Minister of Finance for mid-term Government loans to Crown corporations. This allowance is treated as an item of income during the construction period of these facilities. Such income is not realized immediately but will be realized over the service life of the facilities.

(c) Depreciation of fixed assets

Fixed assets are depreciated over their respective estimated service lives, using the straight-line method. When depreciable assets are taken out of service, their net book value, less salvage, is charged to Depreciation. When other assets are taken out of service, any resulting profit or loss is reflected in current earnings. In the event of a satellite launch failure or breakdown of an orbiting satellite, the costs are depreciated over the life of the group of satellites.

(d) Commonwealth Telecommunications Organisation (CTO)

The Corporation is the designated Canadian participant in the CTO, the purposes of which are to promote the development and efficient operation of the Commonwealth external telecommunication system and to provide for the administration of collaborative financial arrangements. The Financial Agreement provides that aggregate expenses incurred by all Partners in the provision and operation of the global system are apportioned to Partners based on the use they make of each facility. Use of the system is measured in terms of number of units of traffic carried over each facility.

Final allocations are effected on the basis of audited data submitted by each Partner. However, provisional settlements are made between Partners during each financial year on the basis of estimated traffic volumes and system costs. Since all of the final data is not available to the Corporation at the end of its financial year, Teleglobe Canada records estimated recoverable costs in respect of the current financial year and adjusts the estimates in respect of the previous years when additional information becomes available and at the time final settlements are made.

(e) Operating revenues

Operating revenues from public services rendered through the Corporation's telecommunications network (telephone, telex and telegraph) represent the Corporation's portion of amounts billed to domestic and foreign subscribers by domestic carriers and foreign administrations. Estimates are included to provide for that part of revenues for which connecting carriers and administrations have yet to report to the Corporation.

Revenues from other services are derived primarily from leasing circuits owned or leased by the Corporation to other administrations and private users.

The share of INTELSAT net revenues represents the Corporation's share of the international satellite telecommunications system revenues, less its share of operating expenses excluding depreciation.

(f) Foreign exchange

Assets and liabilities as well as revenues and expenses from transactions conducted in foreign currencies are converted into Canadian dollars at the average exchange rate for the month in which the transaction occurred. At the end of the financial year, recorded balances representing cash and amounts expressed in foreign currencies are adjusted to reflect the exchange rate prevailing at the date of the balance sheet. Currency gains and losses are reflected in current earnings.

(g) Pension plan

All employees of the Corporation are covered by a pension plan administered by the Government of Canada. These employees and the Corporation are required to contribute to the cost of the plan for current services. These contributions represent the total liability of the Corporation in this matter and are recognized in its accounts on a current basis.

(h) Retirement benefits

A benefit equivalent to one half of accumulated unused sick leave days up to March 31, 1981, with an additional credit of five days for every year of service after that date, calculated at the salary level in effect at the time of retirement, is payable to employees upon retirement. The cost of the benefit is expensed in the year in which it is earned by employees.

3. Fixed assets

(a) The main classes of fixed assets are as follows:

	1982		1981	
	(in thousands of dollars)			
	Cost	Accumulated depreciation	Net	Net
Land	4,798		4,798	3,478
Buildings and leasehold improvements	29,119	9,867	19,252	15,647
Furnishings	5,777	1,953	3,824	3,114
Cable systems	82,230	52,079	30,151	33,158
Terminal, transmission and switching equipment	139,744	65,250	74,494	56,253
International satellite system space segment (INTELSAT)	23,008	13,538	9,470	9,429
Other plant and equipment	20,447	11,597	8,850	7,992
Construction in progress	46,832		46,832	45,490
	351,955	154,284	197,671	174,561

TELEGLOBE CANADA—Continued

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 1982—Continued

- (b) The estimated service lives for the main classes of fixed assets for purposes of depreciation are as follows:

	Number of years
Buildings	13 to 40
Leasehold improvements	over the term of the lease
Furnishings	8 to 10
Cable systems	20 to 25
Terminal, transmission, and switching equipment	3 to 20
International satellite system space segment (INTELSAT)	6 to 12
Other plant and equipment	5 to 25

- (c) The depreciated cost of fixed assets owned outright by the Corporation or owned jointly with other telecommunications entities is as follows:

	1982	1981
	(in thousands of dollars)	
Owned outright	125,493	113,679
Owned jointly (Corporation's share)	72,178	60,882
	<u>197,671</u>	<u>174,561</u>

- (d) As at March 31, 1982 construction in progress includes an amount of \$16,248,000 (\$14,294,000 as at March 31, 1981) for the international satellite system space segment (INTELSAT).

- (e) As at March 31, 1982 the Corporation's ownership share in INTELSAT is 2.490316 percent (2.873088 percent as at March 31, 1981).

4. Deferred charges

Deferred charges include:

	1982	1981
	(in thousands of dollars)	
Unamortized financial commitment charges related to the ANZCAN project	1,448	
Unamortized interconnection costs of the Laurentides earth station	615	899
	<u>2,063</u>	<u>899</u>
Less: current portion included in prepaid expenses	884	284
	<u>1,179</u>	<u>615</u>

5. Commonwealth Telecommunications Organisation (CTO) financial arrangements

- (a) Final settlements of partnership accounts

As at March 31, 1982 governments of 26 Commonwealth countries are signatories to the CTO Financial Agreement, 1973, which commenced April 1, 1973.

During the year ended March 31, 1982, the Corporation submitted its audited data on incurred costs and traffic volumes for the financial year ended March 31, 1980. However, because some Partners were late in submitting their audited data, partnership accounts have only been finalized up to March 31, 1976.

- (b) Estimated amount due to CTO Partners

As at March 31, 1982 the Corporation had recorded the sum of \$75,396,000 as provisional settlements for the years since March 31, 1976. Of this amount, the Corporation estimates that it may have to remit the sum of \$13,147,000 upon final settlement. These amounts are broken down by financial year as follows:

Year ended March 31	Provisional settlement	Estimated amount recoverable	Estimated amount due
(in thousands of dollars)			
1977	9,049	8,549	500
1978	16,285	11,911	4,374
1979	16,823	12,307	4,516
1980	13,915	12,396	1,519
1981	11,569	10,106	1,463
1982	7,755	6,980	775
	<u>75,396</u>	<u>62,249</u>	<u>13,147</u>

- (c) Estimated amount recoverable from CTO Partners

The estimated amount recoverable from CTO Partners reflected in the Corporation's current earnings comprises the following:

	1982	1981
	(in thousands of dollars)	
Adjustment of the estimated amount due to Partners for which accounts:		
have been finalized	(416)	3,107
have not been finalized	(573)	3,030
Estimated amount recoverable for the year	<u>6,980</u>	<u>10,407</u>
	<u>5,991</u>	<u>16,544</u>

6. Long-term debt

Long-term debt comprises:

Loans from the Government of Canada bearing interest at rates ranging from 3½ percent to 6¼ percent with the following maturities:

	1982
	(in thousands of dollars)
1982-83	3,170
1983-84	3,342
1984-85	1,297
1985-86	1,362
1986-87	1,189
1987-98	2,027
	<u>12,387</u>
Installments due within one year	3,170
	<u>9,217</u>

Amount due to the ANZCAN project contractors.

The installments cannot be determined before the end of construction estimated to be in June 1983 and November 1984 (Note 10)

6,302
15,519

TELEGLOBE CANADA—Concluded

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 1982—Concluded

7. Income tax

As a federal Crown corporation, Teleglobe Canada is not subject to provincial income taxes.

Deferred income tax results principally from timing differences between depreciation and amortization for accounting purposes and that claimed for tax purposes.

Income tax expense comprises:

	1982	1981
	(in thousands of dollars)	
Current	38,823	32,623
Deferred	4,204	2,562
	<u>43,027</u>	<u>35,185</u>

8. Other income

	1982	1981
	(in thousands of dollars)	
Allowance for funds used during construction	3,644	1,787
Interest on temporary investments	18,121	11,684
Other interest	1,197	1,530
Profit (loss) on foreign exchange	291	(151)
Profit on disposal of temporary investments	411	
	<u>23,664</u>	<u>14,850</u>

9. Financial charges

	1982	1981
	(in thousands of dollars)	
Interest on long-term debt	736	890
Amortization of financial charges of the ANZCAN project	301	
Other interest	581	384
	<u>1,618</u>	<u>1,274</u>

10. Commitments

(a) Construction in progress

As at March 31, 1982 the estimated cost of completing construction projects, planned and in progress, amounts to approximately \$437,893,000, of which \$149,415,000 relates to the year ending March 31, 1983. Contractual commitments outstanding as at March 31, 1982 amount to approximately \$85,587,000.

Contractual commitments as at March 31, 1982 include 24,939,000 pounds sterling and \$586,000 (US), equivalent to \$56,027,000 (CAN). These commitments represent the Corporation's share in a joint project undertaken with other administrations to construct ANZCAN, a submarine cable linking Canada, Hawaii, Fiji, Australia and New Zealand. The Corporation concluded agreements with the two project contractors, whereby the contractors will receive part of the Corporation's share of the payments in installments based on work completed. The balance will be paid in 17 semi-annual installments at an interest rate of 8 ¾ percent, once construction ends. According to the terms of one of the agreements, the Corporation will assure payments to the contractor by issuing bills of exchange drawn on a British bank.

(b) Long-term leases

The Corporation is a party to long-term leases for property and facilities used in the course of its activities. The aggregate minimum annual rentals which will be paid in subsequent years are:

	1982
	(in thousands of dollars)
1982-83	13,209
1983-84	13,702
1984-85	9,139
1985-86	8,406
1986-87	3,276
1987-91	9,823

Rental expenses for property and facilities for the year ended March 31, 1982 are \$11,123,000 (\$10,051,000 in 1981)

(c) Agreement with the Department of Transport

Under the terms of an agreement between the Corporation and the Department of Transport, the Corporation charters the cableship/icebreaker C.C.G.S. John Cabot on a cost reimbursement basis for periods of actual usage. This agreement is cancellable on 12 months notice. The Corporation incurred a cost of \$6,965,000 during the 1982 financial year (1,977,000 in 1981), under this agreement.

(d) INTELSAT commitments

As at March 31, 1982 the Corporation's share of INTELSAT's outstanding commitments is approximately \$23,067,000 based on INTELSAT's audited financial statements as at December 31, 1981.

11. Contingencies

(a) Retirement compensation benefits

Prior to November 1, 1974 the Corporation provided for a post-retirement life insurance plan for its retired employees. As at that date the plan was replaced by a retirement compensation benefit for all employees on staff at the time. The cost of this benefit is recognized in the accounts in the year in which payments are made. As at March 31, 1982 the maximum liability of the Corporation under this plan, should all entitled employees retire while in the service of the Corporation, amounts to \$1,965,500 (\$2,042,000 as at March 31, 1981).

(b) Estimated amount due to CTO Partners

As described in Note 5, the accounts of the partners in respect of the Commonwealth Telecommunications Organisation Financial Agreement have been finalized only to March 31, 1976. For those years in respect of which accounts have not been finalized, the Corporation has provided in its liabilities for the excess of provisional settlements received over the estimated recoverable amounts. However, the information is not sufficient for an assessment of the probable results of the final settlements of accounts for those years.

URANIUM CANADA, LIMITED*(Continued under the Canada Business Corporations Act)***AUDITOR'S REPORT**

THE HONOURABLE MARC LALONDE, P.C., Q.C., M.P.
 MINISTER OF ENERGY, MINES AND RESOURCES

I have examined the balance sheet of Uranium Canada, Limited as at December 31, 1981 and the statement of operations of accounts administered for Canada for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Corporation as at December 31, 1981 and the results of the operations administered by the Corporation for the account of Canada for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

KENNETH M. DYE
Auditor General of Canada

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1981

1. Objective of the Corporation

The objective of the Corporation is to negotiate, execute and perform agreements for the purchase, stockpiling and sale of uranium concentrates and to do or procure the doing of anything necessary or incidental thereto, all subject to the approval of the Governor in Council.

2. Assets administered for Canada

Prior to 1981, the Corporation administered, sold and loaned, as Canada's agent, the Government of Canada's general stockpile of uranium concentrates acquired by Canada during the period 1963 to 1970. All monies and benefits generated from sales or loans of uranium concentrates from the stockpile accrued to Canada after allowing for applicable expenses.

Vote L107c, Appropriation Act No. 4, 1980-81, passed by Parliament on March 25, 1981, authorized the transfer by the Minister of Energy, Mines and Resources to Eldorado Nuclear Limited of the title in the uranium stockpile, including any outstanding obligations under the loan agreement between the Corporation and Eldor Resources Limited and any interest accrued under such agreement. As beneficial ownership of these assets had always been retained by Canada, the 1981 transfer from the Corporation to Canada did not involve any exchange of consideration.

The carrying value of the assets transferred was as follows:

As at December 31, 1980	\$
General stockpile of uranium concentrates	68,165,391
Loan of uranium receivable	7,874,363
Interest receivable	<u>18,147,966</u>
	<u>94,187,720</u>
Add: accrued interest on loan January 1, 1981 to March 31, 1981	<u>2,131,267</u>
	<u><u>96,318,987</u></u>

3. Due to Canada on account of assets administered

	1981	1980
	\$	\$
Balance, beginning of the year	94,187,720	85,793,800
Add: excess of revenues over expenses, accruing to Canada	<u>2,131,267</u>	<u>14,011,219</u>
	96,318,987	99,805,019
Deduct: transfer of assets to Canada (Note 2)	<u>96,318,987</u>	<u>5,617,299</u>
payments to Canada		
Balance, end of the year	<u><u>94,187,720</u></u>	

4. Services provided without charge

Administrative services are provided to the Corporation without charge by the Department of Energy, Mines and Resources and are not recorded in these financial statements.

5. Combines investigation

The Corporation, together with five other companies, has been charged under Section 32(1)(c) of the Combines Investigation Act that it did conspire, combine, agree or arrange to prevent or lessen, unduly, competition in the production, manufacture, purchase, sale or supply in Canada of uranium, uranium oxide and other uranium substances between September 1, 1970 and April 1, 1978. The Supreme Court of Ontario issued an Order on April 23, 1982, prohibiting the Provincial Court from proceeding with the inquiry into the charge made against the Corporation. An Appeal has been lodged in the Court of Appeal by the Attorney General of Canada.

VIA RAIL CANADA INC.

AUDITORS' REPORT

TO THE HONOURABLE
THE MINISTER OF TRANSPORT

We have examined the statements of income and retained earnings and changes in financial position of VIA Rail Canada Inc. for the year ended December 31, 1981 and its balance sheet at that date. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion these financial statements are properly drawn up so as to give a true and fair view of the state of affairs of the Corporation as at December 31, 1981 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

We further report that, in our opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under our notice have been within the powers of the Corporation.

NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 1981

1. Operating agreements

(a) Railway Passenger Service Contract

The Corporation has entered into an agreement with the Government of Canada whereby the Corporation is to provide services, activities and undertakings relating to the provision, management and operation of railway passenger service in Canada.

The agreement also provides that the Minister of Transport and the Corporation shall enter into Subsidiary Service Request Agreements with respect to specified intercity rail passenger services.

(b) Canadian National Railway Company and Canadian Pacific Limited

The Corporation has entered into operating agreements with the railways for the use of tracks, facilities, train personnel and rolling stock servicing. Agreements have also been entered into for the refurbishing of passenger cars and locomotives.

2. Summary of Significant Accounting Policies

(a) Revenue Recognition

Passenger revenue is recognized when earned. Contract revenue is recognized when realized and when it is capable of being estimated.

(b) Adjustment of Operating and Refurbishing Costs

Charges from the contracting railways in respect to the operating and refurbishing agreements are recorded on an incurred and estimated basis.

The charges are subject to adjustment by the Canadian Transport Commission following a review of the actual costs incurred each year by the parties concerned.

(c) Property and Equipment

Property and equipment includes the capitalization of the initial costs of refurbishing and rebuilding of rolling stock and locomotives not previously owned and which is designed to improve the standards required and to extend the useful lives of the assets concerned.

The costs of assets retired or disposed of, less salvage, is charged to accumulated depreciation in accordance with the group method of depreciation unless a significant block of assets is retired or disposed of which then requires adjustment to current year's operations.

(d) Depreciation

Depreciation of passenger cars and locomotives is calculated on a straight-line basis in accordance with the group method at rates designed to write them off over their estimated useful lives.

Office furniture and equipment is depreciated on a straight-line basis over a ten-year period.

Leasehold and infrastructure improvements are amortized over the terms of the leases or with reference to the estimated useful life, as appropriate.

No depreciation is provided for projects in progress.

(e) Capitalized Interest on Progress Payments for Purchase of Equipment

Interest on advances for the purchase of equipment is capitalized at rates reflecting the cost of capital funds.

VIA RAIL CANADA INC.—*Concluded*NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 1981—*Concluded*

(f) Deferred Charges

Deferred charges primarily consist of the costs incurred for the development of an automated reservation and ticketing system which are amortized over a period of seven years.

(g) Income Taxes

The tax allocation basis of accounting for income taxes is followed whereby tax provisions are based on accounting income and taxes relating to timing differences between accounting and taxable income are deferred.

3. Property and Equipment

	1981	1980
	(in thousands of dollars)	
Passenger cars and locomotives	187,158	143,968
Stations	4,176	1,330
Office furniture and equipment	2,255	1,908
Leasehold and infrastructure improvements	11,934	8,926
	205,523	156,132
Accumulated depreciation and amortization	24,854	15,312
	180,669	140,820
Progress payments for purchase of equipment	98,222	50,864
	<u>278,891</u>	<u>191,684</u>

Property and Equipment is depreciated as follows:

Passenger cars and locomotives	1-17 years
Stations	5 years
Office furniture and equipment	10 years
Leasehold and infrastructure improvements	10-38 years

4. Long-term Debt

The long-term debt consists of the balance of purchase price due to Canadian National Railway Company for equipment acquired, with interest at 10%, repayable in monthly instalments of \$725,000 to and including April 1, 1984. Title to the equipment purchased remains with the vendor until full payment has been made.

5. Contributed Surplus

Contributed surplus represents advances received from the Government of Canada for capital expenditures.

6. Loss on Retirement of Assets

As a result of the service cuts ordered by the Government of Canada effective November 15, 1981, certain surplus rolling stock was retired. The Corporation has obtained authorization from both the Canadian Transport Commission and the Government of Canada to treat the retirement as a transaction affecting current operations as opposed to a reduction of accumulated depreciation. The loss represents the undepreciated value of the assets retired net of salvage value.

7. Pension Plan

A condition precedent to the establishment of the Corporation was that those employees engaged by the Corporation previously employed by either Canadian National Rail Company or Canadian Pacific Limited would be fully protected insofar as their pension benefits accrued under the Pension Plans of their former employers. During 1980, agreement was reached with the Railways and funds were transferred to the Corporation's Pension Plan which was established from January 1st, 1979. An actuarial valuation of the pension plan as at December 31, 1981 is presently in process. For 1981, contributions to the plan in respect of current service and anticipated unfunded liability in respect of past service amounted to \$6,632,000 (1980—\$6,463,000).

8. Related Party Transactions

VIA Rail Canada Inc., is a Crown Corporation with all of the issued shares owned by the Government of Canada.
